Petersburg RD	150	24,000	150		150		150		150	
Ketchikan Misty Fjords RD	450				500		1,100		1,000	
Hoonah and Sitka RDs	400		400		400		400		400	
Totals (MBF)	5,000	24,150	5,000	14,200	5,000	200	3,750	200	3,650	26,000

**The North Zone districts (Hoonah and Sitka) sales are a combination of young growth and old growth small and microsalses.*

This data is preliminary and will change based on additional analysis currently underway by the Forest Service and in collaboration with the All Landowners group. This 5-year plan does not include any volume that may come from settlement sales.

The agency's emphasis on young growth will require a focused effort to identify complementing timber sale opportunities across landowners to ensure retention of infrastructure and allowing industry to adapt.

M. Earl Stewart
Forest Supervisor
