

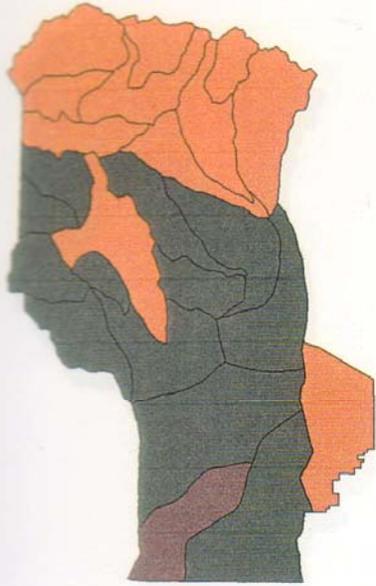

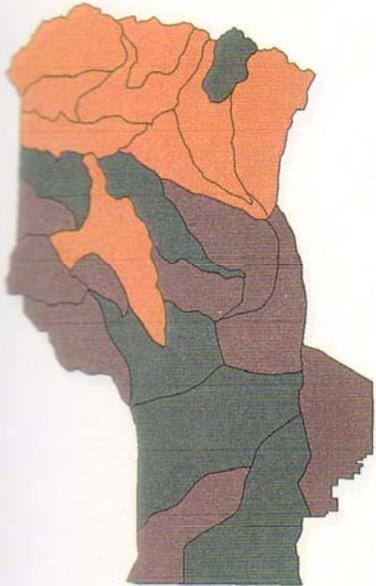

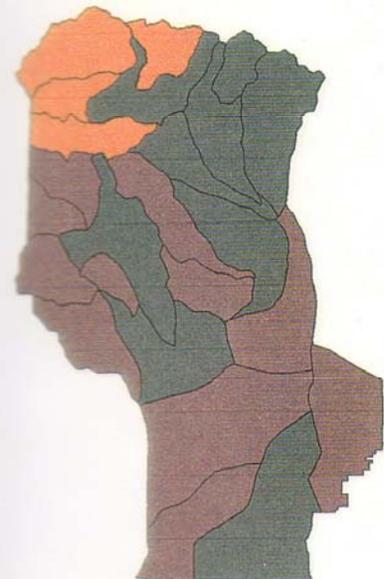

Figure 3. Recreation Uses 6th Level HUC's

Status: Will be rated on Nationally designated trails, hunting, fishing, camping, high lakes, waterways, identified OHV routes and groomed snowmobile or x-country trails. A high rating will involve several special recreation features, moderate will have one or two distinguishing recreation features and a low will have no special recreation features.

Risk: The degree of conflict among various users of the watershed. Risk includes motorized/non-motorized recreation conflicts, wildlife/human conflicts, and cattle/bison/human conflicts.

Opportunity: The possibility of reducing conflict among users of the watershed. This is rated on the number of available actions that could be taken to reduce conflicts between different users.
