**Subject:** Red River EAWS

**To:** All Employees

The Red River Ecosystem Analysis at the Watershed Scale (EAWS) was completed in December 2003. The draft EAWS was distributed for internal review in April of 2003 and the editing and clean up from this review have been completed.

A hard copy of this document is located in the permanent files in the Supervisor's Office. The electronic document is the official copy and is located in:

*J:\fsfiles\office\project\_sf\_clw\eaaws\redriver\finaleaaws\_doc*

As new information becomes available, this document will be updated. Updates will be recorded as follows.

- Electronic copy - updates will be made within the electronic copy and recorded in the table in the document labeled "*Update.doc*", which is located in the directory shown above.
- Hard copy - updates will be inserted, using blue pages, into the permanent file copy in the Supervisor's office; a copy of the "*Update*" table will also be inserted in the front of the document.

Thank you to the EAWS Team for their work on this document, which has provided the foundation and supporting information for the subsequent analyses in the Red River watershed.
