Kathy Murphy welcomed everyone and introduced Art Zack and went over the agenda.

The group began the sensing on Social and Economics and Wildlife. Everyone was to add A = Agree, C = Can live with, or D = Disagree. The group spent 30 minutes on this task. Eighteen were handed back.

Art Zack gave a brief review on vegetation and Kathy Murphy did the same with timber. The group then worked on the desired future conditions for 45 minutes on each topic. The group then did the sensing for these topics.

The remaining time was spent in discussion.

Wants:

Any cooperative opportunities with the Forest Service and/or Bonner County for the prevention of noxious weeds on private property. Kathy will check into this and notify the group.

Timelines (per Mike Sudnickovich previous request) of all the processes that are involved in the Forest Plan so that the group can be more informed and effective while participating in the work groups. Including strategies/documents/biological opinions etc that are involved in or affect the Forest Plan process other than the actual printed document itself. This will be brought up again at the next meeting and discussed with Jodi Kramer.

Next meeting: April 26, 2004, at 6:00-8:00 P.M. at the PLRD Cookhouse.

Agenda: We will wrap-up “all” Desired Future Condition statements.
