

Lower Kootenai GA Desired Condition Statement For Inventoried Roadless Areas

INVENTORIED ROADLESS AREAS

Desired Condition Statement: The workgroup agreed on the following desired condition statement for Inventoried Roadless Areas. They felt it was an adequate general statement for now. As they learn more about the Inventoried Roadless Areas they may want to make more specific statements.

- Inventoried Roadless Areas are managed based on the resource characteristics and conditions within each area, and the management objectives established for each of them. Whether roads are built will be based on whether they are needed to accomplish the management objectives for that area.
