

ERRATA #4
for the
1997 Revision of the Land and Resource Management Plan
Arapaho and Roosevelt National Forests and Pawnee National Grassland

July 2008

Forest Plan:	<u>New Page Numbers</u> 207, 208	<u>Superseded Page Numbers</u> same
--------------	-------------------------------------	--

Background

While Canyon Lakes Ranger District staff was verifying which allotments were closed in the Arapaho and Roosevelt National Forests and Pawnee National Grassland 1997 Forest Plan Revision, it was discovered Mill Creek and Schaffer Allotments were incorrectly listed as closed in the Forest Plan, p. 208. Additionally on the Grazing Decision Map accompanying the 1997 Revised Forest Plan both South Trail Creek Allotment and part of the Eaton Allotment were also shown as closed. These errors were verified and the documentation is in the project record.

Correction

Included for these errata are replacement pages 207-208 for the 1997 Revision of the Land and Resource Management Plan. Remove old pages 207-208 and replace them with the reworded pages. The Grazing Map and the Arapaho and Roosevelt National Forests and Pawnee National Grassland Geographic Information Systems grazing layer are adjusted to include the corrections.
