

Appendix 6: Burn units

Burn unit #	Unit acres	Management area	Roadless status	Past activity in unit <sup>1</sup>	Treatment considerations <sup>2</sup>
1	72	D2, E1			sagebrush
2	1,206	D2, E1		1969-1970 clear-cut 120 acres; 1975, 1978 select-cut 30 acres; 1974, 1977, 1981 post-harvest burn/broadcast burn 131 acres.	sagebrush, conifer encroachment
3	173	D2, E1			conifer encroachment
4	351	D2, E1		1992 thinning 19 acres.	conifer encroachment
5	107	D2, E1			sagebrush, conifer encroachment
6	753	C1, E1		1972-1973 clear-cut 37 acres; 1972, 1974, 1975 select-cut 37 acres; 1979 post-harvest burn/broadcast burn 38 acres.	sagebrush, conifer encroachment
7	1,106	C1, E1		1973 clear-cut 7 acres, 1975 select-cut 7 acres, 1998 precommercial thinning 7 acres.	sagebrush, conifer encroachment
8	692	C1, E1			sagebrush, conifer encroachment
9	525	C1, D2, E1		1977-1978 select-cut 29 acres; 1987 thinning 20 acres; 1981, 1990 post-harvest burn/broadcast burn 117 acres; 1999 ecosystem burning/range improvement 395 acres.	sagebrush, conifer encroachment
10	1,151	E1		1966, 1969, 1970, 1973, 1978 clear-cut 94 acres; 1975, 1978 select-cut 105 acres; 1968, 1974, 1977, 1979, 1981 post-harvest burn 152 acres.	conifer encroachment
11	322	C1, E1			sagebrush, conifer encroachment
12	188	E1		1976 clear-cut 43 acres; 1977 post-harvest burn/broadcast burn 43 acres; 1998 thinning 3 acres; 1999 understory burn 6 acres.	conifer encroachment
13	427	C1, D2, E1		1969 clear-cut 2 acres; 1972 post-harvest burn/broadcast burn 2 acres.	sagebrush, conifer encroachment
14	302	A1, C1, D2, E1		1969 clear-cut 143 acres; 1972 post-harvest burn/broadcast burn 143 acres.	aspen
15	278	E1		1963-1964 clear-cut 77 acres; 1964-1967 site prep for regeneration burning 5 acres; 1969 post-harvest burn/broadcast burn 73 acres; 1983, 1985 precommercial thinning 5 acres.	aspen, conifer encroachment
16	622	D2, E1		1983 clear-cut 16 acres; 1983 select-cut 21 acres; 1992 precommercial thinning 21 acres; 1985-1986 post-harvest burn/broadcast burn 37 acres.	conifer encroachment
17	385	D2, E1		1983 clear-cut 68 acres; 1985 post-harvest burn/broadcast burn 68 acres.	conifer encroachment
18	216	A4, D2	IRA		conifer encroachment
19	282	D2, E1	IRA	1983 select-cut and thinning 37 acres; 1983 post-harvest burn/broadcast burn 37 acres.	conifer encroachment
20	127	D2, E1		1978 clear-cut 58 acres; 1982 post-harvest burn/broadcast burn 58 acres.	conifer encroachment
21	80	A4	IRA		
22	203	A4	IRA		
23	278	A4	IRA		
24	60	D2, E1			conifer encroachment
25	281	D2, E1	IRA		
26	476	D2, E1			sagebrush, conifer encroachment
27	48	E1		1978 clear-cut 5 acres; 1988 post-harvest burn/broadcast burn 5 acres.	conifer encroachment
28	52	E1			conifer encroachment
29	548	D2	IRA		sagebrush, conifer encroachment
30	500	D2, C1			sagebrush, conifer encroachment
31	496	D2, C1			sagebrush, conifer encroachment
32	541	D2, C1			sagebrush, conifer encroachment
33	102	D2, E1		1976, 1978, 1989 clear-cut 6 acres; 1981, 1982, 1987 post-harvest burn/broadcast burn 6 acres.	conifer encroachment
34	219	A4, E1	IRA		conifer encroachment

**Total** 13,170 Acres

1- Past activity is determined from BDNF GIS coverage and is limited to 1950's to present.

2- Treatment considerations identified include aspen, sagebrush, and conifer encroachment determined from airphoto and SILC3.
