Go *Environmental* with GSA Advantage!

GSA is continuously striving to provide solutions that help our federal customers meet their environmental goals. GSA Advantage has thousands of products and services available to assist federal customers in making environmental oriented procurements. This new environmental aisle is designed to allow direct access to the variety of environmental products and services that GSA offers. It is GSA's policy to offer products that comply with all federal environmental regulations.

Use the categories and filters below to find your products.

Why Environmental?

Whether fulfilling a requirement or concerned about the environment, there are lots of reasons to choose environmentally sound products.

For some good reasons to buy environmental, take a look at the following links...

-  [Energy Efficient \(FAR Subpart 23.2\)](#)
-  [Recycled Products \(FAR Subpart 23.4\)](#)
-  [Environmentally Friendly \(FAR Subpart 23.7\)](#)
-  [Ozone Depleting Substances \(FAR Subpart 23.8\)](#)
-  [Pollution Prevention \(FAR Subpart 23.10\)](#)
-  [Major Environmental Laws](#)
-  [Environmental Executive Orders](#)

Shop For Environmental Items

Enter a search term and select one or more environmental indicators to limit your search to specific environmental products. If you do not select any environmental indicators, the search will return all items matching at least one of the environmental indicators.

Look for:

in

Environmental

Symbols

The following table provides a definition of the symbols used on this website. The symbols provide additional information about the item. Multiple Award Schedule (MAS) items, where GSA is not the Contractor, are self-certified and assigned by the vendor

	WWW Link - Information is available on the World Wide Web (WWW). Click on the icon to link to the contractor's web site.
	Sale Item - Item has a temporary price reduction.
	NIB/NISH - Mandatory source item available from the National Industries for the Blind or National Industries for the Severely Handicapped under the Javits-Wagner-O'Day program.
	UNICOR - Mandatory source item available from the U.S. Department of Justice, Federal Prison Industries (UNICOR) program.
	Environment Friendly - Item contains environmental attributes or features (e.g. water conserving, lead-free, etc.) as described in the item detail.
	Recycled - Item contains recycled content as described in the item detail (U.S. Environmental Protection Agency (EPA) item meeting EO 13101).
	Comprehensive Procurement Guideline compliant - This product has been certified to meet or exceed the U.S. Environmental Protection Agency Recovered Material Advisory Notice (RMAN) standard for recovered materials as specified in the Resource Conservation and Recovery Act Section 6002 Comprehensive Procurement Guideline.
	Energy Star - Item complies with US Department of Energy (DOE) and US Department of Environmental Protection Agency's (EPA) Energy Star Program as required by the Federal Acquisition Regulation (FAR) Subpart 23.203 and Executive Order 13123.
	FEMP Energy Efficient items - Item meets Federal Energy Management Program (FEMP) energy efficiency levels as required by the Federal Acquisition Regulation (FAR) Subpart 23.203, Executive Order 13123, and Executive Order 13221.
	PRIME program item - Item is included in the Navy's Plastics Removal in Marine Environment Program. Items in the PRIME program require biodegradable packing materials.
	NESHAP compliant - The "as applied" formulation of this coating has been certified to meet applicable volatile organic compound and hazardous air pollutant emission limits as established by National Emissions Standards for Hazardous Air Pollutant (NESHAP) regulation, 40th Code of Federal Regulation, Part 63.
	GreenSeal Seal of Approval - This product has been certified to meet or exceed voluntary standards for environmental preferability as established by GreenSeal.
	California South Coast Air Quality Management District compliant - This product has been certified to meet or exceed applicable air emissions standards established by the California South Coast Air Quality Management District.
	Biobased - Commercial or industrial items utilizing biological products or renewable domestic agricultural (plant, animal, and marine) or forestry materials.
	U.S. EPA Significant New Alternatives Program approved - This product meets the U.S. EPA Significant New Alternatives Program criteria requirement as a suitable substitute for ozone depleting substances.
	U.S. EPA Environmental Technology Verification - This product has been evaluated under the U.S. Environmental Protection Agency Environmental Technology Verification Program and found to an innovative technical solution, beneficial to human health or the environment.
	Non-toxic item - Item is non-toxic.

	GreenSeal seal of Approval - This product has been certified to meet or exceed voluntary standards for environmental preferability as established by GreenSeal.
	California South Coast Air Quality Management District compliant - This product has been certified to meet or exceed applicable air emissions standards established by the California South Coast Air Quality Management District.
	Biobased - Commercial or industrial items utilizing biological products or renewable domestic agricultural (plant, animal, and marine) or forestry materials.
	U.S. EPA Significant New Alternatives Program approved - This product meets the U.S. EPA Significant New Alternatives Program criteria requirement as a suitable substitute for ozone depleting substances.
	U.S. EPA Environmental Technology Verification - This product has been evaluated under the U.S. Environmental Protection Agency Environmental Technology Verification Program and found to an innovative technical solution, beneficial to human health or the environment.
	Non-toxic item - Item is non-toxic.
	Ergonomic item - Ergonomic item.
508	Electronic Information Technology item containing Section 508 features - Check the manufacturer's website or contact them directly for 508 information applicable to this item. For more information on standards and applicable regulations, go to the Section 508 website . You may also utilize the Buy Accessible Wizard at www.buyaccessible.gov .
	DOD Virtual IT Marketplace/ESI BPA item - Item reflects BPA pricing if shown.
	ESI Pre-Purchased Stock - Item reflects BPA pricing if shown and indicates that pre-purchased stock exists. Customers should consider inventory stock in satisfying their requirements IAW FAR 8.001(a)(1)(i).
	Blanket Purchase Agreements - This symbol designates products covered by a Blanket Purchase Agreement (BPA).
	Shipboard Use - This symbol designates products which have been evaluated and tested, as required, by the U.S. Navy and documented as being approved for use on Navy ships.
	GSA Global Supply Icon - Items identified with the GSA Global Supply icon meet all of the standards and benefits of using GSA Global Supply, including guaranteed compliance and requisition based ordering.
	National Fire Equipment System - Items identified with the National Fire Equipment System (NFES) icon meet the national standards for fire supplies and equipment.
	HSPD-12 certified item. - Item is HSPD-12 certified and meets Federal Information Processing (FIPS) Standard 201 "Personal Identity Verification of Federal Employees and Contractors".
	Cooperative Purchasing. - Item is available for purchase by State and local government entities in accordance with Section 211 of the E-Government Act of 2002.
	Disaster Recovery Purchasing. - Item is available for purchase by State and local government entities in accordance with Section 833 Disaster Recovery Purchasing

- **Print double-sided**
Lease or purchase copiers that can print double-sided copies, it will cut the amount of paper that you use in half.
- **Use energy-saving equipment**
Switch to energy efficient equipment. When buying PCs, monitors, printers, fax machines and copiers, consider buying ENERGY STAR® models that can switch to a power-saving mode.
- **Electronic email**
E-mail, circulate, or post documents instead of making a copy for everybody. Using email to distribute information in your office is a great way to save paper.
- **Recycle toner – Save ink toner by using the “draft” option on your printer. Buy recycled toner cartridges – they help the environment and are cheaper.**
- **Use recycled paper**
Purchase recycled-content paper. You should recycle paper instead of putting it in the trash.
- **Use computer features to save energy**
Save energy by using the power management features on your monitor, CPU -“Print Preview” .
- **Store office files electronically.**
- **Save energy by setting your office thermostat**
Set your thermostat to 78° F during summer and leave it at that setting.
- **Turn off office lights and equipment.**
- **Green Commute**
Switch to public transportation, or if you do drive, find out the fuel efficiency of your vehicle and explore more environmentally-informed choices at www.fueleconomy.gov.

Top 10 Tips for “Greening” Your Home

➤ **Make your fridge efficient**

In many households the single biggest electricity user is the refrigerator. You can reduce the energy drain with a few simple tricks. Cleaning the coils every six months will help you use less energy and save money. (Flip up or remove the kick plate or toe grill, and clean with a vacuum attachment or bottle brush. Make sure to unplug the fridge or turn off its circuit breaker first.) Keep the fridge set between 38 and 40 degrees and the freezer between 0 and 5 degrees — the settings where it's most efficient. Learn more about efficient appliances at www.energystar.gov.

➤ **Stop phantom waste**

Unplugging TVs, DVD players, computers, and other major electronics when they're not in use could keep thousands of pounds of carbon dioxide out of the air each year. Even when they're turned off, their standby consumption is about equal to running a light bulb continuously. To avoid the hassle of constantly plugging and unplugging, here's an easy solution: Plug several electronics onto one power strip and switch it off.

➤ **Light up right**

Compact fluorescent lamps (CFL) are small fluorescent light bulbs that use at least 2/3 less energy than a traditional incandescent bulb and can be screwed into a regular light socket. Lighting accounts for close to 20 percent of the average home's electric bill. Even though fluorescent bulbs cost more, you'll save up to \$60 in energy bills over the lifetime of the bulb.

➤ **Flush water waste**

A whopping 40 percent of the water used in your home goes down the toilet. A low-flow toilet can cut the amount you use by half or more (and yes, it'll work just as well). A low-tech alternative: Put a brick or plastic milk jug filled with pebbles in the tank. The space it takes up reduces the amount of water needed to fill the tank, so you'll save gallons (and money) with each flush.

➤ **Fix drips and leaks**

Got a leaky faucet? Then it's time to call the plumber. That slow but steady drip, drip, drip can waste up to 20 gallons of water a day. Extra credit: Replace standard faucets and showerheads with low-flow versions and save 20,000 gallons of water a year (based on a family of four). Other water-saving tips include keeping a pitcher of water in the fridge so you don't waste water waiting for it to get cold from the tap. Or turn the water off when brushing your teeth.

➤ **Use dishwasher smarts**

You can save up to 20 gallons of water a day by waiting till your dishwasher's full to switch it on. You'll save even more energy by letting dishes air dry on the racks instead of using the heat dry cycle. Plus, most new dishwashers don't need you to pre-rinse. Simply scrape off food and load, and you'll conserve another 20 gallons.

➤ **Adjust the thermostat**

The average home spends about \$1,900 annually on energy bills. Heating and cooling accounts for as much as half of a home's energy use. Turning the thermostat just two degrees up or down can save a lot of energy and money. Save energy by setting your thermostat dial to 68 degrees in winter and 72 in the summer. For winter nights, lower to 65 degrees and pile on the blankets.

- **Bring your own bag**
It takes 12 million barrels of oil, and 14 million trees, to make all the paper and plastic bags Americans go through each year. Next time you shop, take cloth bags (keep a few in the trunk to have on hand). Or just reuse — sturdy plastic bags or double-bagged paper ones hold up for months, and they're free. Extra credit: Reuse plastic produce bags, or pick up a few cloth ones available at many stores.
- **Break the bottle habit**
Making and even recycling plastic water bottles uses energy and releases pollution, and every year, millions of them wind up in landfill. It's not worth the waste, argues Gina Solomon, senior scientist for the National Resources Defense Council. "Bottled water is often just tap water with a fancy label and a high price, and it's not any better for you," she says. In fact, Consumer Reports found that about a quarter of bottled water comes from the tap.
- **Recycle**
It sounds old-fashioned to mention recycling — until you consider that an incredible 69 percent of Americans still don't do it. To learn more about the recycling process and recycling opportunities go to EPA's site: <http://www.epa.gov/msw/recycle.htm>. Tip: Try to steer clear of food and products wrapped in excess packaging.
