## Appendix H Maps

These maps were printed at Forest scale in black and white to facilitate ease of use and reproduction. The GIS coverages, Arc Macro Language programs (AML's) that generated them, and spreadsheet data are available to Black Hills project level analysis team members in the library on the Forest Service network for presentation at different scales and for further development as needed.

### Map Index

1. Existing Conditions Map All Roads
2. Existing Conditions Map USFS System Roads – ML 3, 4, 5
3. Density Grid of All Roads
4. Density Grid of USFS Roads
5. Density Grid of All Roads with All Roads Overlaid
6. Density Grid of USFS Roads with USFS Roads Overlaid
7. Hydrology and Wildlife Risk, Road Density of All Roads
8. Hydrology Risk, Perennial Stream Crossings
9. Hydrology Risk, Miles Within 30' of Perennial Stream
10. Hydrology Risk, Miles Within 119' of Perennial Stream
11. Hydrology Risk, Erosive Soils
12. Hydrology Risk, High Slope Areas
13. Wildlife Risk, Riparian Areas
14. Wildlife Risk, Goshawk Sites
15. Wildlife Risk, Marten Habitat Areas
16. Wildlife Risk, Snails Sites
17. Wildlife Risk, Dipper Streams
- 18. Overall Hydrology Relative Road Risk**
- 19. Overall Wildlife Relative Road Risk**
20. Overall Risk, Weed Areas
21. Overall Risk, Resource Damage Areas
22. Overall Risk, Botanical Areas
23. Overall Risk, Heritage Sites
24. Overall Risk, Right-of-Way Issues
25. Overall Risk, Annual & Deferred Maintenance Cost
- 26. Overall Relative Road Risk**
27. Overall Value, Timber Access
28. Overall Value, Range Access
29. Overall Value, Fire Fighting Access
30. Overall Value, Fuels Treatment Access
31. Overall Value, Recreation
32. Overall Value, Transportation
33. Overall Value, Visual and Social
- 34. Overall Relative Road Value**
35. Watershed Analysis, Watershed Map with numbers

- 
36. Watershed Analysis, Hydrology Road Density
  37. Watershed Analysis, Perennial Stream Crossings
  38. Watershed Analysis, Within 30' of Perennial Stream
  39. Watershed Analysis, Within 119' of Perennial Stream
  40. Watershed Analysis, Erosive Soils
  41. Watershed Analysis, High Slope
  42. Watershed Analysis, Goshawk Nests
  43. Watershed Analysis, Snail Colonies
  44. Watershed Analysis, Wildlife Road Density
  45. Watershed Analysis, Dipper Streams
  46. Watershed Analysis, Marten Habitat Areas
  47. Watershed Analysis, Riparian Areas
  - 48. Overall Watershed Hydrology Risk**
  - 49. Overall Watershed Wildlife Risk**
