

**Amendment 2008-01**  
**Land and Resource Management Plan**  
**Six Rivers National Forest**  
**April 2008**

Background

This amendment is made pursuant to enactment of HR233 – Northern California Coastal Wild Heritage Wilderness Act of 2006 (the Act). On the Six Rivers National Forest, the Act added to the existing Trinity Alps and Siskiyou Wildernesses, and designated one new wilderness, Mt. Lassic. Table 1 lists the new wilderness acres by county.

There are no NEPA analyses or decision documents supporting this amendment, as the changes in management direction are compelled by the higher authority of the Act.

Management Direction

All wilderness areas established by the Act are located within multiple Forest Plan management areas. This has the effect of applying the Forest Plan's Wilderness prescriptions to all or portions of the affected management areas.

Management Area boundaries will change under this amendment. Table 2 lists the management areas changed by this act. In general the changes in management direction are as follows:

- Apply Management Area 1 – Wilderness [Plan IV – 11-25] to all areas designated as wilderness by the Act.

Maps of the new wilderness areas are included as part of this amendment.
