

Lassen National Forest Roads Analysis

Table of Contents

EXECUTIVE SUMMARY	2
Introduction	
STEP 1 SETTING UP THE ANALYSIS	3-7
Objectives of the Analysis	
Interdisciplinary Team Members and Participants	
Analysis plan	
Information Needs	
Public Involvement	
STEP 2 DESCRIBING THE SITUATION	8-27
The Analysis Area (figure 1)	
The National Forest Transportation System	
Existing Situation Summary by Area of Consideration	
Budget	
Status of Watershed Assessments and Watershed Restoration	
STEP 3 IDENTIFYING CONCERNS	28-36
Public Concerns	
Management Concerns	
Selecting Indicators (table A)	
Documentation of coordination efforts with other agencies and jurisdictions	
STEP 4 ASSESSING BENEFITS, PROBLEMS, AND RISKS	37-39
Introduction	
Synthesis of benefits and risks (figure 2)	
STEP 5 DESCRIBING OPPORTUNITIES AND SETTING PRIORITIES	40-43
Introduction	
Opportunities at the Forest Scale	
Applications for Opportunities	
STEP 6 REPORTING	44
Forest Supervisor Guidelines for Implementing Roads Analysis	
 List of Figures and Tables	
Figure 1. Map of Lassen National Forest	9
Figure 2. Road Risk-Value Matrix	37
Table A – Selecting Indicators	31-36
 Appendices	
APPENDIX A - Briefing Paper, Road Assessment questions, Final GIS Request	
APPENDIX B - Maintenance level 3,4, and 5 roads (USFS jurisdiction), distinctive routes, federally designated highways, county roads, potential public forest service roads, road info, watershed assessment map	
APPENDIX C - Policy, laws, guidance	
APPENDIX D - Indicators by area of consideration	
APPENDIX E - Resource Assessment forms	
APPENDIX F - Step 4 Spreadsheet, existing assessments	
APPENDIX G - Step 5 Spreadsheet, opportunities assessments	
APPENDIX H - Road Management Objectives	
APPENDIX I - Describing the situation by areas of consideration
