

Proposed Agenda

Public Workshop

Forest Plan Revision Process

LTBMU Forest Supervisor's Office, Emerald Bay Room
35 College Drive
South Lake Tahoe, CA 96150
Wednesday, November 12, 2008
6:00 - 8:00 PM

Workshop Objectives:

- *Invite public input toward revision of the Forest Plan on the topic: how to balance forest health with water, soil, and air quality issues?*
 - *Inform the public of future public participation opportunities*
-

6:00 PM Welcome and introductions

6:10 Review workshop objectives and agenda

- Provide overview of past efforts in Forest Plan revision process
- Review objectives of November 12th workshop
- Clarifying questions

6:20 Present summary of proposed desired conditions and strategies pertaining to forest health and water, soil, and air quality

- Summarize existing conditions and key issues
- Present proposed desired conditions and associated strategies
- Clarifying questions

6:50 Invite input on forest health and water, soil, and air quality issues (breakout session discussions)

- Organization questions:
 - What are your thoughts on the proposed *desired conditions*?
 - What are your thoughts on the proposed *strategies* and *objectives* to meet desired conditions for soil, water, air, and stream environment zones while achieving forest health conditions?
 - Are there other strategies and objectives the Forest Service should consider?
 - What challenges and tradeoffs do you see in attempting to utilize these strategies?

7:50 Recap Next

- Review opportunities to provide input and next phases of Forest Plan revision

8:00 PM Adjourn
