NOTES:

Management Areas 5.11, 5.12, 5.13, 5.4 and 5.5 contain lands suitable for timber production. However, not all acres within these management areas are necessarily suitable for timber production.

The management area boundaries on this map were computer generated. These lines and their locations are only approximate at this scale. Since the background map was not computer generated, there may be some distortion between the background map and the computer generated management area boundaries.
