

Educational Trunk Check-Outs

In partnership with the Illinois Department of Natural Resources, the Shawnee National Forest is proud to offer several educational tools to engage learners of all ages and help them to connect with the outdoors.

Developed by the IDNR Division of Education, these educational teaching kits are available for loan free to educators at lending locations statewide, including the Shawnee National Forest.

Each trunk is filled with engaging activities and materials to help ensure fun, hands-on nature inspired knowledge.

USDA is an equal opportunity provider and employer.
