

## **How to obtain an overnight permit for Desolation Wilderness**

### **1) Pre-trip Planning:**

- Carefully review Desolation Wilderness [rules and regulations](#).
- Consider the size of your group and the skill level of the least experienced person in your group.
- If you have a large group, you may want to consider areas outside of designated wilderness. Forest Service staff can help with suggestions.
- Determine the [Destination Zone](#) (the place you want to camp) for your first night stay. Look at the [Zone Map](#) to determine desired zone.
- Review the [Zone Quota](#) information to determine if there is space available for your party size in the desired zone. Many zones have a quota less than the maximum group size is 12.
- Determine your date of entry and exit and what trailheads you would like to enter and exit from.
- Consider what the weather may be like and the possibility there may still be a significant amount of snow cover into late-June.
- For busy periods (weekends between July 4th and Labor Day), have at least one alternative for both the zone and date.
