

Sir,

I object to more motorized ATV trails in the Franc's Peak/Wood River area. With out exception the ATV's don't respect Forest Service Regs. and expand the trails they because of little or no F.S. enforcement. I use an ATV upon occasion and adhere to the rules of said use. I constantly encounter others, mostly much younger than I,I'm 65, using trails or making trails that violate terms of use. The Greys River is a example of said abuse. Franc's Peak/Wood River is an unique/rare area and should be a wilderness area free of more motorized traffic. The FS does not have enough employees to enforce closures.

Thanks for you Time, John Parr Cheyenne Wyo.
