

Annual Monitoring Report Form for Actions covered under the Service's Biological Opinion for Grazing on Allotments Managed by the Salmon Challis National Forest.

Please submit annually by **March 1** to the Supervisor of the Service's Eastern Idaho Field Office:

**4425 Burley Dr., Suite A, Chubbuck, Idaho 83202
Telephone (208)237-6975.**

Please include name and contact information in case additional information is needed.

1. What was the name of that stream in this allotment surveyed for impacted redds? **See table below**
2. What was the date of the survey, and what were the water conditions? **See table below**
3. Which stream segment was surveyed and how many redds and impacted redds were found? (Please give GPS start and stop points for segments)? **See table below**
4. What was the date that livestock removed from the pasture with surveyed stream segment? **The herd was removed from the Taylor/McDonald Pasture on September 27.**
5. Did this number exceed the scale anticipated in section VII of the Biological Opinion? **No**
6. Were there any changes to the grazing management that differed from the proposed grazing management in the Forest's Biological Assessment? If yes, what were they? **The Forest Service did not authorize any changes in grazing management that differed from that described in the biological assessment.**
7. Were there any unexpected circumstances or events that resulted in impacts beyond those anticipated in the Forest's in the Biological Assessment or the Service's Biological Opinion? If yes, please describe. **None**

Salmon-Challis NF Official: **Barry Dopp (range management specialist), Bart Gamett (fish biologist)**

Date: **March 17, 2014**

Contact Information: Barry Dopp, 208-879-4161, bdopp@fs.fed.us
Bart Gamett, 208-588-3420, bgamett@fs.fed.us

Table 1. Bull Trout redd survey summary.

Stream	Date	Water Conditions	Downstream UTM (NAD83)	Upstream UTM (NAD83)	Redds Observed	Impacted Redds
Taylor Creek	09/31/2013	low, clear	Zone 11, 718397 E, 4881973 N	Zone 11, 717328 E, 4882110 N	0	0
