Volunteer opportunities are not limited to projects listed. The Forest Service will consider other proposed projects.

Projects can be developed for *groups* or *individuals* with special needs.

The Forest Service will provide technical assistance required to complete projects. Most tools and materials required for projects will be provided by the Forest Service.

Hard hats will be provided for all volunteer groups and individuals, and are required for most projects.

Long sleeved shirts, long pants and protective footwear are required on most projects.

A Job Hazard Analysis will be required for each job or project. Where there is no applicable JHA one will be developed prior to starting the project. All volunteers are required to review and sign a JHA and Volunteer Agreement prior to any project.

For further information and to schedule projects please contact:
