**PART I—THE SCHEDULE**

**SECTION B--SUPPLIES OR SERVICES AND PRICES/COSTS**

**Security System Installation  
Olympia Forestry Sciences Laboratory, PNW Research Station, U.S. Forest Service  
Thurston County, WA**

**B.1 SCHEDULE OF ITEMS:**

**SCHEDULE A**

<b>ITEM NO.</b>	<b>DESCRIPTION</b>	<b>UNIT OF ISSUE</b>	<b>EST. QTY.</b>	<b>UNIT PRICE</b>	<b>TOTAL AMOUNT</b>
001	Security System Installation: Government-proposed system	Lump Sum	1	N/A	\$

**SCHEDULE B**

<b>ITEM NO.</b>	<b>DESCRIPTION</b>	<b>UNIT OF ISSUE</b>	<b>EST. QTY.</b>	<b>UNIT PRICE</b>	<b>TOTAL AMOUNT</b>
001	Security System Installation: Contractor-proposed system	Lump Sum	1	N/A	\$

Schedules A and B are mutually exclusive. Only one schedule will be awarded.

Schedule A requires work to be performed in accordance with requirements in Section C-1(c) (“Government-Proposed System”) of the Statement of Work. It is presented merely as an option to offerors; alternate technical proposals will be considered under Schedule B.

Schedule B requires performance in accordance with the Contractor’s own technical proposal and all other contract requirements excluding Section C-1(c).

Offerors may submit a quote for one or both schedules. If an offeror submits a quote for both schedules, each quote will be evaluated separately.

**Note: Offerors are required to be registered in the System for Award Management in order to be eligible for award. See FAR provision 52.204-7 – System for Award Management.**

**Quote Preparation Instructions**

Refer to Addendum to FAR 52.215-1 – Instructions to Offerors on pg. 28-29 (Section L-1).

**Pre-quote Conference**

A pre-quote conference at the work site is scheduled for May 12, 2014, at 11:00 a.m. See Section L-8 for more information. It is requested that interested vendors notify Eric Neckel by e-mail ([eneckel@fs.fed.us](mailto:eneckel@fs.fed.us)) of their intent to attend the pre-quote conference.

## SECTION C--DESCRIPTION/SPECIFICATIONS/STATEMENT OF WORK

### C-1 DESCRIPTION OF WORK

#### a. **Desired Outcome:**

U.S. Forest Service Olympia Forestry Sciences Laboratory requires the installation of a fully functional security system around the designated fenced area shown in the plans to be operational with the present system. The new system shall be connected to the existing security system that already exists at the site.

The Schedule of Items contains two alternate, mutually exclusive schedules – Schedule A and Schedule B. Schedule A requires work to be performed in accordance with Section C-1(c) (“Government-Proposed System”) while Schedule B requires performance in accordance with the Contractor’s own technical proposal. If Schedule B is awarded, Section C-1(c) will not apply; however, the requirements in Section C-1(b) (“Required Services”) and all other contract requirements shall still apply.

#### b. **Required Services**

1. Contractor shall provide any and all labor, equipment and services necessary for installing a security system around a 100 foot by 60 foot fenced area, to be operational with the present security system.
2. Contractor shall connect to existing power and security system from the pump house. Existing security system is a Pulnix Paxex-Pf-in-100-HF that triggers both audible alarm on main building and alarm to security company dispatch.
3. Contractor shall program new security area around fence into present security system. Key pad for existing system is located at the pump house.
4. The Contractor is responsible for locating utilities prior to any ditching. The Contractor is responsible for any damage to utilities.
5. The Government is responsible for clearing and grubbing interior fence line, providing a 3 to 4 foot section clear of debris prior to Contractor starting work.

Applicable to Schedule B (“Contractor-proposed System”) only:

6. The Contractor shall make any necessary alterations to the fence to ensure proper functioning of the security system. If any such alterations are made, the current dimensions of the fence and gates shall not be changed.

#### c. **Government-Proposed System (only applicable to Schedule A)**

The following requirements are only applicable if Schedule A is awarded:

1. Contractor shall construct approximately 250 feet of trench and install conduit for wiring from pump house to fenced area that is designated on the drawings.

2. Conduit for wiring shall be above ground in fenced area.
3. Contractor shall install five (5) metal mounting posts, inside the fenced area as shown on the drawings. On each post mount two (2) weatherproof Beam Motion Detectors for a total of ten (10).

**d. Additional Requirements**

1. All work shall be conducted between 7:00 a.m. and 7:00 p.m. Monday thru Friday, excluding federal holidays. No work is permitted on federal holidays.
2. The Contractor shall conduct operations to minimize disruptions to the Government employees and public using the existing facilities.
3. The Contractor shall request permission in writing to the COR for any planned disruption of utilities. Such requests shall be submitted at least seven days prior to the planned disruption. Utility disruptions shall be limited to a maximum of 12 hours duration at a time. Do not proceed with utility interruption without Government's written permission.

**e. Technical Specifications**

The **Specifications** in this contract follow the CSI format as outlined by the Construction Specifications Institute, Inc. All Specifications are listed on the Specification List, and are physically included in Section J of the Contract. References to CSI Specifications, Standard Specifications, and Specifications all refer to these specifications.

**C-2 PROJECT LOCATION**

This project is located at the Olympia Forestry Sciences Laboratory property at

3625 93<sup>rd</sup> Avenue SW  
Olympia, WA 98512

The Olympia Forestry Sciences Laboratory (OFSL) is part of the Pacific Northwest Research Station within the U.S. Forest Service.

**C-3 PRICE RANGE**

The Government's estimate is:

less than \$25,000

**C-4 APPLICABLE SPECIFICATIONS (CSI PROJECTS)**

The specifications shown in the specification listing contained in the attachments are applicable to this contract. All specifications not included in the specification listing but referenced by

listed specifications, are applicable. The specifications shown on the specification list are physically attached.

### **C-5 AGAR 452.211-73 ATTACHMENTS TO STATEMENT OF WORK/SPECIFICATIONS (FEB 1988)**

The attachments to the Statement of Work/Specifications listed in Section J are hereby made part of this solicitation and any resultant contract.

### **C-6 REQUIRED SUBMITTALS**

The following is a general summary of the required submittals. Other submittals may be required as specified elsewhere in this contract.

<b>Submittal Title</b>	<b>Submittal Date</b>
Schedule of Work	Prior to Work Starting
Job Specific Safety Plan	Prior to Work Starting
Materials List/Product Data	Prior to Work Starting
Operation and Maintenance Data	Completion of Work
Utility Disruption	7 days prior to disruption

## **SECTION D--PACKAGING AND MARKING**

{For this Solicitation, there are NO clauses in this Section}

## **SECTION E--INSPECTION AND ACCEPTANCE**

### **E-1 FAR 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)**

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es): [www.arnet.gov/far/](http://www.arnet.gov/far/)

#### **FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1) CLAUSES**

- 52.246-1 Contractor Inspection Requirements (APR 1984)
- 52.246-12 Inspection of Construction (AUG 1996)

### **E-2 Contractor Quality Control System**

The Contractor shall identify the quality control inspection system it will use to ensure that contract specification will be achieved. At no time shall the contractor rely upon Government inspections to provide notification of unsatisfactory performance. The Contractor shall produce written inspection records in a format and at times and places satisfactory to the Contracting Officer. Inspection records shall be made available upon request of the Contracting Officer and be maintained until the date of contract closure. The Contracting Officer may observe the Contractor's inspection at any time and shall otherwise have unlimited access to the inspection data.

### **E-3 Acceptable Quality Levels (AQLs)**

In terms of inspecting work quality to measure and make payment, 0 errors and defects are acceptable with respect to all aspects of the description of work.

## **SECTION F--DELIVERIES OR PERFORMANCE**

### **F-1 FAR 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)**

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es): [www.arnet.gov/far/](http://www.arnet.gov/far/)

### **FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1) CLAUSES**

52.242-14 Suspension of Work (APR 1984)

### **F-2 FAR 52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)**

The Contractor shall be required to (a) commence work under this contract within 10 calendar days after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than 30 calendar days after the effective date of the Notice to Proceed. The time stated for completion shall include final cleanup of the premises.

## **SECTION G--CONTRACT ADMINISTRATION DATA**

### **G-1 DESIGNATION OF CONTRACTING OFFICER'S REPRESENTATIVE**

The Contracting Officer will designate a Contracting Officer's Representative (COR) at the time of contract award.

The COR is responsible for administering the performance of work under this contract. In no event, however, will any understanding, agreement, modification, change order, or other matter deviating from the terms of this contract be effective or binding upon the Government unless formalized by proper contractual documents executed by the Contracting Officer prior to completion of the contract.

The Contracting Officer should be informed as soon as possible of any actions or inactions by the Contractor or the Government which will change the required delivery or completion times stated in the contract, and the contract will be modified accordingly. (This does not apply to individual task assignments which were issued by the COR provided they do not affect the delivery schedule or performance period stated in the contract).

On all matters that pertain to the contract terms the Contractor must communicate with the Contracting Officer. Whenever, in the opinion of the Contractor, the COR requests effort outside the scope of the contract, the Contractor should so advise the COR. If the COR persists and there still exists a disagreement as to proper contractual coverage, the Contracting Officer should be notified immediately, preferably in writing if time permits. Proceeding with work without proper contractual coverage could result in nonpayment or necessitate submittal of a contract claim.

### **G-2 AGAR 452.215-73 POST AWARD CONFERENCE (NOV 1996)**

A post award conference with the successful offeror is required. It will be scheduled and held within 7 days after the date of contract award. The conference will be held at the following address:

Olympia Forestry Sciences Laboratory  
3625 93<sup>rd</sup> Avenue SW  
Olympia, WA 98512

## **SECTION H--SPECIAL CONTRACT REQUIREMENTS**

### **H-1 FAR 52.236-14 AVAILABILITY AND USE OF UTILITY SERVICES (APR 1984)**

(a) The Government shall make all reasonably required amounts of utilities available to the Contractor from existing outlets and supplies, as specified in the contract. Unless otherwise provided in the contract, the amount of each utility service consumed shall be charged to or paid for by the Contractor at prevailing rates charged to the Government or, where the utility is produced by the Government, at reasonable rates determined by the Contracting Officer. The Contractor shall carefully conserve any utilities furnished without charge.

<b>Utilities Available</b>	<b>Rate of charge</b>	<b>Restrictions of Use</b>
Water	No Charge	Reasonable
Electricity	No Charge	Reasonable
Toilets	No Charge	Reasonable

Utilities are existing utilities within the campground. Alternatives will not be provided during construction.

(b) The Contractor, at its expense and in a workmanlike manner satisfactory to the Contracting Officer, shall install and maintain all necessary temporary connections and distribution lines, and all meters required to measure the amount of each utility used for the purpose of determining charges. Before final acceptance of the work by the Government, the Contractor shall remove all the temporary connections, distribution lines, meters, and associated paraphernalia.

(End of clause)

### **H-2 WORK SCHEDULE**

Contractor shall, prior to starting work, submit a time chart or schedule of proposed progress to insure completion of the work within the time set forth in the contract. If Contractor's progress falls behind that scheduled, the Contractor shall take such action as necessary to improve his progress; in addition, the Contracting Officer may require Contractor to submit a revised schedule and proposed plan of work to ensure completion of the work within the time(s) set forth in the contract.

### **H-3 JOB SPECIFIC SAFETY PLAN**

Prior to the pre-work meeting, the Contractor shall provide a written job specific safety plan that recognizes the inherently hazardous conditions that will exist on this contract. Some of these hazardous conditions may include, but are not limited to: blasting, heavy equipment operation, traffic control on haul routes, loading and unloading of materials, site security, noises and dust contract and the use of personal protective equipment (PPE) in the work area. The plan shall be in accordance with OSHA Regulations. The plan shall include all tasks and related activities anticipated to successfully complete the work.

## **SAFETY ITEMS**

(a) Data and information furnished or referred to below is for the Contractor's information. The Government shall not be responsible for any interpretation of or conclusion drawn from the data or information by the Contractor. This list shall not be deemed to be all inclusive. The Contractor shall bear the sole responsibility for taking all appropriate actions necessary to prevent accidents and injuries to individuals at the work site.

(b) The following checked activities have been identified by the Government as potential safety hazards.

- Confined Entry Space.
- Temporary excavation/deep trenching/slope stability.
- Tree Felling.
- Fall hazard from work heights exceeding six feet.
- Blasting.
- Traffic control on high-volume and/or high-speed and/or limited visibility roads.
- Heavy equipment operation.
- Tree climbing and/or tower climbing.
- Fire hazards.
- Hazard materials handling.
- Electrical hazard.
- Hydraulic and/or pneumatic and/or other high pressure hazards.
- Mechanical hazards such as pulleys, springs, etc.
- Power tool operation including eye protection.
- Overhead hazards.

## **H-4 BIOBASED PRODUCTS**

The Contractor must comply with Section 9002 of the Farm Security and Rural Investment Act of 2002 (FSRIA), Executive Order (EO) 13423, "*Strengthening Federal Environmental, Energy, and Transportation Management*," and the Federal Acquisition Regulation to provide biobased products.

The Contractor shall utilize products and material made from biobased materials (e.g., biobased greases, biobased hydraulic fluids, biobased absorbents) to the maximum extent possible without jeopardizing the intended end use or detracting from the overall quality delivered to the end user. All supplies and materials shall be of a type and quality that conform to applicable Federal specifications and standards. All supplies and materials to be used in the performance of work described herein are subject to the approval of the Contracting Officer (CO).

The following are examples of products that may be used in this contract for which biobased products are available. The list is not all inclusive. It is desirable that vendors be able to supply the greatest number of biobased products listed meeting the health and environmental specifications.

Hydraulic fluids  
Dust suppressants  
Erosion Control  
Mulch  
Wood and concrete sealers

Greases  
2-cycle engine oil  
Fertilizers

Biobased products that are designated for preferred procurement under USDA's BioPreferred program must meet the required minimum biobased content as stated in the USDA Final Rule available at [www.biopreferred.gov](http://www.biopreferred.gov). The Contractor shall provide data for their biobased products such as biobased content.

In addition to the biobased products designated by the U.S. Department of Agriculture in the BioPreferred Program, the Contractor is encouraged to use other biobased products.

The Contractor shall comply with the provision at FAR 52.223-1, Biobased Product Certification.

The Contractor shall comply with the clause at FAR 52.223-2, Affirmative Procurement of Biobased Products Under Service and Construction Contracts.

A Contractor may propose more than one product within a product category and/or propose a product or products addressing more than one product category.

## PART II--CONTRACT CLAUSES

### SECTION I--CONTRACT CLAUSES

#### I-1 FAR 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

[www.acquisition.gov/far](http://www.acquisition.gov/far)

[www.usda.gov/procurement/policy/agar.html](http://www.usda.gov/procurement/policy/agar.html)

- 52.249-10 Default (Fixed-Price Construction) (APR 1984)
- 52.253-1 Computer Generated Forms (JAN 1991)

#### AGRICULTURE ACQUISITION REGULATION (48 CFR CHAPTER 4) CLAUSES

- 452.232-70 Reimbursement for Bond Premiums – Fixed-Price Construction Contracts (NOV 1996) (*Applicable if contract is over \$30,000*)
- 452.236-72 Use of Premises (NOV 1996)
- 452.236-74 Control of Erosion, Sedimentation and Pollution (NOV 1996)
- 452.236-76 Samples and Certificates (FEB 1988)
- 452.236-77 Emergency Response (NOV 1996)

## **I-2 FAR 52.215-8 ORDER OF PRECEDENCE – UNIFORM CONTRACT FORMAT (OCT 1997)**

Any inconsistency in this solicitation or contract shall be resolved by giving precedence in the following order:

- (a) The Schedule (excluding the specifications)
- (b) Representations and other instructions
- (c) Contract clauses
- (d) Other Documents, exhibits, and attachments
- (e) The Specifications

## **I-3 FAR 52.225-9 BUY AMERICAN ACT-CONSTRUCTION MATERIALS (SEP 2010)**

(a) Definitions. As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial item (as defined in paragraph (1) of the definition at FAR [2.101](#));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 ([46 U.S.C. App. 1702](#)), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into a construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(3) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(4) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Domestic construction material” means—

(1) An unmanufactured construction material mined or produced in the United States;

(2) A construction material manufactured in the United States, if—

(i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or

(ii) The construction material is a COTS item.

“Foreign construction material” means a construction material other than a domestic construction material.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference.

(1) This clause implements the Buy American Act ([41 U.S.C. 10a - 10d](#)) by providing a preference for domestic construction material. In accordance with [41 U.S.C. 431](#), the component test of the Buy American Act is waived for construction material that is a COTS item (See FAR [12.505\(a\)\(2\)](#)). The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to information technology that is a commercial item or to the construction materials or components listed by the Government as follows:

\_\_\_\_\_ [Contracting Officer to list applicable excepted materials or indicate “none”]

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that—

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American Act.

(1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including—

(A) A description of the foreign and domestic construction materials;  
 (B) Unit of measure;  
 (C) Quantity;  
 (D) Price;  
 (E) Time of delivery or availability;  
 (F) Location of the construction project;  
 (G) Name and address of the proposed supplier; and  
 (H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American Act applies, use of foreign construction material is noncompliant with the Buy American Act.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

FOREIGN AND DOMESTIC CONSTRUCTION MATERIALS PRICE COMPARISON

Construction Material Description	Unit of Measure	Quantity	Price (Dollars)*
Item 1:			
Foreign construction material	_____	_____	_____
Domestic construction material	_____	_____	_____
Item 2:			
Foreign construction material	_____	_____	_____
Domestic construction material	_____	_____	_____

[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]

[Include other applicable supporting information.]

[\* Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).]

**I-4 FAR 52.228-13 ALTERNATIVE PAYMENT PROTECTIONS (JUL 2000)  
(APPLICABLE IF CONTRACT AMOUNT EXCEEDS \$30,000)**

(a) The Contractor shall submit one of the following payment protections

1. Payment Bond
  2. Irrevocable Letter of Credit
- 

(b) The amount of the payment protection shall be 100 percent of the contract price.

(c) The submission of the payment protection is required within 10 days of contract award.

(d) The payment protection shall provide protection for the full contract performance period plus a one-year period.

(e) Except for escrow agreements and payment bonds, which provide their own protection procedures, the Contracting Officer is authorized to access funds under the payment protection when it has been alleged in writing by a supplier of labor or material that a nonpayment has occurred, and to withhold such funds pending resolution by administrative or judicial proceedings or mutual agreement of the parties.

(f) When a tripartite escrow agreement is used, the Contractor shall utilize only suppliers of labor and material that signed the escrow agreement.

**I-5. FAR 52.232-99 PROVIDING ACCELERATED PAYMENT TO SMALL BUSINESS SUBCONTRACTORS (DEVIATION) (AUG 2012)**

This clause implements the temporary policy provided by OMB Policy Memorandum M-12-16, Providing Prompt Payment to Small Business Subcontractors, dated July 11, 2012.

(a) Upon receipt of accelerated payments from the Government, the contractor is required to make accelerated payments to small business subcontractors to the maximum extent practicable after receipt of a proper invoice and all proper documentation from the small business subcontractor.

(b) Include the substance of this clause, including this paragraph (b), in all subcontracts with small business concerns.

(c) The acceleration of payments under this clause does not provide any new rights under the Prompt Payment Act.

#### **I-6 FAR 52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES**

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the date of the clause.

(b) The use in this solicitation or contract of any [*insert regulation name*] (48 CFR \_\_\_\_\_) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the name of the regulation.

#### **I-7 AGAR 452.209-71 ASSURANCE REGARDING FELONY CONVICTION OR TAX DELINQUENT STATUS FOR CORPORATE APPLICANTS (FEB 2012) (ALTERNATE 1) (FEB 2012)**

(a) This award is subject to the provisions contained in the Consolidated Appropriations Act, 2012 (P.L. No. 112-74), Division E, Sections 433 and 434 regarding corporate felony convictions and corporate federal tax delinquencies. Accordingly, by accepting this award the contractor acknowledges that it –

(1) does not have a tax delinquency, meaning that it is not subject to any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, and

(2) has not been convicted (or had an officer or agent acting on its behalf convicted) of a felony criminal violation under any Federal law within 24 months preceding the award, unless a suspending and debarring official of the United States Department of Agriculture has considered suspension or debarment of the awardee, or such officer or agent, based on these convictions and/or tax delinquencies and determined that suspension or debarment is not necessary to protect the interests of the Government.

(b) If the awardee fails to comply with these provisions, the Forest Service may terminate this contract for default and may recover any funds the awardee has received in violation of sections 433 or 434.

#### **I-8 AGAR 452.228-70 ALTERNATIVE FORMS OF SECURITY (NOV 1996)**

If furnished as security, money orders, drafts, cashier's checks, or certified checks shall be drawn payable to: USDA Forest Service.

**PART III--LIST OF DOCUMENTS, EXHIBITS, AND OTHER ATTACHMENTS****SECTION J--LIST OF ATTACHMENTS**

Title			Pages
1. CSI Specifications			12
2. Project Drawings			2
	Page No.	Description	
	1	Vicinity Map	1
	2	Site Plan	1
3. DOL Wage Decision No. WA140043, 04/11/2014			8
4. Past and Current Contract Information			2

(i) [52.203-2](#), Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(A) The acquisition is to be made under the simplified acquisition procedures in [Part 13](#);

(B) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or

(C) The solicitation is for utility services for which rates are set by law or regulation.

(ii) [52.203-11](#), Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.

(iii) [52.204-3](#), Taxpayer Identification. This provision applies to solicitations that do not include the clause at [52.204-7](#), System for Award Management.

(iv) [52.204-5](#), Women-Owned Business (Other Than Small Business). This provision applies to solicitations that—

(A) Are not set aside for small business concerns;

(B) Exceed the simplified acquisition threshold; and

(C) Are for contracts that will be performed in the United States or its outlying areas.

(v) [52.209-2](#), Prohibition on Contracting with Inverted Domestic Corporations—Representation. This provision applies to solicitations using funds appropriated in fiscal years 2008, 2009, or 2010, or 2012.

(vi) [52.209-5](#), Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.

(vii) [52.214-14](#), Place of Performance—Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.

(viii) [52.215-6](#), Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.

(ix) [52.219-1](#), Small Business Program Representations (Basic & Alternate I). This provision applies to solicitations when the contract will be performed in the United States or its outlying areas.

(A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.

(B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.

(x) [52.219-2](#), Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract will be performed in the United States or its outlying areas.

(xi) [52.222-22](#), Previous Contracts and Compliance Reports. This provision applies to solicitations that include the clause at [52.222-26](#), Equal Opportunity.

(xii) [52.222-25](#), Affirmative Action Compliance. This provision applies to solicitations, other than those for construction, when the solicitation includes the clause at [52.222-26](#), Equal Opportunity.

(xiii) [52.222-38](#), Compliance with Veterans' Employment Reporting Requirements. This provision applies to solicitations when it is anticipated the contract award will exceed the simplified acquisition threshold and the contract is not for acquisition of commercial items.

(xiv) [52.223-1](#), Biobased Product Certification. This provision applies to solicitations that require the delivery or specify the use of USDA–designated items; or include the clause at [52.223-2](#), Affirmative Procurement of Biobased Products Under Service and Construction Contracts.

(xv) [52.223-4](#), Recovered Material Certification. This provision applies to solicitations that are for, or specify the use of, EPA–designated items.

(xvi) [52.225-2](#), Buy American Act Certificate. This provision applies to solicitations containing the clause at [52.225-1](#).

(xvii) [52.225-4](#), Buy American Act—Free Trade Agreements—Israeli Trade Act Certificate. (Basic, Alternates I, II, and III.) This provision applies to solicitations containing the clause at [52.225-3](#).

(A) If the acquisition value is less than \$25,000, the basic provision applies.

(B) If the acquisition value is \$25,000 or more but is less than \$50,000, the provision with its Alternate I applies.

(C) If the acquisition value is \$50,000 or more but is less than \$77,494, the provision with its Alternate II applies.

(D) If the acquisition value is \$77,494 or more but is less than \$100,000, the provision with its Alternate III applies.

(xviii) [52.225-6](#), Trade Agreements Certificate. This provision applies to solicitations containing the clause at [52.225-5](#).

(xix) [52.225-20](#), Prohibition on Conducting Restricted Business Operations in Sudan—Certification. This provision applies to all solicitations.

(xx) [52.225-25](#), Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran—Representation and Certifications. This provision applies to all solicitations.

(xxi) [52.226-2](#), Historically Black College or University and Minority Institution Representation. This provision applies to—

(A) Solicitations for research, studies, supplies, or services of the type normally acquired from higher educational institutions; and

(B) For DoD, NASA, and Coast Guard acquisitions, solicitations that contain the clause at [52.219-23](#), Notice of Price Evaluation Adjustment for Small Disadvantaged Business Concerns.

(2) The following certifications are applicable as indicated by the Contracting Officer:

[Contracting Officer check as appropriate.]

\_\_\_ (i) [52.219-22](#), Small Disadvantaged Business Status.

\_\_\_ (A) Basic.

\_\_\_ (B) Alternate I.

\_\_\_ (ii) [52.222-18](#), Certification Regarding Knowledge of Child Labor for Listed End Products.

\_\_\_ (iii) [52.222-48](#), Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment Certification.

\_\_\_ (iv) [52.222-52](#), Exemption from Application of the Service Contract Act to Contracts for Certain Services–Certification.

\_\_\_ (v) [52.223-9](#), with its Alternate I, Estimate of Percentage of Recovered Material Content for EPA–Designated Products (Alternate I only).

\_\_\_ (vi) [52.227-6](#), Royalty Information.

\_\_\_ (A) Basic.

\_\_\_ (B) Alternate I.

\_\_\_ (vii) [52.227-15](#), Representation of Limited Rights Data and Restricted Computer Software.

(d) The offeror has completed the annual representations and certifications electronically via the SAM website accessed through <https://www.acquisition.gov>. After reviewing the SAM database information, the offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in paragraph (c) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer and are incorporated in this offer by reference (see FAR [4.1201](#)); except for the changes identified below [*offeror to insert changes, identifying change by clause number, title, date*]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR CLAUSE #	TITLE	DATE	CHANGE
_____	_____	_____	_____

Any changes provided by the offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications posted on SAM.

**K-3 AGAR 452.209 – 70 REPRESENTATION BY CORPORATIONS REGARDING AN UNPAID DELINQUENT TAX LIABILITY OR A FELONY CONVICTION (DEVIATION 2012-01) (FEB 2012) (ALTERNATE 1) (FEB 2012)**

(a.) Awards made under this solicitation are subject to the provisions contained in the Consolidated Appropriations Act, 2012 (P.L. No. 112-74), Division E, Sections 433 and 434 regarding corporate felony convictions and corporate federal tax delinquencies. To comply with these provisions, all offerors must complete paragraph (1) of this representation, and all corporate offerors also must complete paragraphs (2) and (3) of this representation.

(b) The Offeror represents that –

- (1) The Offeror is [ ], is not [ ] (*check one*) an entity that has filed articles of incorporation in one of the fifty states, the District of Columbia, or the various territories of the United States including American Samoa, Federated States of Micronesia, Guam, Midway Islands, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, U.S. Virgin Islands. (Note that this includes both for-profit and non-profit organizations.)

If the Offeror checked “is” above, the Offeror must complete paragraphs (2) and (3) of the representation. If Offeror checked “is not” above, Offeror may leave the remainder of the representation blank.

- (2) (i) The Offeror has [ ], has not [ ] (*check one*) been convicted of a felony criminal violation under Federal or State law in the 24 months preceding the date of offer.

(ii) Offeror has [ ], has not [ ] (*check one*) had any officer or agent of Offeror convicted of a felony criminal violation for actions taken on behalf of Offeror under Federal law in the 24 months preceding the date of offer.

- (3) The Offeror does [ ], does not [ ] (*check one*) have any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

**K-4 FAR 52.223-1 BIOBASED PRODUCT CERTIFICATION (MAY 2012)**

As required by the Farm Security and Rural Investment Act of 2002 and the Energy Policy Act of 2005 (7 U.S.C. 8102(c)(3)), the offeror certifies, by signing this offer, that biobased products (within categories of products listed by the United States Department of Agriculture in 7 CFR part 3201, subpart B) to be used or delivered in the performance of the contract, other than biobased products that are not purchased by the offeror as a direct result of this contract, will comply with the applicable specifications or other contractual requirements.

**K-5 FAR 52.222-22 PREVIOUS CONTRACTS AND COMPLIANCE REPORTS (FEB 1999)**

The offeror represents that --

(a) It \* has, \* has not participated in a previous contract or subcontract subject to the Equal Opportunity clause of this solicitation;

(b) It \* has, \* has not filed all required compliance reports; and

(c) Representations indicating submission of required compliance reports, signed by proposed subcontractors, will be obtained before subcontract awards.

(End of Provision)

## **SECTION L--INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS OR RESPONDENTS**

### **L-1 FAR 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)**

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

[www.acquisition.gov/far](http://www.acquisition.gov/far)

[www.usda.gov/procurement/policy/agar.html](http://www.usda.gov/procurement/policy/agar.html)

FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1)

52.215-1 Instructions to Offerors--Competitive Acquisition (JAN 2004)

### **ADDENDUM TO FAR 52.215-1 – INSTRUCTIONS TO OFFERORS**

Schedules A and B are mutually exclusive. Only one schedule will be awarded.

Schedule A requires work to be performed in accordance with requirements in section C-1(c) (“Government-Proposed System”) of the Statement of Work. It is presented merely as an option to offerors; alternate technical proposals will be considered under Schedule B.

Schedule B requires performance in accordance with the Contractor’s own technical proposal and all other contract requirements excluding Section C-1(c).

Offerors may submit a quote for one or both schedules. If an offeror submits a quote for both schedules, each quote will be evaluated separately.

#### **Quote Preparation Instructions**

Quotes may be submitted by mail to the address in Block 5a of the SF-18 or by e-mail to [eneckel@fs.fed.us](mailto:eneckel@fs.fed.us). The solicitation number and due date should be written on the envelope of mailed quotes and included in the subject line of e-mailed quotes. Quotes shall include the following:

1. Standard Form 18, blocks 13 through 16.
2. Section B.1: Schedule of Items

3. Documentation of relevant experience, which should include the following information: contract number, contract amount, contract period, customer, project title, and a description of the work. Projects listed must be of a similar nature and complexity to the work described in this solicitation.
4. The Past and Current Contract Information Form (or a similar form capturing the same information) listing references for at least five similar projects completed within the past six years. References must be able to confirm that the offeror performed the work indicated and provide information concerning the offeror's performance on the listed project. Information provided will be used to assess past performance. Projects completed more than six years ago will not be considered as part of the evaluation of past performance.
5. A technical proposal outlining the approach the offeror will take in performing the work described in this solicitation. The technical proposal should include: a proposed security system design plan; a list of materials to be used; a timeline for completion of the work; and the type of equipment that the offeror proposes to utilize. If alteration of the fence is required, the technical proposal should describe how the fence will be altered.
6. Signed copies of any amendments to the solicitation

Offerors are cautioned that failure to provide the documentation listed above may render a quote nonresponsive and therefore ineligible for award.

In addition, the following information shall be provided prior to award:

1. Section K.2 - Annual Representations and Certifications. Note: If paragraph "d" applies, offerors need only check the box in section K.2(b)(2)(i).
2. Section K.3 - AGAR 452.209 – 70 - Representation by Corporations Regarding an Unpaid Delinquent Tax Liability or a Felony Conviction.
3. Section K.5 - FAR 52.222-22 - Previous Contracts and Compliance Reports.

## **L-2 AGAR 452.204-70 INQUIRIES (FEB 1988)**

Inquiries and all correspondence concerning this solicitation should be submitted in writing to the Contracting Officer. Offerors should contact only the Contracting Officer issuing the solicitation about any aspect of this requirement prior to contract award.

Primary point of contact:

Eric Neckel  
Contracting Officer

Phone: 360-956-2273  
Fax: 360-956-2277  
E-mail: [eneckel@fs.fed.us](mailto:eneckel@fs.fed.us)

Secondary point of contact:

Dan Johnson  
Contracting Officer  
Phone: 360-956-2474  
Fax: 360-956-2277  
E-mail: [djohnson03@fs.fed.us](mailto:djohnson03@fs.fed.us)

### **L-3 52.204-7 SYSTEM FOR AWARD MANAGEMENT (JUL 2013)**

(a) Definitions. As used in this provision—

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional System for Award Management records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at [Subpart 32.11](#)) for the same concern.

“Registered in the System for Award Management (SAM) database” means that—

(1) The offeror has entered all mandatory information, including the DUNS number or the DUNS+4 number, the Contractor and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see [Subpart 4.14](#)) into the SAM database;

(2) The offeror has completed the Core, Assertions, and Representations and Certifications, and Points of Contact sections of the registration in the SAM database;

(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The offeror will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and

(4) The Government has marked the record “Active”.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS +4" followed by the DUNS or DUNS +4 number that identifies the offeror's name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the SAM database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number—

(i) Via the Internet at <http://fedgov.dnb.com/webform> or if the offeror does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office. The offeror should indicate that it is an offeror for a U.S. Government contract when contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

(i) Company legal business.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(iii) Company Physical Street Address, City, State, and ZIP Code.

(iv) Company Mailing Address, City, State and ZIP Code (if separate from physical).

(v) Company Telephone Number.

(vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the SAM database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) Offerors may obtain information on registration at <https://www.acquisition.gov> .

#### **L-4 FAR 52.215-5 FACSIMILE PROPOSALS (OCT 1997)**

(a) *Definition.* "Facsimile proposal," as used in this provision, means a proposal, revision or modification of a proposal, or withdrawal of a proposal that is transmitted to and received by the Government via facsimile machine.

(b) Offerors may submit facsimile proposals as responses to this solicitation. Facsimile proposals are subject to the same rules as paper proposals.

(c) The telephone number of receiving facsimile equipment is: **360-956-2277**

(d) If any portion of a facsimile proposal received by the Contracting Officer is unreadable to the degree that conformance to the essential requirements of the solicitation cannot be ascertained from the document--

(1) The Contracting Officer immediately shall notify the offeror and permit the offeror to resubmit the proposal.

(2) The method and time for resubmission shall be prescribed by the Contracting Officer after consultation with the offeror; and

(3) The resubmission shall be considered as if it were received at the date and time of the original unreadable submission for the purpose of determining timelines, provided the offeror complies with the time and format requirements for resubmission prescribed by the Contracting Officer.

(e) The Government reserves the right to make award solely on the facsimile proposal. However, if requested to do so by the Contracting Officer, the apparently successful offeror promptly shall submit the complete original signed proposal.

**L-5 FAR 52.211-3 AVAILABILITY OF SPECIFICATIONS NOT LISTED IN THE GSA INDEX OF FEDERAL SPECIFICATIONS, STANDARDS AND COMMERCIAL ITEM DESCRIPTIONS FPMR PART 101-29 (JUN 1988)**

(a) The specifications in this solicitation may be obtained from:

<u>Specification</u>	<u>Address</u>
ASTM Standards	American Society for Testing and Materials 100 Barr Harbor Drive West Conshohocken, PA 19428 (610) 832-9585 <a href="http://www.astm.org/">http://www.astm.org/</a>

The request should identify the solicitation number and the specification requested by date, title, and number, as cited in the solicitation.

**L-6 FAR 52.216-1 TYPE OF CONTRACT (APR 1984)**

The Government contemplates award of a firm-fixed-price contract resulting from this solicitation.

**L-7 FAR 52.222-5 DAVIS-BACON ACT—SECONDARY SITE OF THE WORK (JUL 2005)**

(a)(1) The offeror shall notify the Government if the offeror intends to perform work at any secondary site of the work, as defined in paragraph (a)(1)(ii) of the FAR clause at 52.222-6, Davis-Bacon Act, of this solicitation.

(2) If the offeror is unsure if a planned work site satisfies the criteria for a secondary site of the work, the offeror shall request a determination from the Contracting Officer.

(b)(1) If the wage determination provided by the Government for work at the primary site of the work is not applicable to the secondary site of the work, the offeror shall request a wage determination from the Contracting Officer.

(2) The due date for receipt of offers will not be extended as a result of an offeror's request for a wage determination for a secondary site of the work.

**L-8 FAR 52.222-23 NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY FOR CONSTRUCTION (FEB 1999)**

(a) The offeror's attention is called to the Equal Opportunity clause and the Affirmative Action Compliance Requirements for Construction clause of this solicitation.

(b) The goals for minority and female participation, expressed in percentage terms for the Contractor's aggregate workforce in each trade on all construction work in the covered are, are as follows:

Goals for minority participation for each trade: 6.1% (Contracting Officer shall  
Goals for female participation for each trade: 6.9% insert goals)

These goals are applicable to all the Contractor's construction work performed in the covered area. If the Contractor performs construction work in a geographical area located outside of the covered area, the Contractor shall apply the goals established for the geographical area where the work is actually performed. Goals are published periodically in the *Federal Register* in notice form, and these notices may be obtained from any Office of Federal Contract Compliance Programs office.

(c) The Contractor's compliance with Executive Order 11246, as amended, and the regulations in 41 CFR 60-4 shall be based on (1) its implementation of the Equal Opportunity clause, (2) specific affirmative actions obligations required by the clause entitled "Affirmative Action Compliance Requirements for Construction," and (3) its efforts to meet the goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade. The Contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor, or from project to project, for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, Executive Order 11246, as amended, and the regulations in 41 CFR 60-4. Compliance with the goals will be measured against the total work hours performed.

(d) The Contractor shall provide written notification to the Deputy Assistant Secretary for Federal Contract Compliance, U. S. Department of Labor, within 10 working days following award of any construction subcontract in excess of \$10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the--

- (1) Name, address, and telephone number of the subcontractor;
- (2) Employer's identification number of the subcontractor;
- (3) Estimated dollar amount of the subcontract;
- (4) Estimated starting and completion dates of the subcontract; and
- (5) Geographical area in which the subcontract is to be performed.

(e) As used in this Notice, and in any contract resulting from this solicitation, the "covered area" is Olympia, WA in Thurston County. (*Contracting Officer shall insert description of the geographical areas where the contract is to be performed, giving the State, county, and city.*)

#### **L-9 FAR 52.225-10 NOTICE OF BUY AMERICAN ACT REQUIREMENT-- CONSTRUCTION MATERIALS (FEB 2009)**

(a) *Definitions.* "Commercially available off-the-shelf (COTS) item," "construction material," "domestic construction material," and "foreign construction material," as used in this provision, are defined in the clause of this solicitation entitled "Buy American Act--Construction Materials" (Federal Acquisition Regulation (FAR) clause 52.225-9).

(b) *Requests for determinations of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American Act should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR 52.225-9 in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American Act before submitting its offer, or has not

received a response to a previous request, the offeror shall include the information and supporting data in the offer.

*(c) Evaluation of offers.*

(1) The Government will evaluate an offer requesting exception to the requirements of the Buy American Act, based on claimed unreasonable cost of domestic construction material, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(3)(i) of the clause at FAR 52.225-9.

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

*(d) Alternate offers.*

(1) When an offer includes foreign construction material not listed by the Government in this solicitation in paragraph (b)(2) of the clause at FAR 52.225-9, the offeror also may submit an alternate offer based on use of equivalent domestic construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of the clause at FAR 52.225-9 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of the clause at FAR 52.225-9 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic construction material, and the offeror shall be required to furnish such domestic construction material. An offer based on use of the foreign construction material for which an exception was requested—

- (i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or
- (ii) May be accepted if revised during negotiations.

**L-10 AGAR 452.237-71 PRE-BID/ PRE-PROPOSAL CONFERENCE (FEB 1988)**

(a) The Government is planning a pre-bid/pre-proposal conference, during which potential offerors may obtain a better understanding of the work required.

(b) Offerors are encouraged to submit all questions in writing at least five (5) days prior to the conference. Questions will be considered at any time prior to or during the conference; however, offerors will be asked to confirm verbal questions in writing. Subsequent to the conference, an amendment to the solicitation containing an abstract of the questions and answers, and a list of attendees, will be disseminated.

(c) In order to facilitate conference preparations, it is requested that the person named on the Standard Form 1442 of this solicitation be contacted and advised of the number of persons who will attend.

(d) The Government assumes no responsibility for any expense incurred by an offeror prior to contract award.

(e) Offerors are cautioned that, notwithstanding any remarks or clarifications given at the conference, all terms and conditions of the solicitation remain unchanged unless they are changed by amendment to the solicitation. If the answers to conference questions, or any solicitation amendment, create ambiguities, it is the responsibility of the offeror to seek clarification prior to submitting an offer.

(f) The conferences will be held at the following locations for the corresponding line items and Forests listed in the Schedule of Items:

Date:	May 12, 2014
Time:	11:00 a.m. Pacific
Location:	Olympia Forestry Sciences Laboratory 3625 93rd Avenue SW Olympia, WA 98512

## SECTION M--EVALUATION FACTORS FOR AWARD

### M-1 AWARD DETERMINATION

The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered.

### M-2 EVALUATION FACTORS

The following factors shall be used to evaluate offers:

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors listed below shall be used to evaluate offers:

a) Technical capability, which is comprised of the following two subfactors:

(1) Relevant Experience: Experience will be measured by the number of projects the offeror has completed that were similar in nature and complexity to this project.

(2) Past Performance: Past performance refers to how well an offeror has performed on previous projects similar in nature, size, and complexity to this project. Evaluation of past performance will be based on information obtained from references provided by the offeror as well as other sources. Only ongoing projects and projects completed within the past six years will be considered.

The Government will inquire about the following elements of past performance:

(1) quality of the offeror's work; (2) customer satisfaction; (3) timeliness of the firm during performance and the final completion of the project; and (4) overall business relations.

Offerors may provide information on problems encountered on any identified contracts and any corrective action taken.

b) Technical Approach: A technical proposal outlining the approach the offeror will take in performing the work described in this solicitation. The technical proposal should include: a proposed security system design plan; a list of materials to be used; a timeline for completion of the work; and the type of equipment that the offeror proposes to utilize. If alteration of the fence is required, the technical proposal should describe how the fence will be altered.

c) Price

For evaluation purposes, technical capability and technical approach, when combined, will be considered equally important to price.

**ATTACHMENT 1: CSI SPECIFICATIONS**

**SECTION 01200**  
**MOBILIZATION PAYMENT PROCEDURES**

**PART 1 - GENERAL**

1.01 Summary

- A. This work shall consist of preparatory work and operations necessary for the movement of personnel, equipment, supplies, and incidentals to the project site, and for all other work and operations that must be performed or that cause costs to be incurred prior to beginning work on the various items on the project site.
- B. This work is considered incidental to other work items and is not a separate pay item.

**PART 2 - PRODUCTS (NOT USED)**

**PART 3 - EXECUTION (NOT USED)**

**PART 4 - MEASUREMENT AND PAYMENT (NOT USED)**

**END OF SECTION 01200**

**SECTION 02230**  
**CLEARING AND GRUBBING**

**PART 1 - GENERAL**

## 1.01 Summary

- A. This section specifies clearing, grubbing, removing, and disposing of all vegetation and debris within the clearing limits except objects designated to remain. Work includes preserving objects designated to remain. (Clearing includes snags and unstable trees outside the clearing limits.)
- B. Clearing Limits.
  - 1. Clearing limits are within a 5 foot strip contiguous to utility centerline (unless otherwise staked on the ground).

## 1.02 Related Sections

## 1.03 Definitions

- A. Merchantable Timber.
  - 1. All logs and poles, at least 1/3 sound, having a minimum diameter of 6 inches under the bark, a minimum length of 8 feet, and a minimum of 10 board feet sound wood shall be considered merchantable timber.

**PART 2 - PRODUCTS (NOT USED)****PART 3 - EXECUTION**

## 3.01 Surface Preparation

- A. Clearing.
  - 1. Clear all trees, brush and other objects not designated to remain.
- B. Grubbing.
  - 1. Grub all stumps, brush, and roots (to a minimum 3" diameter) within the clearing limits.
  - 2. Grub stumps, shrubs, brush, and roots (to a minimum 3" diameter) within the excavation limits.
- C. Sod Removal and Preservation.
  - 1. Sod Removal.
    - a. Remove sod using equipment specifically designed for such work. Do not use hand methods (cutting, trimming and undercutting). Remove sod in straight sections, cut square on ends.
  - 2. Sod Preservation.
    - a. Maintain sod in a moist condition suitable for use in resodding.
  - 3. Replacement of Dead and Damaged Sod.
    - a. Replace sod damaged or allowed to die with commercially grown sod of a type similar to that removed.
  - 4. Depth of Sod.
    - a. The COR will determine depth of sod to be removed. Depth requirement shall not exceed 4 inches.

## 3.02 Tree Removal and Preservation

- A. Falling of Trees.
  - 1. Fall trees toward the center of the area to be cleared
  - 2. Use controlled falling to prevent injury or defacement to structures, other trees, or property.

- B. Treatment of Trees and Shrubs Damaged by Contractor.
    - 1. Trim branches flush with tree.
    - 2. Within 3 days of the damage, treat all cut or scarred surfaces of trees or shrubs designated to remain. Use a product prepared especially for tree surgery.
  - C. Tree and Snag Removal Outside Clearing Limits.
    - 1. Clear all snags and unstable trees which are marked for removal outside the clearing limits.
- 3.03 Disposal of Merchantable Timber
- A. Merchantable timber becomes the property of the Contractor. Remove from National Forest Land.
- 3.04 Debris Disposal
- A. Dispose of non-vegetative debris off National Forest Land.
- 3.05 Clearing for buildings
- A. Minimize disruption of existing landscape.
  - B. Remove all rubbish, vegetative material, and debris from the area to be occupied by the building.
  - C. Trees and other vegetative material, within the grading limit lines, to be saved, will be marked by the Government and protected by the Contractor.
  - D. Do not remove any trees or other vegetative material outside the grading limit lines without approval of the COR.

**PART 4 - MEASUREMENT AND PAYMENT (NOT USED)**

**END OF SECTION 02230**

**SECTION 02310**  
**GRADING**

**PART 1 - GENERAL**

- 1.01 Summary
  - A. This section specifies grading requirements for project.
- 1.02 Related Sections

**PART 2 - PRODUCTS**

- 2.01 Materials
  - A. Fill Material.
    - 1. Material free from frozen or organic material, and rocks larger than 2 inches.

**PART 3 - EXECUTION**

- 3.01 Construction
  - A. General.
    - 1. Grade around buildings to the contours and elevations shown on the Drawings and smoothly blend into existing contours. Grade to uniform levels or slopes between points where grades or contours are given, round surfaces at abrupt changes in levels. Slope ground away from building walls and walks to facilitate drainage.
    - 2. Hand rake areas within the grading limit lines. Remove all roots, brush, weeds and stones larger than 2 inches from the finish graded surface.
  - B. Grading Around Buildings.
    - 1. Grade all areas to produce uniform slopes between spot elevations and contours.
    - 2. Control grading within 5 feet of buildings and all other structures to prevent water from running into excavated areas. Remove all water, which accumulates in excavated areas.
  - C. Excess Material.
    - 1. Remove excess material, not required for grading, from the site.

**PART 4 - MEASUREMENT AND PAYMENT (NOT USED)**

**END OF SECTION 02310**

**SECTION 02316**  
**EXCAVATION, TRENCHING, AND BACKFILLING FOR UTILITIES SYSTEMS**

**PART 1 - GENERAL**

## 1.01 Summary

1. Includes excavating, trenching, backfilling and compacting for the installation of utility lines to the depths and dimensions shown on the drawings.

## 1.02 Related Sections

## 1.03 Protection

1. Maintain the excavations to guard against and prevent injury to employees and the public. Provide adequate shoring and bracing as required.
2. Protect the excavation from frost action. Compact ground that has frozen and subsequently thawed as specified herein.
3. Prevent water accumulation in excavations. If clay soil becomes saturated, compact after it has dried as specified herein.
4. Minimum depth of soil cover for utility lines (measured from the top of the pipe, conduit, or cable to final construction ground elevation required):

Sewer lines	See plan and profile sheet
Water lines	5 feet
Underground power lines	30 inches
Telephone lines	24 inches

5. Protect existing underground utilities from damage.

## 1.04 Degree of Compaction

1. Degree of compaction shall be expressed as a percentage of the maximum density obtained by the test procedure presented in ASTM D 1557

## 1.05 Submittals

1. The following shall be submitted in accordance with Section "Submittals."
  - a. Reports.

- 1) ~~Field Density Tests. Testing of Backfill Materials~~
- 2) ~~Copies of all laboratory and field test reports within 24 hours of the completion of the test.~~

## 1.06 Definitions

1. Backfill: Soil materials used to fill an excavation.
2. Bedding Course: Layer placed over the excavated subgrade in a trench before laying pipe.
3. Borrow: Satisfactory soil imported from off-site for use as fill or backfill.
4. Drainage Course: Layer supporting slab-on-grade used to minimize capillary flow of pore water.
5. Excavation: Removal of material encountered above subgrade elevations.

- a. Additional Excavation: Excavation below subgrade elevations as directed by Contracting Officer (CO). Additional excavation and replacement material will be paid for according to Contract provisions for changes in the Work.
  - b. Unauthorized Excavation: Excavation below subgrade elevations or beyond indicated dimensions without direction by CO. Unauthorized excavation, as well as remedial work directed by CO, shall be without additional compensation.
6. Fill: Soil materials used to raise existing grades.
  7. Subgrade: Surface or elevation remaining after completing excavation, or top surface of a fill or backfill immediately below subbase, drainage fill, or topsoil materials.
  8. Utilities include on-site underground pipes, conduits, ducts, and cables, as well as underground services within buildings.

## PART 2 – PRODUCTS

### 2.01 Materials

1. Backfill and Fill: Satisfactory soil materials.
2. Bedding: Naturally or artificially graded mixture of natural or crushed gravel, crushed stone, and natural or crushed sand; ASTM D 2940; with at least 100 percent passing a 1 inch (25 mm) sieve and not more than 8 percent passing a No. 200 (0.75 mm) sieve.
3. Detectable Warning Tape: Polyethylene film warning tape encasing a metallic core, minimum 6 inches (150 mm) wide and 4 mils (0.1 mm) thick, continuously inscribed with a description of the utility.
  - a. Color: Comply with ASME A 13.1, unless otherwise indicated

## PART 3 – EXECUTION

### 3.01 Excavation

1. Excavation shall be performed as recommended by the manufacturer of the pipe to be installed. Excavations shall be unclassified. During excavation, material satisfactory for backfilling shall be stockpiled in an orderly manner at a distance from the banks of the trench equal to  $\frac{1}{2}$  the depth of the excavation, but in no instance closer than 2 feet. Excavated material not required or not satisfactory for backfill shall be disposed of off site. The Contractor shall be responsible for disposal of materials. Grading shall be done as may be necessary to prevent surface water from flowing into the excavation, and any water accumulating shall be removed to maintain the stability of the bottom and sides of the excavation. Unauthorized over excavation shall be backfilled in accordance with paragraph BACKFILLING AND COMPACTION at no additional cost to the Government.
  - a. Bottom Preparation: The bottom of trenches shall be accurately graded to provide uniform bearing and supported for the bottom quadrant of each section of the pipe. Bell holes shall be excavated to the necessary size at each joint or coupling to eliminate point bearing. Stones of 3 inches or greater in any dimension, or as recommended by the pipe manufacturer, whichever is smaller, shall be removed to avoid point bearing.
  - b. Removal of Unyielding Material: Where unyielding material is encountered in the bottom of the trench, such material shall be removed 4 inches below the required grade and replaced with suitable materials as provided in paragraph BACKFILLING and COMPACTION.
  - c. Removal of Unstable Material: Where unstable material is encountered in the bottom of the trench, such material shall be removed to the depth directed and replaced to the proper grade with base material as provided in paragraph

BACKFILLING AND COMPACTION. When removal of unstable material is required due to the Contractor's fault or neglect in performing the work, the resulting material shall be excavated and replaced by the Contractor without additional cost to the Government.

2. Stockpiles: Stockpiles of satisfactory materials shall be placed and graded as specified. Stockpiles shall be kept in a neat and well-drained condition, giving due consideration to drainage at all times. The ground surface at stockpile locations shall be cleared, grubbed, and sealed by rubber-tired equipment, excavated satisfactory and unsatisfactory materials shall be separately stockpiled. Stockpiles of satisfactory materials shall be protected from contamination, which may destroy the quality and fitness of the stockpiled material. If the Contractor fails to protect the stockpiles, and any material becomes unsatisfactory, such material shall be removed and replaced with satisfactory material from approved borrow sources at no additional cost to the Government. Locations of stockpiles of satisfactory materials shall be subject to prior approval of the Contracting Officer. The Contractor shall be responsible for obtaining approved borrows materials from sources off site, as required.

### 3.02 Backfill and Compaction

1. Backfill material shall consist of satisfactory material, base material, or backfill material as required. Backfill shall be placed in layers not exceeding 6 inches loose thickness for compaction by hand operated machine compactors, and 8 inches loose thickness for other than hand operated machines, unless otherwise specified. ~~Each layer shall be compacted to at least 95 percent maximum density for cohesionless soils and 90 percent maximum density for cohesive soils, unless otherwise specified.~~
2. Adjust the moisture content of each layer of material to obtain a mass that will not visibly deflect under the load of equipment. Operate compaction equipment over the full width of each layer until there is no visible evidence of further consolidation.

### 3.03 Special Requirements

Special requirements for both excavation and backfill relating to the specific utilities are as follows:

1. Electrical Distribution System: Direct burial cable and conduit or duct line shall have a minimum cover of 24 inches from the finished grade, unless otherwise indicated. Bedding material shall be used for all direct burial cable.
2. Plastic Marking Tape: Warning tapes shall be installed directly above the utility.

### 3.04 ~~Testing~~

~~Testing shall be the responsibility of the Contractor and shall be performed at no additional cost to the Government.~~

- ~~1. Testing of Backfill Materials: Classification of backfill materials shall be determined in accordance with ASTM D 2487 and the moisture density relations of soils shall be determined in accordance with ASTM D 1557. A minimum of one soil classification and one moisture density relation test shall be performed on each different type of material used for bedding and backfill.~~
- ~~2. Field Density Tests: Tests shall be performed in sufficient numbers to ensure that the specified density is being obtained. A minimum of one field density test per lift of backfill for every 500 feet of installation shall be performed. Field in-place density~~

~~shall be determined in accordance with ASTM D 1556, ASTM D 2167, or ASTM D 2922. Trenches improperly compacted shall be reopened to the depth directed, then refilled and compacted to the density specified at no additional cost to the Government.~~

**PART 4 - MEASUREMENT AND PAYMENT (NOT USED)**

- 4.01 Payment shall be made by Lump Sum of completed operational security system around fence. All other materials and accessories needed are considered part of the completed security system and will not be measured separately.

**END OF SECTION 02316**

**SECTION 280500**  
**COMMON WORK RESULTS FOR ELECTRONIC SAFETY AND SECURITY**

**PART 1 - GENERAL**

## 1.01 Summary

## A. Section Includes:

1. Electronic safety and security equipment coordination and installation.
2. Sleeves for raceways and cables.
3. Sleeve seals.
4. Grout.
5. Common electronic safety and security installation requirements.

## 1.02 Definitions

- B. EPDM: Ethylene-propylene-diene terpolymer rubber.

## 1.03 Coordination

## A. Coordinate arrangement, mounting, and support of electronic safety and security equipment:

6. To allow maximum possible headroom unless specific mounting heights that reduce headroom are indicated.
7. To provide for ease of disconnecting the equipment with minimum interference to other installations.
8. To allow right of way for piping and conduit installed at required slope.
9. So connecting raceways, cables, wireways, cable trays, and busways will be clear of obstructions and of the working and access space of other equipment.

- B. Coordinate installation of required supporting devices and set sleeves in cast-in-place concrete, masonry walls, and other structural components as they are constructed.

- C. Coordinate location of access panels and doors for electronic safety and security items that are behind finished surfaces or otherwise concealed.

- D. Coordinate sleeve selection and application with selection and application of firestopping specified.

## 1.04 Submittals

- A. Materials List/Product Data: For each product. Include rated capacities, operating characteristics, and furnished specialties and accessories. Reference each product to a location on Drawings. Test and evaluation data presented in Product Data shall comply with SIA BIO-01.

~~B. Shop Drawings: Include plans, elevations, sections, details, and attachments to other work.~~

- ~~1. Diagrams for cable management system.~~
  - ~~2. System labeling schedules, including electronic copy of labeling schedules that are part of the cable and asset identification system of the software specified in Parts 2 and 3.~~
  - ~~3. Wiring Diagrams. For power, signal, and control wiring. Show typical wiring schematics.~~
  - ~~4. Cable Administration Drawings: As specified in "Identification" Article.~~
  - ~~5. Battery and charger calculations for controllers.~~
-

- C. Operation and Maintenance Data: For security system to include in emergency, operation, and maintenance manuals. In addition to items specified, include the following:
1. Hard copies of manufacturer's specification sheets, operating specifications, design guides, user's guides for software and hardware, and PDF files on CD-ROM of the hard-copy submittal.
  2. System installation and setup guides with data forms to plan and record options and setup decisions.

## PART 2 - PRODUCTS

### 2.01 Products Referred to by Name

The materials referred to by trade name, make, or catalog number on the drawings shall be regarded as establishing a minimum standard of quality; substitutions of equal or greater quality can be made by submitting a data sheet of the proposed substituted item to the Contracting Officer, for approval.

### 2.02 Sleeves for Raceways and Cables

- D. Cast-Iron Pipe Sleeves: Cast or fabricated "wall pipe," equivalent to ductile-iron pressure pipe, with plain ends and integral waterstop, unless otherwise indicated.
- E. Sleeves for Rectangular Openings: Galvanized sheet steel.
1. Minimum Metal Thickness:
    - a. For sleeve cross-section rectangle perimeter less than 50 inches (1270 mm) and no side more than 16 inches (400 mm), thickness shall be 0.052 inch (1.3 mm).
    - b. For sleeve cross-section rectangle perimeter equal to, or more than, 50 inches (1270 mm) and 1 or more sides equal to, or more than, 16 inches (400 mm), thickness shall be 0.138 inch (3.5 mm).

### 2.03 Sleeve Seals

- F. Description: Modular sealing device, designed for field assembly, to fill annular space between sleeve and raceway or cable.
1. Manufacturers: Subject to compliance with requirements, available manufacturers offering products that may be incorporated into the Work include, but are not limited to, the following:
    - a. Advance Products & Systems, Inc.
    - b. Calpico, Inc.
    - c. Metraflex Co.
    - d. Pipeline Seal and Insulator, Inc.
  2. Sealing Elements: EPDM interlocking links shaped to fit surface of cable or conduit. Include type and number required for material and size of raceway or cable.
  3. Pressure Plates: Plastic, Include two for each sealing element.
  4. Connecting Bolts and Nuts: Carbon steel with corrosion-resistant coating of length required to secure pressure plates to sealing elements. Include one for each sealing element.

### 2.04 Grout

- A. Nonmetallic, Shrinkage-Resistant Grout: ASTM C 1107, factory-packaged, nonmetallic aggregate grout, noncorrosive, nonstaining, mixed with water to consistency suitable for application and a 30-minute working time.
-

**PART 3 - EXECUTION****3.01 Common Requirements for Electronic Safety and Security Installation**

- A. Comply with NECA 1.
- B. Measure indicated mounting heights to bottom of unit for suspended items and to center of unit for wall-mounting items.
- C. Headroom Maintenance: If mounting heights or other location criteria are not indicated, arrange and install components and equipment to provide maximum possible headroom consistent with these requirements.
- D. Equipment: Install to facilitate service, maintenance, and repair or replacement of components of both electronic safety and security equipment and other nearby installations. Connect in such a way as to facilitate future disconnecting with minimum interference with other items in the vicinity.
- E. Right of Way: Give to piping systems installed at a required slope.

**3.02 Sleeve Installation for Electronic Safety and Security Penetrations**

- A. Electronic safety and security penetrations occur when raceways, pathways, cables, wireways, or cable trays penetrate concrete slabs, concrete or masonry walls, or fire-rated floor and wall assemblies.
  - B. Concrete Slabs and Walls: Install sleeves for penetrations unless core-drilled holes or formed openings are used. Install sleeves during erection of slabs and walls.
  - C. Use pipe sleeves unless penetration arrangement requires rectangular sleeved opening.
  - D. Fire-Rated Assemblies: Install sleeves for penetrations of fire-rated floor and wall assemblies unless openings compatible with firestop system used are fabricated during construction of floor or wall.
  - E. Cut sleeves to length for mounting flush with both surfaces of walls.
  - F. Extend sleeves installed in floors 2 inches (50 mm) above finished floor level.
  - G. Size pipe sleeves to provide 1/4-inch (6.4-mm) annular clear space between sleeve and raceway or cable, unless indicated otherwise.
  - H. Seal space outside of sleeves with grout for penetrations of concrete and masonry
    - 1. Promptly pack grout solidly between sleeve and wall so no voids remain. Tool exposed surfaces smooth; protect grout while curing.
  - I. Interior Penetrations of Non-Fire-Rated Walls and Floors: Seal annular space between sleeve and raceway or cable, using joint sealant appropriate for size, depth, and location of joint.
  - J. Fire-Rated-Assembly Penetrations: Maintain indicated fire rating of walls, partitions, ceilings, and floors at raceway and cable penetrations. Install sleeves and seal raceway and cable penetration sleeves with firestop materials.
  - K. Roof-Penetration Sleeves: Seal penetration of individual raceways and cables with flexible boot-type flashing units applied in coordination with roofing work.
  - L. Aboveground, Exterior-Wall Penetrations: Seal penetrations using cast-iron pipe sleeves and mechanical sleeve seals. Select sleeve size to allow for 1-inch (25-mm) annular clear space between pipe and sleeve for installing mechanical sleeve seals.
-

- M. Aboveground, Exterior-Wall Penetrations: Seal annular space between sleeve and raceway or cable, using a flexible, waterproofing, joint sealant appropriate for size, depth, and color to closely match the surrounding surface.
- N. Underground, Exterior-Wall Penetrations: Install cast-iron pipe sleeves. Size sleeves to allow for 1-inch (25-mm) annular clear space between raceway or cable and sleeve for installing mechanical sleeve seals.
- O. Underground, Exterior-Wall Penetrations: Seal annular space between sleeve and raceway using a flexible, waterproofing, joint sealant appropriate for size, depth, and location of joint.

### 3.03 Sleeve-Seal Installation

- A. Install to seal exterior wall penetrations.
- B. Use type and number of sealing elements recommended by manufacturer for raceway or cable material and size. Position raceway or cable in center of sleeve. Assemble mechanical sleeve seals and install in annular space between raceway or cable and sleeve. Tighten bolts against pressure plates that cause sealing elements to expand and make watertight seal.

### 3.04 Firestopping

- A. Apply firestopping to penetrations of fire-rated floor and wall assemblies for electronic safety and security installations to restore original fire-resistance rating of assembly.

### 3.05 Penetrations Where Sleeves Are Not Required

- A. Electrical penetrations not requiring sleeves occur when raceways, cables, wireways, cable trays, or busways do not penetrate concrete slabs, concrete or masonry walls, or fire-rated floor and wall assemblies.
- B. Roof-Penetrations: Seal penetration of individual raceways with flexible boot-type flashing units applied in coordination with roofing work.
- C. Aboveground, Exterior-Wall Penetrations: Seal exterior opening around the raceway or cable, using a flexible, waterproofing, joint sealant appropriate for size, depth, and color to closely match the surrounding surface. Finish interior openings, filling opening and matching the exiting surface with appropriate materials and finish quality for the space.

## **PART 4 - MEASUREMENT AND PAYMENT (NOT USED)**

- 4.01 Payment shall be made by Lump Sum of completed operational security system around fence. All other materials and accessories needed are considered part of the completed security system and will not be measured separately.

**GENERAL NOTES:**

1. Contractor shall provide any and all labor, equipment and services necessary for security area around fence that is 100 feet by 60 feet, to be operational with the present security system.
2. Contractor shall connect to existing power and security system from the pump house. Existing security system is a Pulnix Paxex-Pf-in-100-HF that triggers both audible alarm on main building and alarm to security company dispatch.
3. Contractor is responsible for utility locates prior to ditching. There is a known waterline near trench to be installed. Any damage to waterline is the Contractor's responsibility.
4. Contractor shall program new security area around fence into present security system. Key pad and panel for existing system is located at the pump house.
5. The Government is responsible for Clearing and Grubbing interior fence line, providing a 3 to 4 foot section clear of debris prior to contractor starting work.

**GOVERNMENT PROPOSED SYSTEM:**

1. Contractor shall construct approximately 250 feet of trench (Contractor to field verify) and install conduit for wiring from pump house to fenced area.
2. Conduit for wiring shall be above ground in fenced area.
3. Contractor shall install five metal mounting posts, inside the fenced area along with ten Weatherproof Beam Motion Detectors, two for each post.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====  
Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).  
-----

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters , PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable , i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

#### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the

wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

-----  
WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION
