The goals of the “Shasta Lake Trails Repair and Maintenance Project” were to sustain the qualities of several popular trails in the area (Bailey Cove, East Packers, Fisherman’s Point, Hirz Bay, Hirz Lookout, Packers Fish Loup, East Packers, Packers Overlook, Potem Falls, Samwel Cave, Sugarloaf Creek and Waters Gulch). The work consisted of clearing brush and hazard trees, as well as restorative work performed on the trails themselves, such as filling ruts.
