

**Annual Operating Instructions
2014
Gunlock C&H Allotment
Pine Valley RD, Dixie NF**

This AOI is made part of your grazing permit consistent with Part 1, item 3 and Part 2, Item 8(a). Situations may develop during the grazing season which requires changes to these instructions. If this becomes necessary, or if you cannot comply with some or part of these instructions, contact the District Ranger and obtain approval before initiating changes or deviating from these instructions. Failure to follow these instructions is a violation of your permit.

Permittee	Ear Tag Color & #'s	Permitted*			Authorized**		
		Number	Class	Season	Number	Class	Season
Ed Bowler	Black	159	Cow/calf	06/01-09/30	127	Cow/calf	06/01-09/30
Fenton Bowler	Yellow	248	Cow/calf	06/01-09/30	198	Cow/calf	06/01-09/30
Brandon Humphries	White	87	Cow/calf	06/01-09/30	70	Cow/calf	06/01-09/30
Melvin & Laura Bowler	Black	66	Cow/calf	06/01-09/30	53	Cow/calf	06/01-09/30
Lem Leavitt	Blue	61	Cow/calf	06/01-09/30	49	Cow/calf	06/01-09/30
*Permitted use is the livestock numbers and season of use listed on your grazing permit.							
**Authorized use is the number of livestock and season of use you are authorized for in the current grazing season and reflects stocking and/or season of use adjustments for the given year.							

Non-use

Please be aware that nonuse in excess of 10% of your permitted numbers must be requested at least 30 days before the “on” date. Nonuse for personal convenience may be approved on a year-to-year basis for a maximum of three consecutive years and not more than four years in any 10-year period. Longer periods of nonuse for range protection will only be approved under a written agreement.

Non-use taken: Partial non-use of 20% for resource protection taken due to drought conditions.

LIVESTOCK MANAGEMENT

Grazing Schedule

Unit (Pasture)	Tentative Dates*
Ox Valley South	June 1 – July 15
Ox Valley North	July 16 – Aug 20
Twin Springs	Aug 21 – August 30
Spring Creek	Sept 1 – Sept 30
Gum Hill	June 1 – July 31*
Central Ox Valley Cheatgrass	Sept 1 – Sept 30**
All Cattle OFF Forest	Sept 30*

*The above schedule is an **estimate** and may be modified at any time if: utilization levels are met, water availability is inadequate, drought, delayed forage development or wet soil conditions.

** Use on the Gum Hill Pasture will be used by a few groups of 10-15 cattle at any one time. As soon as the pasture reaches utilization standard it will be closed to grazing for the rest of the season.

Allowable use levels are more important than tentative dates listed above. If allowable use levels are met early in the scheduled pasture, cattle will be required to be moved to another area of the pasture, moved to another pasture, or removed from the Forest. If early pasture moves occur, District range

personnel or the District Ranger must be notified. Delayed pasture moves require prior approval by the District Ranger.

Type of rotation: Deferred

All livestock must be removed from the Forest by the permitted off date listed above.

Notice of Non-compliance/Suspension Actions: None

Additional instructions: None.

UTILIZATION STANDARDS & MONITORING

Maximum Allowable Forage Use Criteria

Vegetation Type		Very Early	Early	Mid	Late	Comments
Riparian Hydric Species (i.e. rushes & sedges)		6"	6"	4"	4"	Stubble height remaining at end of growing season.
Riparian Emphasis Management Areas (Lower and Middle Moody Wash & Willow Springs Draw)		6"	6"	6"	6"	Stubble height remaining at end of growing season.
Hydric species in wet meadows not influenced by streams (i.e. rushes & sedges)		6"	6"	4"	4"	Stubble height remaining at end of growing season.
Non-hydric species in riparian areas (i.e. Kentucky bluegrass)		2"				Stubble height remaining at end of growing season.
Upland species		50%				Varying in specific unit from 40-60%.
Wheatgrass seedings		60%				Management option to exceed 60% to maintain healthy seedings.
Riparian browse		<50%				New leader production.
Streambank alteration		<20%				Sloughing, trampling, dislodged stones, & animal tracks.
Goshawk nest areas & post-fledging family areas (PFAs)	Grass & forbs	<20%				Average <20% by weight and not exceed 40% in any given area.
	Shrubs	<40%				Average <40% by weight and not exceed 50% in any given area.

The above utilization standards take precedence over the tentative dates listed in the grazing schedule. You are responsible to monitor your livestock and comply with the listed utilization standards and to move livestock prior to **any** of the above standards being exceeded.

Compliance monitoring inspections will be conducted by Forest Service personnel throughout the grazing season in key areas across the allotment. You are invited and it is recommended that you participate in these inspections.

Exceeding the utilization standards may be considered as non-compliance with your Term Grazing Permit and may be subject to suspension or cancellation of the permit.

BILLING

Your annual grazing bill must be paid and notification received in our office prior to turning livestock onto the National Forest. It may take 10 days or more from the time you mail your payment until we receive payment notification so plan accordingly.

RANGE IMPROVEMENTS

You are responsible for maintaining the range improvements assigned to you in Part 3 of your Term Grazing Permit. All improvements are to be maintained to standard prior to livestock entering the pasture being used, even in the event of non-use. Standards are in part 3 of your Term Grazing Permit or at <http://www.fs.fed.us/r4/dixie/resources/rangemgt.shtml>. Livestock entry onto the Forest may be delayed if improvements are not maintained to acceptable standards.

Scheduled improvement Maintenance for 2014 season:

Brandon Humphries

Fences

Black Hills Burn Fence - From cattle guard on calf spring ranch road south to the lava belt south of Aspen Dry Lake 2.5 miles

Tom Springs Fence - From Lava Belt at Aspen dry lake east to the end of the fence 1 mile

Twin Springs/Spring Creek Pasture – From cattle guard on ox valley road adjacent to spring creek west to the allot boundary fence

Water

Equal share of water improvement maintenance based on percentage of livestock on Allotment

Ed Bowler

Fences

West Pinto-Gunlock Allotment boundary fence, from Hwy 18 at the head of cottonwood Wash around to the east rim of gum Hill 2.5 miles

Hwy Fence on the east side of Hwy 18, from the head of Cottonwood Wash northwesterly to the Forest Boundary fence 3.75 miles

North Boundary fence, from the private land at the mouth of Holt Canyon around to Hwy 18 (excluding portions which separate private land from the National Forest) 2.75 miles

South boundary fence, from the Gunlock-Bull Valley allotment boundary east to the Magotsu-Gunlock allotment boundary fence 3 ¾ miles

Water

Equal share of water improvement maintenance based on percentage of livestock on Allotment

Fenton Bowler

Fences

Gunlock-Bull Valley Allotment boundary fence, from the confluence of Pilot Creek and Racer Canyon to a ridge south of Moody Ridge in Section 33, T. 38 S R 17 W, SLBM, Washington County, Utah 2 miles

Mud Mountain Fence, from the head of cottonwood Canyon south to the head of Shinbone Draw 5 miles

Highway Fence on the west side of Hwy 18, from the top of cottonwood Canon west to the Spring Creek Reseeding 2.25 miles

Water

Equal share of water improvement maintenance based on percentage of livestock on Allotment

Lem Leavitt

Fences

Spring Creek pasture fence from cattleguard on the Ox Valley road, adjacent to spring creek east around entire pasture to Humphries pvt land 4.25 miles

Water

Equal share of water improvement maintenance based on percentage of livestock on Allotment

Melvin and Laura Bowler

½ of Ed Bowler Maintenance responsibilities

You must obtain prior written approval from the District Ranger before constructing/installing structural range improvements or using or applying any pesticide/herbicide.

Any improvement, which is no longer functional or no longer needed, will be removed from the allotment by the permittee. The removal of any improvement must have prior approval by the District Ranger.

Failure to maintain your assigned range improvements may be considered as non-compliance with your Term Grazing Permit and may be subject to suspension or cancellation of your permit.

Additional instructions: None

GENERAL INSTRUCTIONS

You or the association will furnish sufficient riders or herders for proper distribution, protection and management of livestock on the allotment as required by the Allotment Management Plan (AMP) and/or Annual Operating Instructions (AOI).

You are required to submit actual use information for the allotment. Please complete the enclosed form and return it to the district office within 30 days of removal of livestock from the Forest.

Salt and other dietary supplements are a distribution tool, and as such, should not be placed within ¼ mile of riparian areas, water troughs and ponds; within 200 ft. of designated roads, trails, trail heads or camping spots which have frequent use. Avoid salting in or near tree plantations or regenerating aspen stands. Exceptions to these standards must have prior approval.

Salt will be moved from areas where feed has been used to standards.

The Dixie National Forest Travel Plan must be followed while managing livestock unless approved in advance and in writing by the District Ranger.

Livestock should be drifted instead of trailed wherever possible. Previously grazed units must have all livestock removed from them.

All livestock feed or straw brought onto the Forest must be certified weed free per Regional Forester's Order #04-00-058, dated March 26, 1996 (<http://www.fs.fed.us/r4/dixie/resources/rangemgt.shtml>).

Dead livestock shall be moved at least ¼ mile from roads, water sources, and camping spots, which have evidence of frequent use.

All garbage resulting from activities associated with this permit shall be removed from National Forest lands and disposed of properly.

Additional instructions: (none)
