

Hiawatha National Forest Travel Analysis Process – A Road Study

Providing Input

The U.S. Forest Service plans to study the risks and benefits for visitors and the environment associated with the road system on the Hiawatha National Forest. The analysis, referred to as “Subpart A,” is part of the implementation of the 2005 Travel Management Rule, 36 CFR 212. Subpart A will identify a road system that provides access for the public and forest management activities, minimizes environmental impacts, and can be maintained within budget constraints.

The public can submit information online at <http://tinyurl.com/Hiawatha-TAPcomments>, by e-mail to comments-eastern-hiawatha@fs.fed.us, subject: TAP or by mail, Hiawatha National Forest, TAP Input, 820 Rains Drive, Gladstone, MI 49837. Public input will be used to identify opportunities for potential changes to the road system. Hardcopy maps and public input forms are also available for review at each Ranger District office and the Forest Supervisor’s office. To learn more about the Hiawatha’s road study process, contact project manager, Ginger Molitor, at 906-428-5835 or nicolegmolitor@fs.fed.us. Please have your input to us by September 29, 2014.
