MOTOR VEHICLE USE MAP

(ONLY PERTAIN TO THE MADISON RANGER DISTRICT)

CHECK YOUR MOTOR VEHICLE USE MAP!

The Motor Vehicle Use Map (MVUM) is a companion map to the one you are holding. While this visitor map displays motor vehicle opportunities, it may not be current. Please refer to the current year Madison Ranger District MVUM as well. Motorized travel off designated roads and trails is prohibited. MVUM maps are available for free at Beaverhead-Deerlodge National Forests offices.

Forest visitors are allowed to park adjacent to designated motorized roads and trails where it is safe to do so and where parking does not damage natural and cultural resources, and is not prohibited by posted signs.

VEHICLE DEFINITIONS

ROAD VEHICLE - a motor vehicle which meets the requirements of appropriate State law or registration and licensing in order to travel on public highways and Forest development roads.

TRAIL VEHICLE - a motorized vehicle less than 50 inches wide, with two wheels, such as a trail bike, scooter, motorcycle or moped. Some trails are not suitable for use by two-wheeled trail vehicles.

ALL TERRAIN VEHICLE (ATV) - a type of off-highway vehicle that travels on three or more low-pressure tires; has handle-bar steering in less than or equal to 50 inches in width and has a seat designed to be straddled by the operator.

Few trails are wide enough to accommodate 3 or 4-wheeled trail vehicles. These vehicles should not be operated on narrow trails or steep slopes.

SNOWMOBILE - an over-snow vehicle that operates on a track, uses one or more skis for steering, and has handle-bar steering and a seat designed to be straddled by the operator.
