

# Interactive Mapping – Information Sheet, Updated 6/3/2014

---

## Olympic National Forest

<http://www.fs.usda.gov/olympic>

## Common questions and problems:

### I can't see any roads (or trails, or recreation sites, or trailheads) on the map!

We have the map set up so that these features don't show up until you've zoomed in far enough on the map. This makes it easier to move the map around to the area you're interested in.

### I've zoomed in on the map and I still can't see roads (or trails, or recreation sites, or trailheads)!

Have you turned on these layers? Along the right side of the map, there's a list of "Map Display Layers". Make sure the box is checked next to any of the layers you'd like to see.

### How do I zoom in on the map?

Along the left side of the map, near the top, is a scroll bar. Click the "+" button to zoom in, and click the "-" button to zoom out.

## Keywords and Definitions:

- Hunting/Fishing
- Camping
- Hiking/Backpacking
- Biking
- Water Sports
- Snow Sports
- Horseback Riding
- All-Terrain Vehicle Use
- Access Other Ownerships
