

INTEGRATED RESOURCE TIMBER CONTRACT PROSPECTUS

Stewardship Contract Name : Noble Thin STWD	Type of Contract : Scaled
National Forest : Siuslaw	Ranger District : Central Coast Ranger District
Bidding Method : Sealed Bid	
Location to Receive Offers : Siuslaw National Forest, 3200 SW Jefferson Way, Corvallis, Oregon	
Date : 08/05/2014	Time : 10:00 AM

1. INTRODUCTION. This prospectus furnishes prospective offerors with information not contained in the published advertisement and is designed to enable offerors to decide whether or not to further investigate this stewardship project. The prospectus is not a legally binding document, but is offered to provide general information about a Stewardship Contract. The prospectus does not include descriptions, estimates, and other data that are contained in the sample contract, unless otherwise stated. In the event that the prospectus contains an error or contradicts the sample contract, the contract governs. Offerors are urged to examine the contract and make their own estimates. Contract 2400-13 will be used. Inspect the contract area and the sample contract before submitting an offer. Obtain the appraisal, other information on the contract and stewardship work items and conditions of offering at Forest Service offices listed above and in the advertisement.

This is a Stewardship End Results Contract authorized by 16 U.S.C. 2104 Note.

2. OFFERING. This is a Sealed Bid Stewardship Contract . Offerors must submit sealed offers on prepared forms they can obtain from Forest Service offices listed above and in the advertisement. The forms include instructions for offering and submission of the required certifications and technical proposals. The term "offer form" in this prospectus is the Bid for Integrated Resource Contract form. Also, the term "offeror" in this prospectus is identified as "offeror" in the Bid for Integrated Resource Contract form. **THE OFFERS WILL NOT BE PUBLICLY OPENED.**

The offeror is required to submit a technical and price proposal and comply with all other provisions stated on the offer form. The proposal should be practical and be prepared simply and economically, providing a straightforward, concise description of the Contractor's ability to meet the requirements of the contract. Upon contract award, this technical proposal will become a binding part of the contract. See Section 21, General for instructions for preparation of technical proposals and evaluation factors for award.

3. LOCATION AND DESCRIPTION OF INTEGRATED RESOURCE TIMBER. Refer to the sample contract and contract area map attached to the sample contract for legal location of contract area, location of subdivisions, location of cutting units, the acreage of contract area, the cutting unit acreage and location of stewardship work activities.

THE FOLLOWING GENERAL LOCATION, ROUTES OF ACCESS, ACREAGES, AND OTHER SPECIAL LOCATION DATA DO NOT SUPERSEDE THE CONTRACT AREA MAP OR SAMPLE CONTRACT.

This contract is approximately 20 miles west of Philomath, Oregon. There is an estimated 12,339 tons (3,863 ccf or 2,032 mbf) within 15 commercial thinning subdivisions totaling 143 acres and will be sold as a ton contract and scaled 100% weight.

4. QUANTITIES AND RATES. The quality, size, cut per acre, and product suitability of the timber are estimates based on detailed cruise information on file and available for inspection at the Forest Service offices listed above and in the advertisement. **VOLUME QUANTITIES LISTED HEREIN ARE MADE AVAILABLE WITH THE UNDERSTANDING THAT VALUES SHOWN ARE FOREST SERVICE ESTIMATES AND ARE NOT GUARANTEED.** For these reasons, offerors are urged to examine the contract area and make their own estimates.

THE MINIMUM ACCEPTABLE BID RATE FOR THE MANDATORY TIMBER CUTTING UNITS IS STATED IN THE ATTACHED OFFER FORM. THESE RATES ARE EFFECTIVE AT THE TIME OF ADVERTISEMENT.

Mandatory Estimated Quantities and Rates per Unit of Measure

Species	Product	Unit of Measure	Estimated Quantities	Rates Per Unit of Measure			
				Base Rate	Advertised Rate	Additional Deposits for Slash Disposal	Road Maintenance
Mandatory Timber Cutting Units :							
Douglas-fir and Other Coniferous Species	Sawtimber	Ton	11,853.00	\$.31	\$14.73	\$0.66	\$0.64
Noble Fir and Other Coniferous Species	Grn Bio Cv	Ton	486.00	\$.01	\$0.01	\$0.66	\$0.64
	TOTAL	Ton	12,339.00			\$8,143.74	\$7,896.96

Optional Estimated Quantities and Rates per Unit of Measure

Species	Product	Unit of Measure	Estimated Quantities	Rates Per Unit of Measure			
				Base Rate	Advertised Rate	Additional Deposits for Slash Disposal	Road Maintenance
Not Applicable							

Timber Subject to Agreement

Species	Product	Unit of Measure	Fixed Rates	Slash Disposal Deposits	Road Maintenance Deposits
Douglas-fir and Other Species	Grn Bio Cv	Ton	\$0.36	\$0.00	\$0.64

Estimated Knutson-Vandenberg deposit for contract area improvement work in a total amount of \$37,385.00 is included in total value.

All of the mandatory stewardship work items, as shown in A.4.3 or AT.4.4 of the sample contract, shall be performed. Optional stewardship work items, as shown in A.4.3 or AT.4.4 of the sample contract, shall be performed when authorized in writing by Contracting Officer. Such authorization may be for all or a portion of the quantity shown. Optional stewardship work items may be selected and authorized in any order. Upon written request of Contractor, additional stewardship work items shall be considered and authorized; however, Contracting Officer shall not be obligated to authorize additional stewardship work items if three or more authorized optional stewardship work items or any of the mandatory stewardship work items remain uncompleted. Contracting Officer shall not be obligated to authorize additional stewardship work items at any time if Contracting Officer determines that there is insufficient value of remaining designated timber to cover the value of additional stewardship work items.

Stewardship Schedule of Work Items

Item Number (a)	Work Activity Description (b)	Unit of Measure (c)	Estimated Quantity (d)
Mandatory Stewardship Work Items			
001	Small Tree Topping	Each	204.00
002	Down Wood Creation	Each	85.00
003	Meadow Restoration	Acres	29.00
004	Campground Biomass Treatment	Acres	11.00

5. PERIOD OF CONTRACT. The normal operating season covers the period between 07/08 and 10/15.

Contract termination date is 03/31/2017. Extensions of this contract may be granted only when the contractor has met specified conditions.

Upon acceptance by the Forest Service, the technical proposal is a binding part of the contract and shall include, but is not limited to, plan periods for and methods of work activities. The Contractor must also submit an annual schedule of operations before commencing operations. This schedule will include the anticipated major activities and needs for harvest. This annual schedule of operations does not require concurrence of the Forest Service.

6. PAYMENT. Payment for timber and any required deposits for slash disposal or road maintenance are required in advance of cutting. Contractor may earn stewardship credits or provide an acceptable payment guarantee prior to cutting. "Stewardship Credits" are credits that are earned and established when work described in K(T)-G(T).9# of the sample contract has been performed and accepted. Stewardship Credits shall be earned at the offer rate as shown in the awarded contract. Earned Stewardship Credits may be used to pay for Included Timber value in excess of Base Rates and Required Deposits. Base Rates and Required Deposits must be paid in cash.

7. PERFORMANCE BOND. A performance bond is required. The penal sum of the bond will be 10 percent of the total offer value for included timber, rounded up to the nearest \$100 when the total offer value is \$10,000 or less; and rounded up to the nearest \$1000 when the total offer value exceeds \$10,000; or \$17500, whichever is greater.

8. SPECIFIED ROADS. Not Applicable.

9. ROAD MAINTENANCE. Contractor shall perform or pay for road maintenance work, commensurate with Contractor's use, on roads controlled by Forest Service, and used by Contractor in connection with this contract. Road maintenance requirements are based on the predicted haul route. Any change in the Contractor's actual haul route may necessitate a change in the roads to be maintained and/or in the amount of required deposit for road maintenance. Required deposits for road maintenance are listed in provision K(T)-F(T).3.2# in the sample contract. Maintenance specifications are in the sample contract.

10. INAPPLICABLE STANDARD PROVISIONS. See sample contract.

11. SPECIAL PROVISIONS. See sample contract.

12. SET-ASIDE CONTRACTS. Not Applicable.

13. LOG EXPORT AND SUBSTITUTION RESTRICTIONS. The contract requires domestic processing of included timber except for species declared to be surplus, and prohibits the use of such included timber in substitution for unprocessed private timber exported. The offeror, by signing the offer for advertised timber, certifies compliance with the applicable prohibitions against export and substitution prescribed in the Forest Resources Conservation and Shortage Relief Act of 1990, as amended (16 U.S.C. 620, et seq.) with each offer.

14. EQUAL EMPLOYMENT OPPORTUNITY COMPLIANCE REVIEW. If the total contract value for this contract exceeds \$10 million, before award, the Forest Service shall request an equal employment opportunity compliance review of the Contractor to determine compliance with the provisions of Executive Order 11246 of September 24, 1965, as amended by Executive Order 11375 of October 13, 1967 and Executive Order No. 12086 of October 5, 1978.

15. AWARD. The Contracting Officer is required to make a determination of Contractor responsibility as stated in Title 36, Section 223.101, of the Code of Federal Regulations. To determine a Contractor to be responsible, a Contracting Officer must find that:

- a. The Contractor has adequate financial resources to perform the contract or the ability to obtain them;
- b. The Contractor is able to perform the contract within the contract term taking into consideration all existing contracts and Governmental business commitments;

- c. The Contractor has a satisfactory performance record on similar type contracts. A prospective Contractor that is or recently has been seriously deficient in contract performance shall be presumed not to be responsible, unless the Contracting Officer determines that the circumstances were beyond the Contractor's control and were not created through improper actions by the Contractor or affiliate, or that the Contractor has taken appropriate corrective action. Past failure to apply sufficient tenacity and perseverance to perform acceptably under a contract is strong evidence that a Contractor is not responsible. The Contracting Officer shall consider the number of contracts involved and extent of deficiency of each in making this evaluation;
- d. The Contractor has a satisfactory record of integrity and business ethics;
- e. The Contractor has or is able to obtain equipment and supplies suitable for completing the requirements of the contract;
- f. The Contractor is otherwise qualified and eligible to receive an award under applicable laws and regulations.

Offerors, by signing the offer form, certify that, to the best of offeror's knowledge, the offeror will meet the requirements in 36 CFR 223.101, determination of Contractor responsibility, and if awarded this contract, that offeror will complete the contract and any modifications thereof in accordance with its terms including requirements to purchase, cut, and remove included timber or forest products and complete stewardship projects by the termination date.

16. FALSE STATEMENTS ACT. Offerors, by signing the offer form, certify that they are aware that offeror is subject to the penalties prescribed in 18 U.S.C. 1001, Chapter 47, Fraud and False Statements (P.L. 104-45). The Act states "whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined under this title or imprisoned not more than 5 years, or both."

17. DAMAGES. This contract shall be terminated for breach if: 1) Contractor fails to execute this stewardship contract or furnish a satisfactory performance bond by the date required in the award letter, if required; or 2) offeror is found to have violated the False Statements Act in making any statement or certification on the offer form including not meeting responsibility requirements, and offeror has made a false statement.

18. SUSPENSION AND DEBARMENT CERTIFICATION. Non-procurement debarments and suspensions are governed by the Government-wide common rules (7 CFR 3017). These rules require each contractor, to submit a certification for itself, its principals, and its affiliates when submitting an offer on stewardship contracts. The offeror must designate its status regarding debarment, suspension, and other matters as specified on the offer form. The offeror, by signing the offer, certifies this status. An explanation for not submitting a certification may be submitted. The Contracting Officer will determine whether the explanation provides sufficient reason for permitting participation in the competition. Also, as a Contractor enters into transactions with subcontractors, these subcontractors must certify their eligibility. The certification titled "Subcontractor Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion" must be provided to subcontractors, but completed certifications are not required to be submitted with the offer. Contractor must keep these subcontractor certification forms on file for review by the Forest Service, if requested. The certification forms and instructions for subcontractors transactions are provided as an addendum to the offer form.

19. OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA) REGULATIONS. Conduct of operations on this contract is subject to compliance with all OSHA requirements related to the various work activities. Inspection by OSHA may include inspection for compliance with the logging operations regulations at 29 CFR 1910.266. This standard is applicable to the entire logging industry wherever logging operations occur. Information is available to assist Contractors to ensure compliance with the logging operations regulations during conduct of this contract from the U.S. Department of Labor, Occupational Safety and Health Administration, OSHA, Federal Office Building 1220 Southwest 3rd Avenue, Room 640, Portland, Oregon 97204, (503) 326-2251.

20. GENERAL. Corporations submitting an offer under this solicitation must include form AD-3030-FS, Representations Regarding Felony Conviction and Tax Delinquent Status For Corporate Applicants. Copies of this form may be obtained from the Forest Service office shown on page 1 of this prospectus or electronically at: <http://www.ocio.usda.gov/policy-directives-records-forms/forms-management/approved-computer-generated-forms>.

(**) DOUBLE ASTERICKS DENOTE RECENTLY INCLUDED INFORMATION FOR CONTRACTS AND PROSPECTUS

Green Bio Cv is required removal (as described in A.2) in subdivisions 1-5, 7, 11 and 18. The cutting, removal and scaling of this material is

incorporated in stewardship projects #3 and #4 and was not included in the government appraisal.

There are several improvements that will require protection in the contract area including sidewalks, utilities, restrooms, pavement, trails, and picnic tables (see Contract Area Map). Units 1-5, 7 and 18 have underground cables and utility boxes within the right of way. Subdivision 2 has underground cables, utility boxes and a communication site. Contractor will need to request cable locates and coordinate with Consumer Power and the FAA to protect improvements.

Within Marys Peak Special Interest Area, all operations will be restricted to after Labor Day and stumps need to be flush cut (maximum height 3 inches), at an angle away from roadways, trails and recreation sites, and darkened with soil. Marys Peak Road (3010) may be closed at gate north of Conner's Camp (subdivision 8) during operations within Marys Peak Special Interest Area, coordinate with Forest Service for closure signs at gate and at junction with highway 34.

Roads 2005-111, 2005-118, 3010-115 and the last mile of 3010 are closed to motorized access. All gates are to remain closed and locked at all times, contact Forest Service for gate access.

All subdivisions are Individual Tree Designation, K-C.3.5.7# (Option 1). Subdivision 6 consists of two log decks measuring 21x50x5 and 20x15x5 feet. Subdivisions 1-5, 7 and 11 are leave tree marked, subdivision 18 is cut tree marked and subdivisions 8, 9, 13, 14, 16 and 17 are designation by description (diameter limit). Subdivision 9 includes two half acre gaps. Gap centers are identified by a leave tree with an orange tracer paint band at DBH and a mark on the stump.

Approximately 43% skyline yarding and 57% ground-based yarding was used in calculating the stump-to-truck cost in the appraisal. The contractor is to include logging systems and yarding methods that will meet the end results as part of their Technical Proposal. Directional felling is required. Full suspension is required when yarding through streamcourses and buffers.

Contractor shall scatter or pile and cover landing slash where present. Contractor shall treat logging slash within 25 feet of roads 3000, 3010, 3010-114, 3010-111, and 2005-111 in units 3, 5, 7, 8, 11 and 16A. Forest Service will burn piles, K-G.7.4.2# (Option2).

Approximately 1.34 miles of temporary roads and 38 landings are planned. Rock will be needed for temporary roads and at the approach to all season system roads. 140 cubic yards of rock was appraised for temporary roads and 100 cubic yards of rock was appraised for landings.

Contractor will be responsible for prehaul, routine, seasonal, and post haul maintenance on system roads except for portions of roads 3000 and 3010 where a deposit will be collected for road maintenance. 400 cubic yards of spot rock will be needed on system roads. Specific requirements to prevent the spread of invasive species are included in the road maintenance specifications.

Contractor is required to clean all off-road equipment, as defined by G.3.5, to be free of noxious weeds of concern prior to bringing the equipment onto the contract area and when moving equipment off FS rd 2005111. Specific road maintenance requirements will also be used to prevent the spread of noxious weeds. See sample contract for specific requirements.

Contractor will be required to seed landings, skid trails and temporary roads. An erosion control deposit of \$0.02/Ton will be required for the collection and propagation of seed for use on future contracts. Seed will be provided by the Forest Service for use on this contract.

****Parties submitting a technical proposal are required to use the Region 6 Technical Proposal Template for the Integrated Resource Timber Contract in responding to included evaluation criteria.**

PRE-OFFER MEETING: A pre-offer conference will be held for prospective offerors at 10:00 local time on Wednesday, July 9, 2014 at the upper parking lot on Mary's Peak (Rd 3010). The purpose of the meeting is to go through the Integrated Resource Timber Contract, explain the Best Value award process and requirements for both the price and technical proposals, and explain/review the requirements of the stewardship restoration projects.

****In addition to the number of paper copies of the Technical Proposal to be submitted, Contractors are also to send an electronic copy of their Technical Proposal to the Contracting Officer by the due date and time for proposals. The email address is bbarton@fs.fed.us.**

SUBMISSION OF OFFERS: Offers must be submitted to the Contracting Officer, designated by the solicitation as the receiving officer, at or prior to the time for receipt of offers. Such offers, and required copies, must be enclosed in a sealed envelope addressed to the designated receiving officer. The envelope should show on the outside (a) that it is a "Best Value Offer," and (b) the contract name or number, and the date and time of bid closing, as shown by the offer form. Offers received after the time specified on the offer form are late offers.

****NOTICE TO ALL PARTIES - Special Provision K-G.8.5.1 - WEIGHT OF LOST LOADS (06/13)** is a new provision and is part of this contract. Any load for which no weight ticket is furnished shall be considered a lost sample load with a weight equal to the weight of the heaviest load presented during the billing period. Prospective bidders are encouraged to read the provision prior to submitting price and technical proposals.

Stumps marks are required per Special Provision K-G.4.1.7.

Contractor shall request an alternate scaling site per G.8.1.1.

There are operating restrictions for murrelets, owls, and fish. See sample contract for specific restrictions.

****Haul restrictions typically listed in K-G.3.1.5# - Project Operations Schedule, have been relocated to K-F.1.2# - Use of Roads by Contractor.**

Contractor will be charged fifteen dollars (\$15) per load for Forest Service processing of scaling tickets unless the Contractor elects a Third Party to perform this service.

This contract is 99% National Forest and 1% O and C lands.

**** The decision authorizing this contract is the subject of on-going environmental litigation: Conservation Northwest v. Sherman, C08-1067-JCC. The Forest Service may delay award, withhold award, or withdraw its solicitation based on decisions in this case. After contract award, the Contracting Officer may suspend operations (without a court imposed injunction), modify, or terminate the contract based upon the outcome of the lawsuit. At any time prior to award and expiration of the firm offer (along with associated extensions), the successful offeror may request in writing to have the contract awarded upon first entering into a pre-award waiver, release, and limitation of liability agreement. Upon receipt of such bidder's request, the Forest Service will determine whether or not to execute the pre-award agreement. An example of the pre-award waiver, release, and limitation of liability agreement may be obtained from this office.**

NOTICE TO ALL INTERESTED PARTIES: THE FOLLOWING ITEMS IN THE GENERAL SECTION OF THE PROSPECTUS ARE TO BE DISREGARDED BY PROSPECTIVE BIDDERS; INSTRUCTIONS FOR THE PREPARATION OF TECHNICAL AND PRICE PROPOSALS; EVALUATION, NEGOTIATION AND AWARD PROCESS; AND EVALUATION CRITERIA. PLEASE REFER TO THE "REGION 6 TECHNICAL PROPOSAL TEMPLATE FOR INFORMATION RELATED TO RESPONDING TO THE EVALUATION CRITERIA.

The successful offeror shall register in the Central Contractor Registration (CCR) at www.ccr.gov.

INSTRUCTIONS FOR THE PREPARATION OF TECHNICAL AND PRICE PROPOSALS

(a) General Instructions. Proposals submitted shall be furnished in the following format with the numbers of copies as specified below.

(1) - The proposal must include a technical proposal and price proposal. Each of the parts shall be separate and complete so that evaluation of one may be accomplished independently from evaluation of the other. The technical proposal must not contain reference to cost.

(2) - Offerors may, at their discretion, submit alternate proposals or proposals which deviate from the requirement; provided, that an offeror also submit a proposal for performance of the work as specified in the statement of work. Any "alternate" proposal may be considered if overall performance would be improved or not compromised, and if it is in the best interest of the Government. Alternate proposals, or deviations from any requirement of this Request for Proposal (RFP), must be clearly identified.

OR

(2) Offerors must submit a proposal that meets all requirements specified in the sample contract. No alternate proposals will be accepted.

(3) - The Government will evaluate proposals in accordance with the evaluation criteria set forth below.

(4) - Offerors shall submit their proposal(s) in the following format and the quantities specified:

(i.) One copy of the completed, signed offer form FS-2400-14BV or FS-2400-14BVU provided by the Forest Service for this contract.

- (ii.) Three copies of the technical proposal.
- (iii.) One copy of the business/cost proposal.

(b) **Technical Proposal Instructions.** Technical proposals will be evaluated to determine the ability of the Contractor to meet the requirements of the Government. As a minimum, the proposal must clearly provide the following: See the attached Technical Proposal Form for the Evaluation Factors and Subfactors.

EVALUATION, NEGOTIATION AND AWARD PROCESS

Proposals will be evaluated and rated to determine which offerors are within a competitive range, price and other factors considered. Award may be made without further negotiations. Proposals should be submitted initially on the most favorable terms that the offeror can submit to the Government, from both price and technical standpoints. However the Government may, after evaluation of proposals, conduct further oral or written discussions as appropriate, with all offerors whose proposals are within a competitive range. Proposals that do not address one or more criteria or subfactors, may not be considered further for award.

Firms lacking a past performance record (e.g., new firms or those with no relevant experience within their organization) will be treated as an unknown performance risk, receiving a neutral score in this criteria. A neutral score will be established as the average of all other competing offerors, or the average of the total score available, whichever is less.

EVALUATION CRITERIA

The evaluation factors for this contract and their relative importance are listed below in descending order of priority. All subfactors within a factor are equal in weight.

Factor	Approximate Weight
A. Price	0%
B. Technical Approach	0%
1. Plan of Operations	
2. Quality Control	
3. Contract Manager and On-the-Ground Supervisor(s)	
4. Equipment	
5. Production Capability	
C. Capability and Past Performance	0%
1. Key Personnel	
2. Subcontractors	
3. Past Contacts	
D. Utilization of Local Workforce	0%
E. Other	100%

Percentages are no longer assigned to the evaluation criteria. Please refer to the "Region 6 Technical Proposal Template for the Integrated Resource Timber Contract" to identify the evaluation criteria as either approximately equal in importance, or listed in descending order of importance.

Award Statement. One award will be made to the offeror (a) whose proposal is technically acceptable and (b) whose technical/price relationship is the most advantageous to the Government. All technical evaluation factors (B-D), when combined, are of greater importance than price (A). The critical factor in making any technical/price trade-off is not the spread between the technical ratings, but rather the significance of that difference. The significance of the spread in ratings will be determined on the basis of what that difference might mean in terms of performance and what it would cost the Government to take advantage of it. Award may not necessarily be made for technical capabilities that would appear to exceed those needed for fulfilling the requirements of this contract. The Government reserves the right to make cost/technical trade-offs that are in the best interest and to the advantage of the Government.

Price proposals will not be scored.

POSTAWARD DEBRIEFING OF OFFERORS

- (a) (1) An offeror, upon its written request received by the agency within 3 days after the date on which that offeror has received notification of contract award in shall be debriefed and furnished the basis for the selection decision and contract award.
- (2) To the maximum extent practicable, the debriefing should occur within 5 days after receipt of the written request.
- (3) An offeror that was notified of exclusion from the competition, but failed to submit a timely request, is not entitled to a debriefing.
- (4) (i) Untimely debriefing requests may be accommodated.
- (ii) Government accommodation of a request for delayed debriefing, or any untimely debriefing request, does not automatically extend the deadlines for filing protests. Debriefings delayed could affect the timeliness of any protest filed subsequent to the debriefing.
- (b) Debriefings of successful and unsuccessful offerors may be done orally, in writing, or by any other method acceptable to the Contracting Officer.
- (c) The Contracting Officer should normally chair any debriefing session held. Individuals who conducted the evaluations shall provide support.
- (d) At a minimum, the debriefing information shall include-
- (1) The Government's evaluation of the significant weaknesses or deficiencies in the offeror's proposal, if applicable;
- (2) The overall evaluated cost or price (including unit prices) and technical rating, if applicable, of the successful offeror and the debriefed offeror, and past performance information on the debriefed offeror;
- (3) The overall ranking of all offerors, when any ranking was developed by the agency during the source selection;
- (4) A summary of the rationale for award;
- (5) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror; and
- (6) Reasonable responses to relevant questions about whether source selection procedures contained in the solicitation, applicable regulations, and other applicable authorities were followed.
- (e) The debriefing shall not include point-by-point comparisons of the debriefed offeror's proposal with those of other offerors. Moreover, the debriefing shall not reveal any information prohibited from disclosure by Federal Acquisitions Regulations 24.202 or exempt from release under the Freedom of Information Act (5 U.S.C. 552) including-
- (1) Trade secrets;
- (2) Privileged or confidential manufacturing processes and techniques;
- (3) Commercial and financial information that is privileged or confidential, including cost breakdowns, profit, indirect cost rates, and similar information; and
- (4) The names of individuals providing reference information about an offeror's past performance.
- (f) An official summary of the debriefing shall be included in the contract file.

SUBDIVISION AND LOGGING SYSTEMS SUMMARY

Subdivision	Acres	Tons	Logging Systems	Remarks
1/1A	5	858	Skyline/Ground-based	Temporary road used in design.
2	5	1155	Skyline/Ground-based	Temporary road used in design. Adjacent to Federal Aviation Administration facility. Underground power lines and utility boxes inside unit.
3	1	302	Ground-based	Protect pavement.
4	1	207	Ground-based	Protect pavement.
5	2	293	Skyline	Protect pavement, sidewalks and improvements.
6	1	65	N/A	This unit consists of two log decks in the parking lot adjacent to the campground.
7	11	697	Ground-based	Campground. Protect pavement and improvements.
8	14	850	Skyline/Ground-based	Temporary road used in design. Protect pavement and improvements.
9	13	789	Skyline/Ground-based	Temporary road used in design. Intermediate supports may be needed to achieve one-end suspension. Adverse haul may be needed.
11	12	1468	Ground-based	Temporary road used in design.
13	8	486	Ground-based	Temporary road used in design.
14	56	3399	Skyline/Ground-based	Skid trails must be located away from the junction of 2005 and 2005-111 to preclude vehicles from travelling off road or around the gate on 2005-111.
16/16A	6	303	Skyline/Ground-based	East Ridge Trail runs through unit, protect improvement.
17	5	364	Skyline	
18	3	618	Ground-based	Unit is comprised of several scattered tree islands. Long yarding distances. Skidding to occur along tree edge to existing roads. Logs must be fully suspended or carried on vehicle to protect meadow.

The above listed logging system(s) were used by the Forest Service in calculating the stump-to-truck cost in the appraisal. **The above listed logging systems and remarks are not required by the contract.** However, the contractor is to describe logging systems and yarding methods that will meet the end results as part of their Technical Proposal.

See A.4.3, and K-G.9# in the sample contract for more information

Project#	Mandatory or Optional (M or O)	Description	Unit of Measure	Quantity
001	M	Small Tree Topping	Each	204
002	M	Down Wood Creation	Each	85
003	M	Meadow Restoration	Acres	29
004	M	Campground Biomass Treatment	Acres	11

Electronic copy of the Contractor's Technical Proposal, all pieces and parts, to be sent to the Timber Contracting Officer at bbarton@fs.fed.us	1

Green Bio Cv is required removal (as described in A.2) in subdivisions 1-5, 7, 11, and 18. The cutting, removal and scaling of this material is incorporated into stewardship projects 003 and 004 and was not included in the appraisal.

Within Marys Peak Special Interest Area, all operations will be restricted to after Labor Day. Also, stumps need to be flush cut (maximum height 3 inches) at an angle away from roadways, trails, and recreation sites, and darkened with soil.
