Date: June 20, 2014

Dear Interested Party:

The Forest Service Pacific Southwest Regional Office (1323 Club Drive, Vallejo, California 94592) is developing design plans for the installation of a solar photovoltaic system and for improvements to the employee parking lot at the Regional Office (the “Solar PV and Parking Lot Project”). I have made a preliminary assessment that the project falls within the list of actions in the Forest Service NEPA Handbook (FSH) that are excluded from documentation in an Environmental Assessment (EA) or Environmental Impact Statement (EIS) (See FSH 1909.15 section 30 and 36 CFR 220.6(d)(3)).

Enclosed is a description of the proposed project and a conceptual rendering of what the parking area would look like after the project is completed under the current proposal. Additional information will be posted on the project website as it becomes available, <http://www.fs.usda.gov/goto/r5/PVParkingProject>.

If you have information that you believe the Forest Service is unaware of, or you have concerns regarding the potential effects of the project, please email this information to comments-pacificsouthwest-regional-office@fs.fed.us, or mail to A.J. Duggan, 4th Floor – EP, 1323 Club Drive, Vallejo, California 94592. Comments may also be hand delivered to 1323 Club Drive, Vallejo, California 94592 (c/o A.J. Duggan, 4th Floor – EP). To ensure your comments are factored into the project decision, please submit your comments within 30 days of the date at the top of this letter.

Sincerely,

/s/ Ronald G. Ketter (for)
RANDY MOORE
