Fran Tonsmeire
21 Tonsmeire Ranch Road
Lemhi, ID 83465

Fran,

The following letter will document your meeting with Kyra Povrick, Sara Norman, Ingrid Drieling and Lucy Littlejohn on April 14th, 2014 and will serve as your Annual Operating Instructions (AOI) on the North Hayden C&H allotment for the 2014 grazing season. The authorized use for the North Hayden C&H allotment for cattle with the  brand will be as follows:

Permitted Use:

<u>Allotment</u>	<u>Permittee</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
North Hayden C&H	Tonsmeire Revocable Trust	83 c/c	385	6/16-9/30

Authorized Use for the 2014 Grazing Season:

<u>Allotment</u>	<u>Permittee</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
North Hayden C&H	Tonsmeire Revocable Trust	230 c/c	476 (94 of H.M. permitted for BLM)	7/1-9/1

<u>Allotment</u>	<u>Unit</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
North Hayden C&H	FS Ryegrass	230 c/c	129	7/1-7/17
	Dry Creek	230 c/c	129	7/18-8/3
	Bear Creek FS /McNutt BLM	230 c/c	219 (125 H. M. authorized)	8/4-9/1

on Forest)

Only cattle with the  brand are authorized to graze on the North Hayden C&H allotment. The Annual Operating Instructions are made part of your Term Grazing Permit as per Part 2, item 8(a) of the General Provisions and Regulations. Situations may develop during the grazing season which requires changes to these instructions. If this becomes necessary, or if you cannot comply with some part of these instructions, contact Ingrid Drieling and obtain approval before initiating changes or deviating from these instructions. Changes can be made based on resource objectives, provided the changes are first approved and documented by an authorized officer.

The dates listed in the authorized use section may vary based on management needs or range readiness and proper use standards. If a change is necessary, please notify Ingrid Drieling at (208) 768-2516 as soon as you are aware of the need for changes in the planned use schedule. Any extension of use beyond the dates that are authorized must be requested at least two weeks in advance to allow my staff time to complete utilization inspections. No extensions beyond permitted dates will be authorized.

Allowable Use

The allowable use standards for the North Hayden C&H allotment are listed below. It is your responsibility to monitor utilization levels and to move your livestock to the next unit planned or off the allotment when the standards have been met. If you need assistance determining utilization levels please contact Ingrid Drieling and she will assist you. Cattle removed from a unit after utilization levels have been reached are not allowed to return to the unit. The Forest Service is responsible for monitoring your compliance with allowable use standards.

Unit	Riparian	Uplands
Ryegrass (FS)	No Riparian	50%
Lake/Dry Creek	35%/ 6"	50%
Bear Creek	45% (4-6")	50%

Range Improvements

Range improvements listed in part three of your grazing permit must be maintained prior to livestock entering the allotment.

Part 2, Section 8(i) of your term grazing permit states:

“This permit is issued and accepted with the provision that the permittee will maintain all range improvements, whether private or government-owned, that are assigned for maintenance to standards of repair, orderliness, and safety acceptable to the Forest Service. Improvements to be maintained are specified

in Part 3 of this permit. The Government may maintain or otherwise improve said improvements when, in its opinion, such action will be to its advantage.”

The following improvements for the **North Hayden C&H Allotment** were discussed:

The spring box on FS Ryegrass unit that feeds a trough (#4294) on the BLM Ryegrass unit needs to be fenced. The area around the pipe gets trampled on a yearly basis and needs to be fenced to the boundary between FS and BLM. To complete this improvement will likely require NEPA. Ingrid Drieling will be working with Kyra Povrick to initiate this process.

General Management

The Salmon-Challis Travel Management Record of Decision was signed December 24, 2009. With the issuance of this decision, all roads and trails are designated by the motor vehicle use map (MVUM). As detailed in 36 CFR 261.13; 36 CFR 212.51a the prohibitions on motor vehicle use will not apply to motor vehicle use that is specifically authorized under a written authorization issued under Federal law or regulation. ATVs may be used off of designated routes for improvement maintenance prior to livestock entering Forest lands. This means, once livestock are on the allotment, ATV use off of designated routes should be limited to the unit cattle are currently in and the unit scheduled to be grazed next only for managing your livestock and/or maintaining improvements.

Dead livestock must be moved at least 100 yards from water, roads, and trails. Place salt at least ¼ mile from water sources and in areas lightly grazed to encourage an even distribution of utilization on the range. In situations where terrain does not allow proper placement of salt, please contact Ingrid and she will determine a suitable location with your input.

Invasive weeds are becoming a serious threat to the welfare of our rangelands. Your assistance is needed to identify new outbreaks of weed populations and to prevent the establishment of weeds on the forest. Pay particular attention to areas where stock are concentrated such as loading/unloading areas, water developments, and salting areas. We have implemented a Noxious Weed Free Hay order on our Forest. This will require any hay that is brought onto the National Forest to be certified free from noxious weeds. All livestock entering the National Forest are recommended to be fed **Certified Noxious Weed Free Forage** for at least 2 days prior to entering the Forest.

The grazing fees for 2014 are the base rate of \$1.35 per head month.

Payment of your grazing bill is due five days prior to your earliest turnout date to allow time for processing. The Forest Service is required to give permittees a minimum of 30 days to pay their grazing fees. The Forest Service is requesting that permittees schedule their AOI meeting **a minimum of 35 days prior** to their earliest on date to provide adequate time to plan for the upcoming grazing season.

If you spot a wild fire, report it immediately to the Central Idaho Interagency Dispatch Center in Salmon, ID at **(208) 756-5157**.

Actual use and range improvement maintenance forms have been included for you to complete and return at the end of the grazing season. Please return the completed forms within **30 DAYS** of leaving the allotment.

In addition, approval of requests for personal convenience and resource protection nonuse is not automatic and the authorized officer should discuss the reasons for the nonuse request with the permittee. Requests for non-use must be done in writing and the approval of a request for non-use must be in writing by the authorized officer. Full or partial permittee convenience nonuse may be approved by the authorized officer for no more than three consecutive years and not more than four years in any ten year period.

We look forward to working with you and solicit your cooperation and involvement in bringing about sound range and livestock management practices that will enhance all of the allotment resources. If you have any ideas or suggestions that will improve the management of the allotment, we would like to hear from you.

If you have any questions regarding any of the allotments for which you have permits, please call Ingrid Drieling (208)768-2516 or myself at (208) 756-5247.

Sincerely,

/S/ Jay Winfield
