

**U.S. DEPARTMENT OF AGRICULTURE
 FOREST SERVICE
 CONTRACT FOR SALE OF DECKED TIMBER**

Sale Name: Greenhorn Firewood	Contract No:
	Procurement Contract No:
	Award Date:
	Termination Date: 09/30/2014
	Legal Location: T. 10 N., R. 7 E., Section 2, W.M., unsurveyed, Lewis County, Washington

Included Timber							
Product	Species	Estimated Quantity	Unit of Measure (UOM)	Product Rate per UOM	Road Maint. Deposits per UOM	Total Products \$	Total Road Maintenance
Fuelwood	Douglas-fir and Other Coniferous Species	10.00	Cords		2.00		20.00
Total Quantity:		10.00		Total Sale Value:			20.00

General Conditions

Amount Payable for Timber. Purchaser shall pay to USDA Forest Service the total sale value for products and road maintenance when the contract is executed. Additional timber shall be paid for prior to removal.

Additional Timber. Forest Service may add to the contract timber cut to facilitate operations and undesignated trees damaged by Purchaser. Such timber shall be paid for at contract rates, plus deposits. Timber subject to agreement may be added to the contract, subject to agreement on volume.

Statutory Compliance. Purchaser agrees to conduct operations under this contract and other related business activities in compliance with Federal, State, and local statutes, standards, orders, permits, or other regulations.

Use of Roads by Purchaser. Purchaser is authorized to use existing National Forest roads when such use will not cause damage to the roads or National Forest resources and when hauling can be done safely.

Road Maintenance. If Purchaser elects to use different roads than those in Forest Service Road Maintenance Plan, Forest Service shall determine Purchaser's commensurate share of road maintenance and revise road maintenance deposits.

Product Identification. West of the 100th meridian, before transport, unless Contracting Officer determines that circumstances warrant a written waiver or adjustment, Purchaser shall hammer brand, with assigned brand, all products that are eight (8) feet or more in length and one-third (1/3) or more sound, on each end that is seven (7) inches or more in diameter. Products that require domestic processing that are eight (8) feet or more in length and one-third (1/3) or more sound must also be painted with a spot of highway-yellow paint at least three (3) square inches in size on each end that is seven (7) inches or more in diameter. All hammer brands and/or highway-yellow paint must remain on logs until they are domestically processed.

Title Passage. All right, title, and interest in and to timber shall vest in Purchaser when it has been decked and paid for. Title to any timber that has not been removed from National Forest land by Purchaser on or prior to termination date shall revert to Forest Service.

Liability for Loss. If timber is destroyed or damaged the party holding title shall bear the value loss resulting from such destruction or damage.

Contract Term Adjustment. The contract term shall be adjusted to include additional calendar days equal to the actual time lost if hauling is interrupted due to causes beyond Purchaser's control or Purchaser accepts Forest Service written request to interrupt or delay operations.

Contract Term Extension. If the associated procurement contract is extended the contract term of this contract shall be extended to include additional calendar days equal to the additional time on the procurement contract.

Termination. In event the associated procurement contract is canceled, this contract shall be terminated without liability to either party due to the termination. Purchaser shall receive a refund for any included timber not removed due to termination.

Disputes. This contract is subject to the Contract Disputes Act of 1978.

Other Conditions

Sale Area is designated on the ground with blue ribbon and blue tags labeled "Greenhorn Firewood" and orange tracer paint.

Included Material is designated with blue tracer paint, and may only be removed in firewood form unless otherwise agreed by the Forest Service for whole log removal. Included Material extending beyond the unit boundary is included for removal.

Only pickup trucks allowed for product removal unless otherwise agreed to by Forest Service. Vehicle must remain on Forest Roads 7700000.

Slash associated with Purchaser's Operations must be piled or scattered as directed by Forest Service.

Signs shall meet specifications listed in attached Traffic Control Plan and Specifications.

Traffic delays associated with operations on Forest Road 7700000 shall be limited to 10 minutes.

Specific fire precautionary measures listed in attached Fire Precautionary Measures are applicable during Purchaser's Operations from April 1 to October 31. Required tools and equipment shall be kept in serviceable condition and immediately available.

INDUSTRIAL FIRE PRECAUTIONARY MEASURES

Purchaser shall comply with State fire laws, covering fire prevention and suppression equipment, applicable to Purchaser's Operations under this contract. Purchaser shall certify compliance with the Fire Precautionary Measures and specific fire precautions included in this contract.

FIRE PRECAUTIONARY MEASURES. Purchaser shall restrict operations in accordance with the following Industrial Fire Precaution Levels. Forest Service may change the Industrial Fire Precaution Levels to other values upon revision of the National Fire Danger Rating System and may change the specific Industrial Fire Precaution Levels when such changes are necessary for the protection of the National Forest. When sent to Purchaser, the revised Industrial Fire Precaution Levels will supersede the following levels. Adherence to these Fire Precautionary Measures shall be from April 1 through October 31.

<u>LEVEL</u>	<u>INDUSTRIAL FIRE PRECAUTION</u>
I.	Closed Season - Fire precaution requirements are in effect. A Fire Watch/Fire Security is required at this and all higher levels unless otherwise waived.
II.	Partial Hootowl - The following may operate only between the hours of 8 p.m. and 1 p.m. local time: power saws, except at loading sites; cable yarding; blasting; welding or cutting of metal.
III.	Partial shutdown - The following are prohibited: cable yarding - except that gravity operated logging systems employing non-motorized carriages may be operated between the hours of 8 p.m. and 1 p.m. local time when all blocks and moving lines are 10 feet or more above the ground, excluding the line between the carriage and the choker. power saws - except at loading sites and on tractor/skidder operations between the hours of 8 p.m. and 1 p.m. local time. In addition, the following are permitted between the hours of 8 p.m. and 1 p.m. local time: tractor, skidder, feller-buncher, forwarder, or shovel logging operations where tractors, skidders or other equipment with a blade capable of constructing fireline are immediately available to quickly reach and effectively attack a fire start; mechanized loading and hauling; blasting; welding or cutting of metal; any other spark-emitting operation not specifically mentioned.
IV.	General shutdown - All operations are prohibited.

INDUSTRIAL FIRE PRECAUTIONARY MEASURES (CONTINUED)

Exhaust system in good repair with a screen-type spark arrester of 0.023" or less and qualified under USDA Forest Service standards.

Shovel: Long-handled round point with an 8" blade (size 0"), in possession of operator.

Fire Extinguisher: Pressurized chemical of not less than 8 oz. capacity by weight, in possession of operator.

The following definitions shall apply to these Industrial Fire Precaution Levels:

Cable yarding systems: A yarding system employing cables and winches in a fixed position.

Closed Season (Fire Precaution Period): That season of the year when a fire hazard exists.

Hauling: Where hauling involves transit through more than one shutdown zone/regulated use area, the precaution level at the woods site shall govern the level of haul restrictions, unless prohibited by other than the Industrial Fire Precaution Level system.

Loading sites/woods site: A place where any product or material (including but not limited to logs, firewood, slash, soil, rock, poles, posts, etc.) is placed in or upon a truck or other vehicle.

Advance written waiver of the above precautions may be issued by the Contracting Officer or Forest Service Representative.

Such waiver, or substitute precautions, shall prescribe measures to be taken by Purchaser to reduce the risk of ignition, and/or the spread of fire. The Contracting Officer or Forest Service Representative shall consider site specific weather factors, fuel conditions, and specific operations that result in less risk of fire ignition and/or spread than contemplated when precaution level was predicted. Consideration shall also be given to measures that reduce the precaution levels above. Purchaser shall assure that all conditions of such waivers or substitute precautions are met.

Purchaser shall obtain the predicted Industrial Fire Precautionary Level from the appropriate Ranger District headquarters. If predictions made after 6:00 p.m., local time, are significantly different than originally estimated, Forest Service will inform Purchaser when changes in restrictions or industrial precautions are indicated.
