About the Artist-Wilderness-Connection

The Artist-Wilderness-Connection (AWC) connects artists and wild country with opportunities for artists to reside in or near the Bob Marshall, Great Bear and Mission Mountains Wilderness Areas on the Flathead National Forest. Artists of all disciplines reside in remote cabins for 1-2 weeks. They create works of art from this inspirational program and share their experiences with a public presentation.

The Artist-Wilderness-Connection Program would like to express thanks to the **Back Country Horsemen of the Flathead** and **Glacier National Park Conservancy** for their generous support.
