Statement of Work

The Gardiner Ranger District is requesting quotes for purchase and install of 6 each Dark Brown 10' x 11' Non insulated steel door garage doors with short raised panel design and 1 section of windows. Standard lift 2" track, 3 reinforcing struts and weather stripping. The vendor shall install the new garage doors to existing operators and shall remove and haul off old doors for disposal.

For consistency purposes the Forest Service would prefer to closely match as reasonably possible the existing dark brown garage door to the right of the man door in the pictures below. Approval of the vendors proposed doors shall be made prior to award by authorized Forest Service personnel.

Existing dark brown garage door.
