

Big Thorne Project SIR Appendix C
Legacy Forest Structure Standard and Guideline Addendum/Errata

Page 33: Unit 471 is included as containing legacy. Added text reads:

“Unit 471 is in the ROD as an EA harvest with legacy on 2 sides. The potential opening is about 51.5 acres with 35 acres of harvest and 16.5 acres retained for legacy.

This unit is implemented approximately as in the ROD, with a 33 acre EA opening and approximately 18.5 acres of legacy.

It is our determination that the unit as implemented meets or exceeds the objectives of the ROD.”

Page 33: Under “Units partially or fully implemented for Big Thorne Stewardship IRTC and included in this review as requiring legacy”: “469, 470” should be deleted from this list since they are no longer in the IRTC.

Under “Units partially or fully implemented for Big Thorne Stewardship IRTC but not included in this review because they are not in legacy VCUs: “440 and 444” should be deleted from this list since they are no longer in the IRTC.

Page 34: Under “Units partially or fully implemented for Big Thorne Stewardship IRTC but not included in this review because they did not require legacy”: “438 and 471” should be deleted from this list since they are no longer in the IRTC.

Page 34: Under “Units not implemented for Big Thorne Stewardship IRTC:”

Units 438, 440, 444, 469, 470 and 471 should be added since they are no longer in the 2014 IRTC.
