- Hardwood Shelterwood
- Oak Woodland Thinning

Forest Treatments

- Hdwd Pre-commercial Thinning
- Hdwd Timber Stand Improvement

Roadwork

- Reconstruction
- Maintenance
- Temporary
- Temp-Decommission
- Decommission
- Existing inside project
- Existing outside project

Note: all National Forest land within the project area is subject to be prescribed burned. However, some compartments, such as 270, 272, & 278, can be more easily burned because little private land is involved. The remaining compartments are proposed to be burned, but may or may not be due to the amount and layout of private land.
