**Travel Hierarchy**

Travel designations are shown as and signed on the ground based on the hierarchy. Routes designated open for a specific use are also open to all use shown (with symbols) before that use. However, that route is not designated as open to any of the use symbols shown above.

For Example: A route shown set as designated ATV route if also open to Mountain Bikes, Hikers, and Horses, and ATV is open to any full-size vehicle (greater than 5 ft wide).

Routes shown on this map have also been signed on the ground. Each trail sign includes the trail name, route number, and travel use designation. If a sign is open on the ground, all other routes should be considered closed.
