Responsible Official

Helena and Lewis & Clark National Forests Forest Supervisor (Lead Agency) Bureau of Land Management Butte Field Manager

Nature of Decision To Be Made

The decisions to be made include: Whether to implement the proposed action or an alternative to the proposed action, what monitoring requirements would be appropriate to evaluate the implementation of this project, and whether a forest plan amendment would be necessary as a result of the decision for this project.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. In November 2014, a scoping notice (flyer) will be mailed to interested and affected parties directing them to the project's information which will be posted to the Helena National Forest's Web page (<http://www.fs.usda.gov/helena/>). The Web page will contain detailed project information, identification of when public meetings will be scheduled, project proposal maps, and other pertinent project information.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. The submission of timely and specific comments can affect a reviewer's ability to participate in the administrative objection process or any judicial review.

Dated: October 23, 2014.

William Avey,
Forest Supervisor.
