A cooperative project between the USDA Forest Service and:
Superior National Forest - Kadunce River

Description

Kadunce River Hunter Walking Trails were developed for the conservation of ruffed grouse and woodcock and to provide hunting opportunities for these upland birds. They also provide good habitat for birders to observe these and other species.

When hunting, be aware of others using the area and obey all state regulations.

1. Plan ahead and prepare. Remove flagging.
2. Use trails when possible.
4. Minimize use and impact of fires.
5. Respect wildlife.
7. Be considerate of other visitors. Be aware of your field of fire and where other trails are located.
