**50 years**  
1964-2014  
**YOURS:  
TO ENJOY  
TO PROTECT**

### What is Wilderness?

Wilderness areas are left wild and free from human control or restraint. Wilderness designation provides the greatest level of permanent protection for adventure, solitude, clean air and water, scenery, wildlife, and scientific understanding of how the natural world works when left alone.

Wilderness areas are found in National Parks, National Forests, National Wildlife Refuges, and on the Bureau of Land Management's National Conservation Lands.
