

## Day Use of Mt. Whitney Zone - 2014

### Frequency of Cancellations

Hiking permits for Day Use of Mt. Whitney Zone – Day Use quota is 100 people per day. The numbers on the calendar indicate the number of people (quota spaces) that were canceled or no show for that date.

It is common to have some cancellations throughout the season. When there was a reduction in group size when the permit was issued, the extra space was made available for other groups. Space that was canceled early could be reserved again at: [www.recreation.gov](http://www.recreation.gov) One day before the entry date reservations can no longer be made. Any remaining space, cancellations, and no show were made available for walk in permit requests. All Mt. Whitney permits are issued at the Eastern Sierra Interagency Visitor Center.

### Cancellations:

Group size was reduced or canceled one day before, or day of the trip entry date. Space is available for walk in requests.

### No Shows:

Visitor did not confirm to hold permit for late arrival and failed to pick up the permit before the deadline.\* Space from no shows is available for walk in permit requests at 2:00 pm one day before the entry date.

\*The deadline is one day before the entry date to allow day hikers a full day to complete their hike.

### Cancelled Early:

Group size was reduced or canceled more than one day before the entry date. Space returns to the reservation calendar at a random time within 24 hours and could be reserved online at [www.recreation.gov](http://www.recreation.gov)
