Okanogan-Wenatchee National Forest WOODCUTTING MAP
Chelan, Entiat, Wenatchee River & Cle Elum Ranger Districts

This map is being provided to aid in obtaining information pertaining to the Chelan, Entiat, Wenatchee River and Cle Elum Ranger Districts in the Okanogan-Wenatchee National Forest. It does not pertain to firewood gathering, hiking, or restricted areas.

In order to meet the requirements of both the Northwest Forest Plan and the Okanogan-Wenatchee National Forest Plan for maintaining adequate numbers of standing and down dead material for wildlife use, there are some restrictions in areas open to firewood cutting. For example, some Sustained Yield and Aesthetic Management Areas remain closed to firewood cutting. In addition, restrictions have been added to protect areas adjacent to streams and wetlands, firewood cut- ting activities will be limited to a maximum of 100 cubic feet or area. As in all areas on the map, it is the responsibility of the firewood permit holder to limit their wood gathering activities to areas outside of these special protection zones. Hiking in the Entiat Ranger District is restricted to standing dead trees 30 inches in diameter or smaller. The Cle Elum Ranger District is closed to all firewood cutting.

Your comments and suggestions for meeting these objectives are always welcome. Feel free to share them with your local Ranger District or mail them to:
Okanogan-Wenatchee National Forest
210 West Linne Ave, Wenatchee, WA 98801

Thank you for your cooperation.

Forest Supervisor
Okanogan-Wenatchee National Forest

FIREWOOD REMOVAL CONDITIONS

You are not permitted to remove dead trees or downed wood in the forest. Only firewood permits issued by the Forest Service are allowed.

FIREWOOD REMOVAL CONDITIONS

1. Only firewood permits issued by the Forest Service are allowed.
2. No cutting is permitted in any areas within a Timber Sale.
3. No cutting or removal of stumps or down logs is allowed without a firewood permit.
4. No cutting or removal of stumps or down logs is allowed without a firewood permit.
5. No cutting or downed trees is allowed without written permission from a Forest Officer.
6. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
7. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
8. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
9. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
10. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
11. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
12. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
13. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
14. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
15. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
16. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
17. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
18. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
19. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
20. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
21. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
22. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
23. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
24. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
25. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
26. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
27. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
28. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
29. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
30. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
31. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
32. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
33. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
34. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
35. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
36. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
37. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
38. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
39. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
40. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
41. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
42. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
43. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
44. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
45. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
46. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
47. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
48. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
49. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.
50. No cutting or removal of stumps or down logs is allowed without written permission from a Forest Officer.

See other side for information about Industrial Fire Precaution Levels in the Okanogan-Wenatchee National Forest.
General Information About Industrial Fire
Precaution Levels (IFPL) in the Okanogan-Wenatchee National Forest

A Level 1 IFPL allows woodcutters to cut wood 6 days in a row, provided that
they are normally open to woodcutting in the Okanogan-Wenatchee National Forest. Woodcutters must
follow the IFPL for their chosen woodcutting site before heading
out to the forest.

A Level 2 IFPL requires woodcutters and industrial operators
to transition to morning hours of operation only, and must
shut down chainsaws and other equipment by 11:00 am.
Following equipment shut down, a one-hour fire watch must be
maintained.

A Level 3 IFPL requires woodcutters and industrial operators
to transition to morning hours of operation only, and must
shut down chainsaws and other equipment by 11:00 am. Following
equipment shut down, a one-hour fire watch must be
maintained.

Woodcutters and recreationalists are encouraged to stay in contact with Forest Service officials during the
season in order to obtain current information on fire danger and any
restrictions on activities that may be in effect.
