Attention: Prospective Bidders
Re: Blueberry Patch Timber Sale Advertisement, Ottawa National Forest

*******CORRECTION*******

It has come to our attention that the "Cutting Designation" for Designated Species (DxSPP), 20. General Section of the Blueberry Patch Timber Sale Prospectus is not entirely accurate. Red Pine and White Pine trees when marked with BLUE PAINT at dbh and with a stump mark in Payment Units 003, 004, and 005 are included timber.

Paragraph (page 5 of 7) in the prospectus should read:

Designation by Species and Diameter. All merchantable trees in Payment Units 003, 004, and 005 (EXCEPT for Red Pine, White Pine, and Leave Trees) which meet minimum specifications in AT2 of the Sample Contract, are designated for cutting. *Red pine and white pine trees are designated to be removed when marked with Blue Paint at dbh and at the stump in Payment Units 003, 004, and 005.* These payment units are identified by DxSPP on the Sale Area Map.

These red pine and white pine trees were included in the volume listed in the Cruise, Sample Contract, Prospectus, Bid Form, and Volume Data and Species Breakdown Table.

A modification will be done at time of award to correct CT2.352# – DESIGNATION BY SPECIES AND DIAMETER (06/2009) of the Contract.

Please call Jim Pelkola, Kenton Ranger District office at (906) 852-3500, ext. 32 if you have any questions.

Sincerely,

DARREN C. BUCKENTIN
Contracting Officer
