

# Volunteer Campground Host Position available at Seal Rock Campground

---

## **The Olympic Peninsula awaits you! Join us on the Hood Canal.**

The Hood Canal Ranger District on the Olympic National Forest is outreaching to fill one Volunteer Campground Host position. This position is for the busy Seal Rock Campground and offers a diverse experience for those who enjoy meeting new people and helping visitors experience and enjoy the National Forest.

### Seal Rock Campground

Seal Rock Campground is located approximately 1 mile north of Brinnon, WA on US Highway 101. Seal Rock Campground is right on the shoreline of the Hood Canal, famous for its shrimp, oysters, clams, and Dungeness crab. This busy campground has 40 sites which can accommodate both RV and tent camping. The host site has water and electrical hook-ups. The host site will be provided as part of the volunteer agreement.

### Host Responsibilities

The host will be expected to perform the daily cleaning and minor maintenance of campground facilities. The host will be provided with all of the necessary cleaning and maintenance equipment. Hosts are expected to keep accurate campground logs and follow the established safety protocols. Hosts are expected to be on site 5 days a week, with scheduled days off being Wednesday and Thursday.

The ideal host will have the ability to do physical work for short durations. They will be able to walk on uneven ground, bend frequently, and lift up to 15 pounds. The ideal host will engage with the public in a friendly, safe, and service-first manner. We are looking for someone who is interested in living on site at least 5 days a week and who is able to commit to the full season of work.

Seal Rock Campground opens at the end of April and will be operating until Labor Day.
