General Information

This map, in conjunction with FS-2400-1, Personal Use Firewood Permit, contains the basic conditions that a person needs to be familiar with when gathering fuelwood on these public lands. By adhering to the conditions of the permit, the public and the public land managers together will be able to make wise and prosper use of a highly sought after resource.

Individuals who are interested in gathering fuelwood from free use areas need to contact the Districts to check on the availability of free use permits and maps for any areas that may be open.

Persons seeking opportunities for gathering fuelwood for commercial resale should contact the individual District Offices for specific information.

For more detailed information on off-road vehicle resrictions, road and trail restrictions, please check with respective District Offices.

We cannot authorize you to cut or gather wood on private or state lands. Due to the scale of this map it is impossible to depict those inholdings accurately. You are responsible to ensure that you are on public lands while gathering fuelwood. If you are uncertain, stop at the nearest District Office and ask for assistance.

While gathering fuelwood on these public lands we hope that you have a safe and enjoyable visit. Please respect the rights of others and treat the land with care.
