II- 1 – Scope of Work

The Contractor shall furnish all labor, equipment, supervision, transportation, supplies and incidentals necessary to spray Carbaryl insecticide on 260 lodgepole pine and 100 whitebark pines for Mountain Pine Beetle prevention (Spring 2015); and approximately 160 Engelmann spruce for spruce beetle control (Fall 2015).

II- 2 – Location or Delivery

Engelmann Spruce shall be treated at the Elbow Boat Launch on the Jackson Ranger District (Fall spray)

Engelmann Spruce shall be treated at the Togwotee Lodge on the Blackrock Ranger District (Fall spray)

Lodgepole pine shall be treated in the Big Sandy Campground and Trailhead (Spring spray)

Whitebark Pine shall be treated at Deadline Ridge, a remote roaded location on the Kemmerer District (Spring spray)

Map of treatment locations is included as an attachment to Section IV.

II- 3 – Period of Performance

Start work date is estimated at May 25, 2015 and project must be completed by June 15, 2015 for spring treatments (depending on snowmelt), and September 28, 2015 for fall treatments. It is estimated to take the contractor seven days of work to totally complete this contract, including travel time.

II- 4 – Government-Furnished Property

Water sources are available at each developed site; whitebark pine sites may **not** have water available.

II- 5 – Biopreferred Products

The Contractor must comply with the Farm Security and Rural Investment Act of 2002 (FSRIA), 7 U.S.C. 8102; the Food, Conservation and Energy Act of 2008 (FCEA), 7 U.S.C. 8102; the Federal Acquisition Regulation; Executive Order (EO) 13514, "Federal Leadership in Environmental, Energy and Economic Performance," dated October 5, 2009; EO 13423, "Strengthening Federal Environmental, Energy, and Transportation Management," dated January 24, 2007; and Presidential Memorandum, "Driving Innovation and Creating Jobs in Rural America through Biobased and Sustainable Product Procurement," dated February, 2012 to provide biobased products.

Finding BioPreferred products is simple, using the program's online catalog. To view the catalog, go to www.biopreferred.gov.

II- 6 – Contractor-Furnished Property

The Contractor shall furnish all insecticide, supplies and equipment necessary to complete the work.

Contractor's equipment and insecticide shall meet the following minimum requirements:

1. Hose on Contractor's spray rig shall be capable of reaching 300 feet off of Forest roads.
2. Up to date insecticide product or one that has been properly stored no more than one year from date of purchase.
3. The applicator must use a hydraulic power sprayer with a minimum PSI (pounds per square inch) of 325. A PSI of 350 is preferred if available. A washer nozzle with a #8 orifice.
4. Contractor to furnish own equipment needed to draft water for use from the available sources.
5. Sticking agent for use in mixing with Carbaryl 4L.

Chemical Formulation/Rate of Application

Insecticide used will be a registered product for bark beetles and properly formulated following label directions for bark beetle applications. The insecticide that will be used for this treatment is Carbaryl with an added sticking agent. The application rate to be applied is specified on the label for bark beetle insecticide treatments. **Read the application specifications thoroughly to ensure proper formulation.**

II- 7 – SUPPLEMENTAL SPECIFICATIONS/ADDITIONAL INFORMATION

Designated trees – The trees to be sprayed will be designated with a paint mark **and/or** flagging on the trees prior to the time of operations. Paint or flagging color(s) will be disclosed at the pre-work meeting.

Mixing requirement – Following equipment cleaning and spray mixing, the applicator will be required to recirculate the material through the system for a minimum of 2 minutes to ensure that all fresh water is flushed from the hoses and incorporated into the spray mixture.

Required level of application - All bole surfaces, including the root collar, must be treated with the insecticide. The applicator cannot chose to ignore a particular face of the tree due to a heavy component of tree branches on one or more bole faces. The applicator will have to move around the bole face to ensure thorough coverage of all bole faces. Insecticide must be **applied to the point of runoff** to ensure all bark crevices, bark flaps and the root collar are thoroughly treated. All bark surfaces where beetles may enter the tree must be treated with the insecticide. Tree boles must be treated to a **spray height of 35 feet**. On smaller diameter trees, application height will be determined by spraying up to a **bole diameter of 4 inches in circumference**.

Estimated number of trees to be sprayed - See following table for the **estimated** number of trees to be sprayed in each area. Actual payment will be based on the number of trees sprayed during the project. **For clumped or multiple stemmed trees, a stem originating below 4.5 feet on high side of the stem will be considered a single tree for payment purposes.**

Inspection Procedures

- 1) A minimum of a 1-pint sample of mixed spray solution may be collected and sent to a laboratory for analysis to ensure proper mixture and quality of chemicals.  - a) To ensure spray is reaching the proper application height on larger trees or up to 4-inch diameter of smaller trees, a minimum of 1 tree per 50 treated trees should be measured for proper spray height.
 - b) A visual inspection, as well as a hands on inspection, which will entail digging around the root collar and peeling off bark to ensure that the tree has been saturated with insecticide around the tree.
- 3) If inspection determines a tree has not been sprayed according to specifications, the tree shall be re-sprayed at no extra cost to the Government.

(C) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see [32.607-2](#)).

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(v) Amounts shall be due at the earliest of the following dates:

(A) The date fixed under this contract.

(B) The date of the first written demand for payment, including any demand for payment resulting from a default termination.

(vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

To remain registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. (iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

III- 4 - FSAR 4G52.222-702 Labor Standards for Contracts Involving Migrant and Seasonal Agricultural Workers (DEC 1999)

(a) *General.* This contract is subject to the Migrant and Seasonal Agricultural Workers Protection Act (MSPA) (29 U.S.C 1801-1872) and to Department of Labor regulations implementing MSPA (see 29 CFR 500). The purpose of MSPA is to eliminate activities that are detrimental to migrant and seasonal agricultural workers, to require registration of farm labor contractors, and to assure necessary protections for the workers. In addition to traditional farm labor activities, the Act applies to predominately manual forestry work including, but not limited to, tree planting, release, precommercial thinning, and site preparation and wildland firefighting.

(b) *Definitions.*

"Migrant Agricultural Worker" and "Seasonal Agricultural Worker", as used in this clause, mean individuals employed in agricultural (including forestry) work on a seasonal or temporary basis. A worker who moves from one seasonal activity to another is employed on a seasonal basis even though the worker may continue to be employed during a major portion of the year. Migrant workers are required to be absent overnight from their permanent place of residence. Seasonal workers are not required to be absent overnight from their permanent place of residence. Members of the contractor's immediate family are not considered to be either migrant or

seasonal workers. "Immediate family" includes only (1) spouse; (2) children, stepchildren, or foster children; (3) parents, stepparents, or foster parents; and (4) brothers and sisters.

"Farm Labor Contractor", as used in this clause, means an individual who, for any money or other valuable consideration, paid or promised to be paid, performs any recruiting, soliciting, hiring, employing, furnishing, or transporting of any migrant or seasonal agricultural worker.

(c) *Registration Requirement.* Any contractor who provides or hires migrant or seasonal workers to perform agricultural or manual forestry work shall first obtain a Certificate of Registration from the Department of Labor or an authorized State agency. The contractor shall carry the Certificate at all times while engaged in contract performance, and shall display it upon request. The Migrant and Seasonal Agricultural Worker Protection Act (MSPA) (29 U.S.C. 1801-1872) and implementing regulations issued by the Department of Labor (29 CFR 500), require any employer who hires or anticipates hiring employees subject to MSPA to obtain an MSPA registration number.

If the contractor employs or anticipates hiring employees subject to MSPA, the contractor shall provide a valid U.S. Department of Labor MSPA Registration Number to the Contracting Officer within 10 days after notification of award of the contract.

The Government may demand that the contractor display MSPA registration at any time during contract performance if it appears that the contractor is employing workers subject to MSPA. On demand, the contractor shall display its MSPA registration or state why it is exempt from MSPA.

Compliance with MSPA is a material condition of the contract. If the contractor fails to provide a valid MSPA number in accordance with this clause, or falsely states that it is exempt from the MSPA, the Government may terminate the contract, in addition to other remedies or penalties prescribed by law.

III- 6 - 4G52.222-704 Personal Protective Equipment (FEB 2007)

The contractor shall train workers in the safe operation and use of equipment that the worker may use before the worker begins using such equipment.

Employees operating chain saws shall wear foot protection that is constructed with cut-resistant material which will protect the employee against contact with a running chain saw.

In any area where the worker is exposed to the potential for flying or falling objects, the contractor shall provide a hard hat, at no cost to the employee, and the contractor shall assure that the employee wears the hard hat. The hard hat must meet the minimum requirements of American National Standards Institute (ANSI) standard Z89.1-1997.

III- 7 - 4G52.222-705 Camping Provisions for Labor Intensive Contracts (FEB 2007)

The following provisions apply to all camping on National Forest lands during performance of this contract:

These provisions are in addition to those contained in, or provided for, in the clause titled "Use of Premises", in this contract.

Every structure used as shelter shall provide protection from the elements. Where heat adequate for weather conditions is not provided, other arrangements should be made to protect workers from the cold. Firewood may be cut only after obtaining a District Firewood Permit.

The campsite must not encroach beyond the boundaries designated by the Forest Service. The campsite shall be located so as to minimize impacts on streams, lakes, and other bodies of water. No camping is permitted within developed recreation sites or along primary recreation roads.

The campsite shall have a clean appearance at all times. Upon abandonment of any campsite, or termination, revocation, or cancellation of camping privileges, the contractor shall remove, within 10 calendar days, all structures and improvements except those owned by the United States, and shall restore the site, unless otherwise agreed upon in writing or in the camping permit. If the contractor fails to remove all structures or improvements within the 10 calendar days, they shall become the property of the United States, but that will not relieve the contractor of liability for the cost of their removal and restoration of the site.

Unless otherwise designated by the Contracting Officer, the use of this area is not exclusive, and may be granted to other Permittees, contractors, or recreating public. Disorderly conduct is not permitted. Damaging or removing any natural feature or other property of the Forest Service is prohibited. Servicing of equipment in the campsite is not permitted, unless the campsite is within the project area. Sanitary facilities shall be provided for storing food. Ice chests or coolers, with ice supply made from potable water and replenished as necessary, shall be provided and sufficient for the storage of perishable food items. An adequate and convenient potable water supply shall be provided in each camp for drinking and cooking purposes. Toilet facilities adequate for the capacity of the camp shall be provided and supplied with adequate toilet paper. Such facilities shall be serviced and maintained in a sanitary condition. Garbage shall be collected, stored, and disposed of in such a manner as to prevent scattering by the wind, minimize attraction of flies, and discourage access by rodents.

Basic first aid supplies shall be maintained, available, and under the charge of a person trained to administer first aid. The supplies shall include:

- Gauze pads (at least 4x4 inches)
- Two large gauze pads (at least 8x10 inches)

Waste water must be disposed of away from living and eating areas and in a fashion that minimizes pollution to lakes, streams, and other flowing water.

The contractor shall take all reasonable precautions to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during the closed season established by law or regulation without the written permission from the Forest Service.

The contractor shall comply with the following fire regulations during fire season:

During the fire season, a shovel, axe or Pulaski, 10- quart pail which is full of water for immediate use, and a fire extinguisher with an Underwriters Laboratory (UL) rating of at least 1:A 10:BC is required during the fire season.

All fire rings or outside fireplaces must be approved by the Forest Service representative. The area will be cleared down to mineral soil for a distance of 1 foot outside of the ring or fireplace, and it will not have any overhanging material. Fire rings will be dismantled and material disposed prior to leaving the site.

All generators and other internal combustion engines must be equipped with US Forest Service approved spark arrestors and/or factory designed muffler and exhaust system in good working order. They will be located in a cleared area with the same requirements as in (b).

All fuel must be stored in UL approved flammable storage containers and be located at least 50 feet from any open flame or other source of ignition.

Any violation of these conditions constitutes a breach of contract, and may result in revocation of camping approval.

The Forest Service reserves the right to terminate a camping permit at any time.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.02 per hour or \$160.80 per week or \$696.79 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 8 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of: (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications; (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications; (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A link to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be

performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C) (vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b) (2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) Have, have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) Are, are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) Have, have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

(1) The solicitation number;

(2) The time specified in the solicitation for receipt of offers;

(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(f) *Late submissions, modifications, revisions, and withdrawals of offers.*

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. (g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. VI- 4 - FAR 52.212-2 Evaluation – Commercial Items (JAN 1999)

(a) The Government may award a contract resulting from this solicitation to the responsible offeror whose quote conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate quotes:

1) Past Performance & Experience - provide a record of all contract work performed in the past 3 years. Include a contact name and telephone number, brief description of contract, and value of contract. Offerors shall use Exhibit 1 from Section IV to provide the above mentioned information. The Experience Questionnaire shall indicate availability of project equipment, including an ATV and applicator's name and license number. Quotes *will be considered* if quoter does not have ATV use available.

2) Technical Capability - Offerors shall submit a copy of the Pesticide Applicators License with quote. Offerors failing to submit a copy of Pesticide Applicators License with their quote risk being considered non-responsive.

Offerors shall identify the biopreferred products and materials that will be used during performance of the project.

3) Price - The low quote for purposes of award shall be the low aggregate amount for Items 1 - 4; therefore, providing for accomplishment of the most features of work (number of trees sprayed) within the funds determined by the Government to be available at the time quotes are opened.

The relative importance of all evaluation factors, when combined, is approximately equal in value to price, however, the importance of price may become greater as the differences between technical proposals decrease. Where technical proposals are determined to be substantially equal, price may control award.

Award may not necessarily be made for technical capabilities that would appear to exceed those needed for successful performance of the work. The Government reserves the right to make tradeoffs that are in the best interest, best value, and advantageous to the Government.

VI – 5 - Written Acceptance

Any award resulting from this solicitation will require written acceptance within 10 days of receipt by the Contractor as required by Simplified Acquisition Procedures.
