

# Forest Plan Revision

Becki Heath, Deputy Regional Forester, Region 6

# Plan Revision and Public Participation

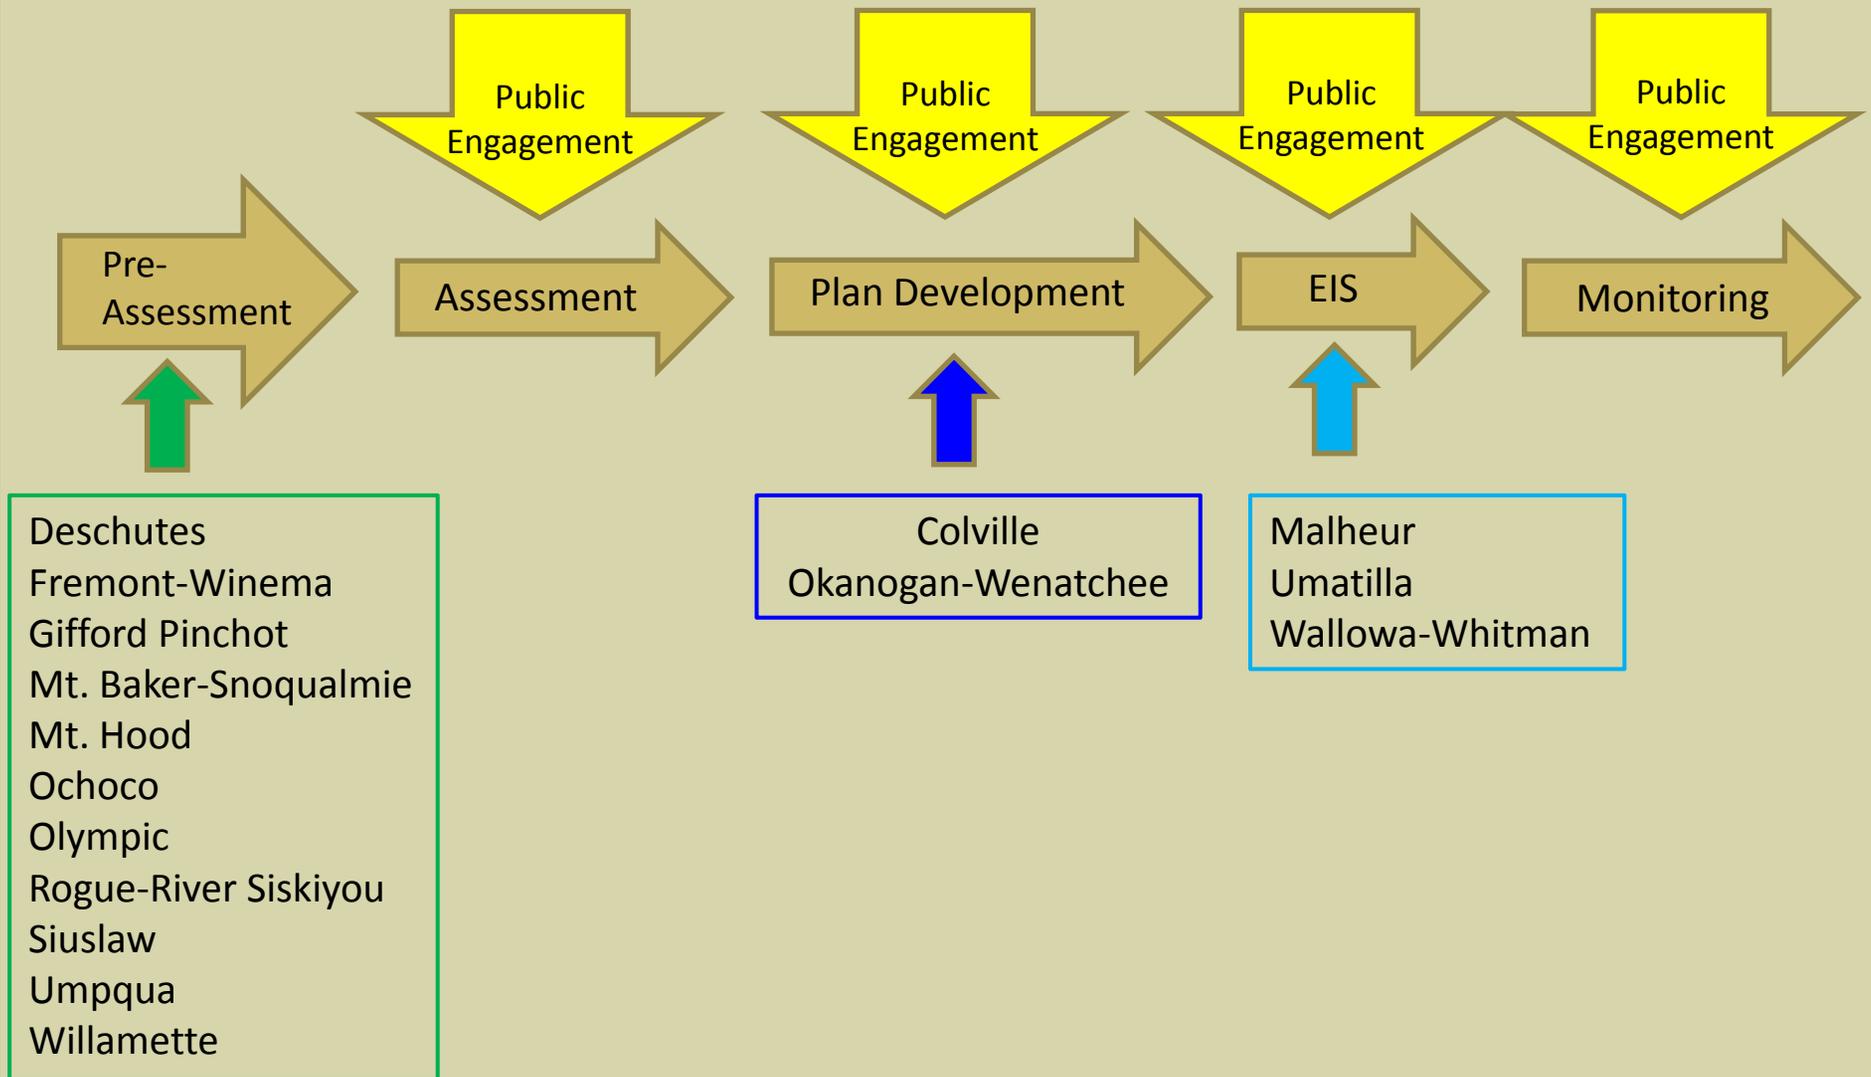

# Maintaining the Intent of the NW Forest Plan

Jim spoke to the principles of the NW Forest Plan as described in the NWFP Record of Decision. The principles convey our intent to:

- Protect and enhance habitat for mature and old-growth dependent-species.
- Restore and maintain the ecological integrity of watersheds and aquatic ecosystems.
- Produce a predictable supply of goods and services to contribute to the stability of rural communities and economies.

# Plan Revision and Public Participation

# Four Key Points

- We are committed to maintaining the principles of the NW Forest Plan.
- Conditions have changed since forest plans were published.
- The Northwest Forest Plan exists as amendments to 19 forest plans.
- We are committed to early and ongoing public engagement throughout the revision of forest plans.
