Io Stewardship (IRTC)

Date: May 14, 2015

Dear Prospective Offeror:

Updates have been made to Io Stewardship (IRTC) that may effect your proposal. Please visit our website at <http://www.fs.usda.gov/goto/centraloregon/timbersales> for completed provision changes, Solicitation, Prospectus, and Technical Proposal Template documents. A summary of changes is listed below.

An obvious error was found in A.4.3 Stewardship Credits and corresponding provision K-G.9#; specifically the quantity of stewardship project item 002 and 005 mastication. The thinning specifications for project 002 have also been updated. An obvious error was found in K-C.3.5.5# Designation by Prescription; juniper is not to be cut. The contract has now been updated to reflect these corrections. All price and Technical Proposals are due to the Forest Service no later than 11:00 AM, Tuesday June 9, 2015.

Sincerely,

AMY LOWE
Contracting Officer
