

Allotments: Oakley Valley and Big Hollow

The following letter will document your meeting with Peter Gula on March 24, 2015, and will serve as your Annual Operating Instructions (AOI) for the 2015 summer grazing season on the Oakley Valley and Big Hollow C&H Allotments. The District Ranger must approve any changes to this AOI.

The grazing system on this allotment is rest rotation. The scheduled dates of use are flexible but a one-week notice must be given before any changes are made in the below dates. The District Ranger must approve any changes in the planned use.

**Oakley Valley C&H
PERMITTED USE**

Allotment	Class	Number	Season
Oakley Valley C&H	c/c	796	5/26 - 10/20

**Oakley Valley C&H
AUTHORIZED USE**

UNITS	Class	Number	Season
*Trapper Creek	c/c	796	5/26 – 6/14
*Rodeo Creek	c/c	200	5/26 – 7/14
** Buck Corral	c/c	796	6/15 – 7/14
Bostetter Units and common use area	c/c	796	7/15 – 8/25
North Water	c/c	796	8/26 – 10/6
Four Mile	c/c	796	10/7 – 10/20

*On 5/26 all livestock will enter the Trapper Creek Unit through 6/14; No more than 200 head of these numbers will be allowed to enter the Rodeo Creek Unit.

**On 6/15 all cattle from Trapper Creek Unit will the Buck Corral Unit along with the drift from Rodeo Creek. Cattle in the upper reaches of Rodeo Creek and those cattle in the Buck Corral unit will remain through 7/14.

**Big Hollow C&H
PERMITTED USE**

Allotment	Class	Number	Season
Big Hollow C&H	c/c	100	5/26 - 10/26

**Big Hollow C&H
AUTHORIZED USE**

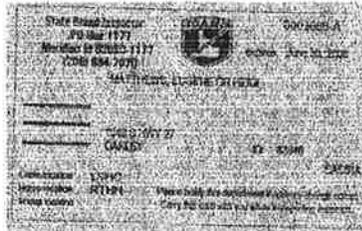

UNITS	Class	Number	Season
Unit 1	c/c	100	5/26 – 7/6
* Unit 3	c/c	100	7/7 – 9/12
*Unit 4	c/c	100	7/7 – 9/12
Unit 2	c/c	100	9/13 – 10/26

*Unit 3 and 4 will be run together for better distribution.

This is the first year and will reverse in 2016.

It is critical that you intensively manage cattle this year to encourage even distribution of use. Riparian areas will need extra monitoring and when utilization is met, livestock will need to be moved to the next pasture or off the allotment.

Permitted Livestock Brands:

COMPLIANCE:

This AOI is made part of your grazing permit consistent with Part 1, item 3 and Part 2, Item 8(a). The scheduled dates of use are flexible, but a one-week notice must be given before any changes are made in the below dates. Other situations may develop during the grazing season which requires changes to these instructions. If this becomes necessary or if you cannot comply with some part of these instructions, the District Ranger must approve any changes in the planned use.

Invasive weeds are becoming a serious threat to the welfare of our rangelands. Your assistance is needed to identify new outbreaks of weed populations and to prevent the establishment of weeds on the forest. Pay particular attention to areas where stock are concentrated such as loading/unloading areas, water developments and salting areas. We have implemented a Noxious Weed Free Hay order on the forest. This will require any hay that is brought onto the National Forest to be certified free from noxious weeds. All livestock entering the National Forest are recommended to be fed Certified Noxious Weed Free Forage for at least 2 days prior to entering the Forest.

BILLING:

The fee is now \$1.69 per head month.

Due Date:

Payment of your grazing bill is due five days prior to your earliest turnout date to allow time for processing. As a reminder, the Forest Service is required to give permittees a minimum of 30 days to pay your grazing fees. The Forest Service is requesting that permittees schedule their AOI meeting a minimum of 35 days prior to their earliest on date, to provide adequate time to plan for the upcoming grazing season.

STANDARDS AND GUIDES:

You are responsible for determining when allowable use has been reached and for moving your cattle to the next unit in your rotation or off the allotment, when allowable use has been reached. The Forest Service is responsible for monitoring your compliance with allowable use standards. If you need assistance determining use levels or locating key areas, please contact Peter. All riparian areas on the allotments are considered key areas.

RIPARIAN SITES: Maximum 45% use of grasses, rushes and sedges or a minimum 4-inch stubble height of hydric greenline species, whichever occurs first.

UPLAND SITES: Early season or season long pastures 40% use of key species. Vegetative slow growth, after seed ripe conditions, or late season pastures 50% use of key species mountain brome, bluebunch wheatgrass, Idaho fescue, squirreltail.

IMPROVEMENTS:

Range improvements listed in part three of your grazing permit must be maintained before cattle enter the allotments. The maintenance standards listed in part three of your term permit must be followed when maintaining the improvements. As you're doing water trough maintenance, please install wildlife ramps in all troughs that currently don't have them.

PERMITTEE INSTRUCTIONS:

Dead livestock must be moved at least 100 yards from water, roads and trails. Place salt at least ¼ mile from water sources and in areas lightly grazed to encourage an even distribution of utilization on the range. In situations where terrain does not allow proper placement of salt, please contact Peter he will determine a suitable location with your input.

REQUIRED REPORTING:

Actual use and range improvement maintenance forms have been included for you to complete and return at the end of the grazing season. Please return the forms following the 2015 grazing season by November 30, 2015.

MAPS, FORMS & ATTACHMENTS:

Allotment map showing pasture rotation and approximant rotation dates has been attached to your AOI. The scheduled dates of use are flexible, but a one-week notice must be given before any changes are made to the below dates. The District Ranger must approve any changes in the planned use.

As a reminder, approval of requests for permittee convenience non-use is not automatic and the authorized officer should discuss the reasons for the non-use request with the permittee. Approval of a request for permittee convenience non-use must be in writing by the authorized officer. Full or partial permittee convenience non-use may be approved by the authorized officer for no more than three consecutive years and not more than four years, in any ten year period.

If you have any questions or concerns about this grazing season, please call Peter at (208) 677-8290.
