

# Chicken Creek Cattle & Horse Allotment Mountain City Ranger District Humbolt-Toiyabe National Forest

## 2015 ANNUAL OPERATING INSTRUCTIONS

**PERMITTEE:** Dennis and Marcia Bieroth

**PERMIT #:** 60124; expires 12/31/2023

The following are your Annual Operating Instructions (AOI) for the Chicken Creek C&H grazing allotment. The permitted use stated in your Term Grazing Permit is listed below along with authorized use for the 2015 grazing season. The scheduled dates of use are flexible, but it is the permittees responsibility to notify the Forest Officer a minimum of five days prior to turnout, and a one-week notice must be given before any changes are made to the dates stated below. The District Ranger must approve any changes made in this planned use. Upon payment of fees, you are authorized to graze as follows:

### CHICKEN CREEK C&H PERMITTED USE

Allotment	Numbers/Class	Season of Use	Head Months
Chicken Creek C&H	5 horses	4/1-11/30	40
	240 c/c	4/1-11/30	1620 variable
	12c/c OFF	4/1-11/30	96 OFF

### CHICKEN CREEK C&H AUTHORIZED USE

Unit	Number/Class	Season of Use	Head Months
Rocky Gulch/McCall/Little Chicken	211 c/c 31 yearlings 10 bulls	*4/15-5/31	382
Mill	211 c/c	6/1-6/30	244
Rocky Gulch	31 yearlings	7/1-7/31	252
Little Chicken	10 bulls	8/1-9/1	260
Rocky Gulch/Little Chicken	31 yearlings	9/2-9/30	30
McCall	192 c hd	10/1-10/31	196
Rocky Gulch/Mill		11/1-11/30	189
McCall	5 horses	4/15-10/31	33

- A. \*Actual turn-on dates will depend upon range readiness.
- B. Authorized season of use dates are tentative, and actual moving dates will depend upon forage, utilization levels and available water; which may result in a continuous open grazing system as needed for remainder of 2015 grazing season.
- C. If and when a continuous open grazing system is implemented, the Forest Officer in Charge will be notified.

**DUE DATE:**

Payment of your grazing bill is due five days prior to your earliest turnout date to allow time for processing. As a reminder, the Forest Service is required to give permittees a minimum of 30 days to pay grazing fees. The Forest Service is requesting that permittees schedule their AOI meeting a minimum of 35 days prior to their earliest on date to provide adequate time to plan for the upcoming grazing season. If you are required to delay turnout or leave the allotment early, you may request and be given credit against the next year’s bill for collection for the unused head months. Requests need to be received by the end of the current years grazing season. The permittee will not be eligible for a credit if credit applications and grazing use records are received after December 31.

Livestock remaining on the National Forest System lands after the end of the authorized grazing season must be billed for at the unauthorized use rate, and may be cause for action to be taken against the grazing permit.

**LIVESTOCK MANAGEMENT:**

Grazing System: Deferred Rotation

**STANDARDS AND GUIDELINES:**

Allowable use is the degree of grazing specified for a particular area and/or plant(s). Please review the following Utilization Standards table obtained from your permit prior to turning out as the use level stated is the maximum utilization allowed for the planned season of use.

You are responsible for determining when allowable use has been reached and for moving your cattle to the next unit in your rotation or off the allotment when allowable use has been reached. The Forest Service is responsible for monitoring your compliance with allowable use standards. If you need assistance determining use levels or identifying key areas, please do not hesitate to the District Rangeland Management Specialist

**ALLOTMENT: CHICKEN CREEK C&H**

Category	Area Name	Key Species	Utilization
Class II Riparian	Mill Creek	Desirable Grasses and Sedges	45%
Class III Riparian	McCall Creek Springs and Seeps	Desirable Grasses and Sedges	55%
Class IV Riparian	Little Chicken Creek	Desirable Grasses and Sedges	55%
Class V Riparian	Rabbit Draw Rocky Gulch Dry Creek	Desirable Grasses and Sedges	55%
Upland Areas	All Units	Idaho Fescue	60%
Upland Browse	Unit 2	Bitterbrush	30%
	Units 1,3, 4	Bitterbrush	40%
Riparian Browse	All streams, springs & seeps	Willows	35%

**RANGE IMPROVEMENTS:**

Range improvements listed in your permit must be maintained to the standards identified in part three of your Term Grazing Permit prior to livestock entering the allotment(s). Improvements used in common will be maintained before either permittee is scheduled to turn-on. If the allotment is in non-use status, the permittee is still responsible for assigned improvement maintenance.

Please be aware that it is necessary to plan projects with at least one-year lead-time to allow for the

required documentation and clearances. Please work with the Rangeland Management Specialist to develop a schedule for large projects.

**PERMITTEE INSTRUCTIONS:**

**Salt and Supplement Placement:** Place salt or supplement at least 200 yards from water sources and away from trailheads, roads, and key areas. Place salt in areas lightly grazed to encourage an even distribution of utilization on the range. Salt will be removed from areas where maximum allowable use levels have been reached or at the end of the grazing season. Salt fed in loose form shall be contained in an approved receptacle that will keep it from spilling onto the ground. Unless otherwise agreed to by the Forest Officer, salt or supplement shall be removed from a pasture when the livestock are removed.

**Disposal of Dead Livestock:** Dead livestock must be moved at least 300 feet from any water source, out of view of roads or trails, and away from any areas of significant public use.

**Noxious Weeds/Invasive Species:** By USDA order 04-00-097, all non-pelletized hay, straw, or mulch possessed, stored, or transported on National Forest System Lands, in individual bales or containers, must be tagged or marked as noxious weed free, or must have the original and current evidence of noxious weed free certification documentation present. All markings must meet the State and/or county standards for certification as noxious weed free.

If livestock are being fed hay prior to coming on to the Forest, please see to it that they are fed weed free hay at least 2 days prior to entering the Forest.

Any equipment used in the transport of livestock, including horse trailers and stock trucks, should be washed before coming onto the allotment if they have been used in areas where noxious weeds are present.

Your assistance in locating noxious weed sites and reporting them to your Forest Officer is greatly appreciated. If you are able and willing to assist in treating noxious weeds, please work with your Forest Officer to determine how best to help.

**REQUIRED REPORTING:**

Enclosed is a Grazing Use Record for the upcoming season. Please use this form to record the dates livestock spend on the allotment as well as other information such as livestock loss, grazing use, resource concerns, improvement needs/maintenance costs, etc. The grazing use record should be submitted to the district office by December 31, 2015.

**COORDINATION & COOPERATION:**

If you spot a wildfire, report it immediately to the interagency dispatch center in Elko, NV at (775)748-4000.

**NONUSE:**

As a reminder, requests for nonuse of term grazing permits for personal convenience must be made annually by the permittee in writing sufficiently in advance of the start of the permitted grazing season (normally 30 days). Full or partial permittee convenience nonuse may be approved for no more than three consecutive years and not more than four years in any ten year period.

As the term permit holder, you are responsible for the maintenance on all assigned improvements on your permitted allotments during the nonuse period.

**MAPS, FORMS, & ATTACHMENTS:**

You will find attached to your AOI a Grazing Use Record form, Bill for Collection and Allotment map(s).

**NOTICE:**

The permittee will provide the Mountain City Ranger District with notification of any changes or deviation he or she wishes to make in these Annual Operating Instructions. This includes changes in animal numbers, class of livestock, period of use (changes in entry or exit dates from unit to unit), or changes in pasture rotation. No changes in these instructions will be recognized without this verification.

We look forward to working with you and solicit your cooperation and involvement in bringing about sound range and livestock management practices that will enhance all of the allotment resources. If you have any ideas or suggestions that will improve the management of the allotment, we would like to hear from you. Please keep us posted about activities and conditions on the allotment. If you have any

questions or concerns regarding management, please do not hesitate to contact the Rangeland Management Specialist at (775)778-6166.
