SECTION 2: CONTRACT CLAUSES

2.1 52.212-4 -- CONTRACT TERMS AND CONDITIONS -- COMMERCIAL ITEMS. (MAY 2015)

(a) *Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights --

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) *Assignment.* The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C.3727). However, when a third party makes payment (*e.g.*, use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) *Changes.* Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) *Disputes.* This contract is subject to 41 U.S.C. chapter 71, Contract Disputes. Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, Disputes, which is incorporated herein by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) *Definitions.* The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(f) *Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of

any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) *Invoice.*

(1) The Contractor shall submit an original invoice and three copies (or electronic invoice, if authorized) to the address designated in the contract to receive invoices. An invoice must include --

(i) Name and address of the Contractor;

(ii) Invoice date and number;

(iii) Contract number, contract line item number and, if applicable, the order number;

(iv) Description, quantity, unit of measure, unit price and extended price of the items delivered;

(v) Shipping number and date of shipment, including the bill of lading number and weight of shipment if shipped on Government bill of lading;

(vi) Terms of any discount for prompt payment offered;

(vii) Name and address of official to whom payment is to be sent;

(viii) Name, title, and phone number of person to notify in event of defective invoice; and

(ix) Taxpayer Identification Number (TIN). The Contractor shall include its TIN on the invoice only if required elsewhere in this contract.

(x) Electronic funds transfer (EFT) banking information.

(A) The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision, contract clause (*e.g.*, 52.232-33, Payment by Electronic Funds Transfer— System for Award Management, or 52.232-34, Payment by Electronic Funds Transfer—Other Than System for Award Management), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(2) Invoices will be handled in accordance with the Prompt Payment Act (31 U.S.C. 3903) and Office of Management and Budget (OMB) prompt payment regulations at 5 CFR part 1315.

(h) *Patent indemnity.* The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(i) Payment.

(1) Items accepted. Payment shall be made for items accepted by the Government that have been delivered to the delivery destinations set forth in this contract.

(2) Prompt Payment. The Government will make payment in accordance with the Prompt Payment Act (31 U.S.C. 3903) and prompt payment regulations at 5 CFR Part 1315.

(3) Electronic Funds Transfer (EFT). If the Government makes payment by EFT, see 52.212-5(b) for the appropriate EFT clause.

(4) *Discount.* In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(5) *Overpayments.* If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall—

(i) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment including the—

(A) Circumstances of the overpayment (*e.g.*, duplicate payment, erroneous payment, liquidation errors, date(s) of overpayment);

(B) Affected contract number and delivery order number, if applicable;

(C) Affected contract line item or subline item, if applicable; and

(D) Contractor point of contact.

(ii) Provide a copy of the remittance and supporting documentation to the Contracting Officer.

(6) Interest.

(i) All amounts that become payable by the Contractor to the Government under this contract shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in 41 U.S.C. 7109, which is applicable to the period in which the amount becomes due, as provided in (i)(6)(v) of this clause, and then at the rate applicable for each six-month period at fixed by the Secretary until the amount is paid.

(ii) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.

(iii) Final decisions. The Contracting Officer will issue a final decision as required by 33.211 if—

(A) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt within 30 days;

(B) The Contractor fails to liquidate a debt previously demanded by the Contracting Officer within the timeline specified in the demand for payment unless the amounts were not repaid because the Contractor has requested an installment payment agreement; or

(C) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see 32.607-2).

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(v) Amounts shall be due at the earliest of the following dates:

(A) The date fixed under this contract.

(B) The date of the first written demand for payment, including any demand for payment resulting from a default termination.

(vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

(A) The date on which the designated office receives payment from the Contractor;

(B) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or

(C) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.

(vii) The interest charge made under this clause may be reduced under the procedures prescribed in 32.608-2 of the Federal Acquisition Regulation in effect on the date of this contract.

(j) *Risk of loss.* Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon:

(1) Delivery of the supplies to a carrier, if transportation is f.o.b. origin; or

(2) Delivery of the supplies to the Government at the destination specified in the contract, if transportation is f.o.b. destination.

(k) *Taxes.* The contract price includes all applicable Federal, State, and local taxes and duties.

(l) *Termination for the Government's convenience.* The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(m) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) *Title.* Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(p) *Limitation of liability.* Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(q) *Other compliances.* The Contractor shall comply with all applicable Federal, State and local laws, executive orders, rules and regulations applicable to its performance under this contract.

(r) *Compliance with laws unique to Government contracts.* The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated funds to influence certain Federal contracts; 18 U.S.C. 431 relating to officials not to benefit; 40 U.S.C. chapter 37, Contract Work Hours and Safety Standards; 41 U.S.C. chapter 87, Kickbacks; 41 U.S.C. 4712 and 10 U.S.C. 2409 relating to whistleblower protections; 49 U.S.C. 40118, Fly American; and 41 U.S.C. chapter 21 relating to procurement integrity.

(s) *Order of precedence.* Any inconsistencies in this solicitation or contract shall be resolved by giving precedence in the following order:

(1) The schedule of supplies/services.

(2) The Assignments, Disputes, Payments, Invoice, Other Compliances, Compliance with Laws Unique to Government Contracts, and Unauthorized Obligations paragraphs of this clause.

(3) The clause at 52.212-5.

(4) Addenda to this solicitation or contract, including any license agreements for computer software.

(5) Solicitation provisions if this is a solicitation.

(6) Other paragraphs of this clause.

(7) The Standard Form 1449.

(8) Other documents, exhibits, and attachments.

(9) The specification.

(t) System for Award Management (SAM).

(1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the SAM database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the

SAM database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)

(i) If a Contractor has legally changed its business name, “doing business as” name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day’s written notification of its intention to:

(A) Change the name in the SAM database;

(B) Comply with the requirements of Subpart 42.12 of the FAR;

(C) Agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the SAM database. Information provided to the Contractor’s SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the “Suspension of payment” paragraph of the EFT clause of this contract.

(4) Offerors and Contractors may obtain information on registration and annual confirmation requirements via SAM accessed through <https://www.acquisition.gov>.

(u) Unauthorized Obligations.

(1) Except as stated in paragraph (u)(2) of this clause, when any supply or service acquired under this contract is subject to any End Use License Agreement (EULA),

Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(v) *Incorporation by reference.* The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

2.3 FSAR 4G52.222-702 - LABOR STANDARDS FOR CONTRACTS INVOLVING MIGRANT AND SEASONAL AGRICULTURAL WORKERS (DECEMBER 1999)

(a) General. This contract is subject to the Migrant and Seasonal Agricultural Workers Protection Act (MSPA) (29 U.S.C 1801-1872) and to Department of Labor regulations implementing MSPA (29 CFR 500). The purpose of MSPA is to eliminate activities that are detrimental to migrant and seasonal agricultural workers, to require registration of farm labor contractors, and to ensure necessary protections for the workers. In addition to traditional farm labor activities, the Act applies to recruiting, soliciting, hiring, employing, furnishing, or transporting any migrant or seasonal worker for predominantly manual forestry work, including but not limited to tree planting, brush cleaning, precommercial tree thinning, and forest firefighting.

(b) Definitions.

"Migrant Agricultural Worker" and "Seasonal Agricultural Worker," as used in this clause, mean individuals employed in agricultural (including forestry) work on a seasonal or temporary basis. A worker who moves from one seasonal activity to another is employed on a seasonal basis even though the worker may continue to be employed during a major portion of the year. Migrant workers are required to be absent overnight from their permanent place of residence. Seasonal workers are not required to be absent overnight from their permanent place of residence. Members of the contractor's immediate family are not considered to be either migrant or seasonal workers. "Immediate family" includes only:

1. Spouse;
2. Children, stepchildren, or foster children;
3. Parents, stepparents, or foster parents; and
4. Brothers and sisters.

"Farm Labor Contractor," as used in this clause, means an individual who, for any money or other valuable consideration, paid or promised to be paid, performs any recruiting, soliciting, hiring, employing, furnishing, or transporting of any migrant or seasonal agricultural worker.

(c) Registration Requirement. Any contractor who provides or hires migrant or seasonal workers to perform agricultural or manual forestry work shall first obtain a Federal Department of Labor Certificate of Registration. The contractor shall carry the Certificate at all times while engaged

in contract performance, and shall display it upon request. Any of the contractor's employees who perform any one or more of the activities defined for a "Farm Labor Contractor" in paragraph (b) must have their own Farm Labor Contractor Employee Certificate.

(d) Worker Protections. The contractor shall comply with the following protections and standards related to wage disclosure, record keeping, vehicle safety, and housing:

(1) The contractor shall display and maintain at the place of employment the MSPA poster provided by the Department of Labor.

(2) Wage and Payroll Standards.

(i) The contractor shall disclose in writing to each worker in a language common to the worker the full terms of their employment, including workers compensation information, at the time they are recruited or hired. The Department of Labor provides an optional Form WH-516 for contractor's use in disclosure.

(ii) The contractor shall keep the following payroll records for each employee: name, address, social security number, basis for wages (that is, per hour, per tree, per acre), number of units earned if paid on a per unit basis, hours worked, total pay, withholdings and purpose for each, and net pay. Payroll records must be retained for 3 years.

(iii) Payments must be made no less frequently than every 2 weeks or semi-monthly. At the time of each payment, the contractor shall provide to the employee a written itemization of the information listed in paragraph ii and shall include the employer's tax identification number.

(iv) If paid on a piece rate basis, the employee's wage must be at least equivalent to the required hourly wage for the hours worked, including overtime differential for time in excess of 40 hours per week.

(3) Motor Vehicle Safety.

(i) The contractor shall be registered to transport employees, unless employees provide their own transportation or carpool by their own arrangement in one of their own vehicles. The authorization to transport employees must appear on the contractor's certificate. If the contractor directs or requests employees to carpool, the registration requirement is applicable. Any driver who transports workers for a fee or at the direction of the contractor shall be registered as a farm labor contractor or a farm labor contractor employee.

(ii) Any vehicle under the ownership or control of the contractor must comply with safety standards applicable to that vehicle. Generally, passenger vehicles or station wagons must comply with Department of Labor regulations at 29 CFR 500.104.

Vehicles other than passenger vehicles or station wagons which are driven on any trip for a distance greater than 75 miles by a farm labor contractor or agricultural employer to transport any migrant or seasonal agricultural worker must comply with Department of Transportation Regulations at 29 CFR 500.105. One trip may have numerous stops. All drivers shall have a current, valid State driver's license.

(iii) Each vehicle under the ownership or control of the contractor which is used to transport any migrant or seasonal agricultural worker must be covered by vehicle insurance of \$100,000 per seat (maximum \$5,000,000). A workers compensation policy which covers the workers while being transported plus an additional property damage policy for \$50,000 for loss or damage in any one accident to the property of others may be substituted for the vehicle insurance requirement.

(4) Housing.

(i) The contractor shall house workers only in a commercial establishment or a facility that has been certified by a health authority or other appropriate agency or, if permitted by the Forest Service, in a camp on National Forest Lands as in 4G52.222-705. The contractor must post the certificate of occupancy at the housing site.

(ii) The authorization to furnish housing, other than commercial lodging, must appear on the contractor's certificate.

(e) For further information on the requirements of the Act, contractors should contact their local Wage and Hour Division of the Department of Labor.

2.4 FSAR 4G52.222-703 - MIGRANT AND SEASONAL AGRICULTURAL WORKER PROTECTION ACT REGISTRATION (DECEMBER 1999)

The Migrant and Seasonal Agricultural Worker Protection Act (MSPA) (29 U.S.C. 1801-1872) and implementing regulations issued by the Department of Labor (29 CFR 500), require any employer who hires or anticipates hiring employees subject to MSPA to obtain an MSPA registration number.

If the contractor employs or anticipates hiring employees subject to MSPA, the contractor shall provide a valid U.S. Department of Labor MSPA Registration Number to the Contracting Officer within ___ days (30 days unless a shorter time is specified) after notification of award of the contract. The MSPA Registration Number is the number on the Farm Labor Contractor's DOL-issued Certificate.

The Government may demand that the contractor display MSPA registration at any time during contract performance if it appears that the contractor is employing workers subject to MSPA. On demand, the contractor shall display its MSPA registration or state why it is exempt from MSPA.

Compliance with MSPA is a material condition of the contract. If the contractor fails to provide a valid MSPA number in accordance with this clause, or falsely states that it is exempt from the MSPA, the Government may terminate the contract, in addition to other remedies or penalties prescribed by law.

2.5 FSAR 4G52.222-704 - PERSONAL PROTECTIVE EQUIPMENT (FEBRUARY 2007)

The contractor shall train workers in the safe operation and use of equipment that the worker may use before the worker begins using such equipment.

Personal protective equipment, including personal protective equipment for eyes, face, head, and extremities must be provided, used, and maintained in a sanitary and reliable condition wherever it is necessary by reason of hazards or processes encountered which may cause injury or impairment in the function of any part of the body. Defective or damaged personal protective equipment must not be used.

The contractor shall provide chain saw chaps to each employee who operates a chain saw, at no cost to the employee. These chaps must be approved by an Underwriters Laboratory or meet Forest Service specification 6170-47. The chaps must cover the full length of the thigh and must extend to the top of the boot on each leg.

The contractor shall assure that each employee wears foot protection that provides adequate traction and ankle support. Employees operating chain saws shall wear foot protection that is constructed with cut-resistant material which will protect the employee against contact with a running chain saw.

In any area where the worker is exposed to the potential for flying or falling objects, the contractor shall provide a hard hat, at no cost to the employee, and the contractor shall assure that the employee wears the hard hat. The hard hat must meet the minimum requirements of American National Standards Institute (ANSI) standard Z89.1-1997.

The contractor shall provide, at no cost to the employee, eye protection where there is potential for eye injury due to flying objects. This eye protection must meet the minimum requirements of ANSI standard Z87.1-2003.

The contractor shall provide, at no cost to the employee, hearing protection where there is a potential for hearing loss due to high intensity noise for example, chain saw operation.

2.6 AGAR 452.211-74 PERIOD OF PERFORMANCE (FEB 1988)

The period of performance of the contract is from the date of award through February 12, 2019.

2.7 GOVERNMENT-FURNISHED PROPERTY

The Government will provide the following item(s) of Government property to the Contractor for use in the performance of this contract. This property shall be used and maintained by the Contractor in accordance with the provisions of the "Government Property" FAR clause contained elsewhere in the contract.

SECTION 3: STATEMENT OF WORK/SPECIFICATIONS

3.1 General Description of Work

Seed of five different species shall be produced from plants grown by the Contractor over three growing seasons. Beds for each species shall be established the first year foundation seed is available and shall remain in production each growing season the contract is active (2015-2018), or at least until the minimum required quantity has been delivered and accepted. Only wild-collected foundation seed may be used to grow these plants over three growing seasons, unless wild-collected seed is not available in years two and three, in which case seed the Contractor produces from the foundation seed may be used for grow out (up to 2.0 oz of each species per year the contract is active, except for *Castilleja hispida* and *Lomatium utriculatum*, for which a maximum of 0.5 oz of Contractor-grown seed may be used each year).

3.2 Species and Quantities of Seed to be Produced

Table 1 summarizes the following: the species that shall be produced; the minimum amount of each species of seed that the Contractor is required to deliver; the FS's target quantity, which also represents the maximum amount of each species of seed that the FS guarantees it will purchase from the Contractor if delivered and accepted; and the amount of foundation seed that the FS will provide.

A. Scientific Name	B. Common Name	C. Minimum amount of foundation seed provided by FS in first growing season, and latest date delivered*	D. Additional amount of foundation seed provided by FS in second growing season, and latest date delivered*	E. Total minimum amount of wild-collected foundation seed FS will provide over first two growing seasons of contract**	F. Minimum amount seed contractor is required to produce and deliver	G. Target quantity & maximum amount of seed FS is obligated to purchase if delivered and accepted
<i>Plectritis congesta</i>	Sea blush	1 oz delivered by 09/01/15	1 – 3 oz delivered by 09/01/16	2 oz	8 lbs	12 lbs
<i>Castilleja hispida</i>	Harsh paintbrush	1 oz delivered by 10/01/15	0 - 2 oz delivered by 10/01/16	1 oz	4 lbs	6 lbs
<i>Eriophyllum lanatum</i>	Oregon sunshine	1 oz delivered by 10/01/15	0 - 2 oz delivered by 10/01/16	1 oz	11 lbs	16 lbs
<i>Lomatium utriculatum</i>	Common lomatium	1 oz delivered by 10/01/15	0 – 1 oz delivered by 10/01/16	1 oz	2 lbs	3 lbs
<i>Collinsia parviflora</i>	Blue eyed Mary	1 oz delivered by 09/01/15	0 – 1 oz delivered by 09/01/16	1 oz	7 lbs	10 lbs

* Quantities are based on seed viability being 90% or higher. If viability is less than 90%, the amount of foundation seed will be increased as described in subsection 3.3 below.

** Unused foundation seed shall be returned to the FS upon completion of the contract.

Foundation seed may only be used for this contract.

While the Contractor is only required to produce the quantities listed in column “F,” it shall deliver all acceptable seed produced in excess of the required quantity up to the target quantity listed in column “G,” which is the Forest Service’s targeted level of production and the quantity of seed that the FS is obligated to purchase if it is delivered and accepted.

3.3 Foundation Seed

Wild-collected foundation seed will be provided by staff from the Olympic National Forest. The wild-collected foundation will be tested for viability (via a tetrazolium [TZ] test) prior to delivery. A smaller number of seeds than is standard for this test (200 seeds) may be used if the cost of collecting additional seed is prohibitive, but it is unlikely this will be necessary. The number of seeds tested will be noted in the TZ test report if fewer than 200 seeds are used. TZ testing of foundation seed provided to the Contractor for increase will be paid for by the Forest Service (FS). The FS predicts -- but cannot guarantee -- that the foundation seed provided by the FS will be at least 90% viable, or if viability is lower for tested seed, that the weight of the viable seed will be at least 90% of the minimum amount of seed the FS is required to provide each year, as listed in Table 1 above.

If seed viability is less than 90% and the FS is unable to provide an amount of viable seed that is at least 90%, by weight, of the minimum amount of seed the FS is required to provide each year, the Contractor may submit a written request for an equitable adjustment to the contract price, delivery schedule, or both. Alternatively, an adjustment may be made to the seed quantities with a corresponding adjustment to the contract price and/or delivery schedule. Any equitable adjustment must be made through a contract modification signed by the contracting officer.

3.4 Seed Standards, Seed Testing, and Payment Terms

A. Seed shall meet the following standards related to purity, moisture content, and viability:

Purity

Prior to delivery, seeds shall be hand-screened, stripped, or otherwise cleaned to remove excess chaff, stems, leaves, trash, dirt, and other impurities, including seeds of other non-target species. Seed is considered “clean” when at least 90% of material delivered consists of seed. Seed not meeting this standard will be rejected. Seed is not required to be tested by a laboratory for purity.

Moisture Content

Cleaned seed shall be tested by the Contractor for moisture content. Moisture content must be less than 14.0%. Seed not meeting this standard will be rejected.

Viability (TZ test)

Cleaned seed shall be tested by the Contractor for viability via a tetrazolium (TZ) test.

If viability is $\geq 90\%$ and the moisture content and purity standards are met, the FS will pay the full unit price for the quantity of seed delivered and accepted. For example, if seed viability is 91%, the amount due to the Contractor will be calculated by multiplying the contracted unit price by the quantity of seed accepted. Thus, in this scenario the

Contractor will be paid for both the viable and non-viable seed at the contracted unit price.

If viability is $\leq 89.9\%$ and the moisture content and purity standards are met, the FS will pay a percentage of the unit price equal to the percentage of viable seed. For example, if seed viability is 85%, the amount due to the Contractor will be calculated by multiplying .85 by the contracted unit price by the quantity of seed accepted. Thus, in this scenario the Contractor will only be paid for viable seed at the contracted unit price.

B. Seed Testing

As stated above, the Contractor shall have seed tested for moisture content and viability prior to delivery. The seed shall be tested by a facility that has received formal accreditation from the International Seed Testing Association (ISTA); the Oregon State University Seed Laboratory is an example of such a facility.

Seed test results shall be provided to the COR prior to delivery of the seed.

C. Payment

Payment will be made as described in paragraph "A" above for the amount of seed delivered and accepted. Acceptance will be based on whether seed conforms to contract requirements. Payment will not be made for seed not accepted. If excess funds remain on the contract after full payment has been made, those funds will be deobligated from the contract through a contract modification.

3.5 Delivery Dates

Cleaned seed of each species produced shall be delivered to the FS by no later than October 31st following each growing season, beginning in 2016. Thus, each year's harvest shall be delivered by the following dates:

First growing season: Seed harvested shall be delivered by October 31, 2016

Second growing season: Seed harvested shall be delivered by October 31, 2017

Third growing season: Seed harvested shall be delivered by October 31, 2018.

3.6 Excess Seed

If the Contractor produces seed in excess of the target quantities listed in column "G" of Table 1, the FS shall have the right of first refusal to purchase any portion of the excess seed, up to the total amount produced, at the contracted unit price. The FS has up to 90 calendar days from delivery of the target quantity to exercise its right of first refusal. If the FS exercises its right to purchase excess seed, the Contractor shall deliver the seed within 14 calendar days from placement of the order, which will be made either via a contract modification or a separate purchase order.

Any excess seed that the FS declines to purchase will become the property of the Contractor.

No additional compensation will be provided for storing excess seed or for shipping the excess seed to the FS. All such costs shall be factored into the Contractor's unit prices.

3.7 Period of Performance

The overall period of performance of the contract is from the date of award through February 12, 2019.

This period of performance includes the period of time that may be required to store and deliver excess seed. Delivery of the required and target quantities shall be made by the dates provided in subsection 3.5 below.

SECTION 5: SOLICITATION PROVISIONS, INSTRUCTIONS, CONDITIONS, NOTICES TO QUOTERS AND EVALUATION FACTORS FOR AWARD

5.1 ADDENDA TO FAR 52.212-1 - INSTRUCTIONS TO OFFERORS – COMMERCIAL ITEMS (APR 2014)

5.1.1 The following addendum replaces FAR 52.212-1 in its entirety:

ADDENDUM TO 52.212-1: INSTRUCTIONS TO QUOTERS—COMMERCIAL ITEMS

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet ([SF 1449](#)). However, the small business size standard for a concern which submits a quotation in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of quotations. Submit quotations to the office specified in this solicitation at or before the exact time specified in this solicitation. Quotations may be submitted on the [SF 1449](#), letterhead stationery, or as otherwise specified in the solicitation. As a minimum, quotations must show-

- (1) The solicitation number;
- (2) The name, address, telephone number, and DUNS number of the quoter;
- (3) Prices (to be entered on the Schedule of Items from Section 1) and any discount terms;
- (4) Acknowledgment of solicitation amendments;
- (5) Past performance information for projects similar in nature, complexity, and magnitude that are either ongoing or which have been completed within the past 5 years. Quoters should submit information sufficient to evaluate their past performance, such as project descriptions, contract numbers and dates, points of contact with telephone numbers, and other relevant information (see section 5.1.2 below for more information). Quoters may submit the information on the attached past and current contract information form or on their own form;
- (6) Information regarding the quoter's experience with projects similar in nature, complexity, and magnitude, which may include projects more than 5 years old. Quoters should submit information sufficient to evaluate their experience, such as project descriptions, contract numbers and dates, and other relevant information (see section 5.1.2 below for more information) ; and
- (7) If the quotation is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Quotations that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration

Failure to submit the above information may render a quote ineligible for award. At a minimum, failure to provide certain information, such as information regarding past performance and experience, will negatively impact the evaluation of a quote.

In addition, quoters shall submit the following no later than prior to award, although it is requested that the information be submitted with quotes:

- (1) A completed copy of the representations and certifications at FAR [52.212-3](#) (see FAR [52.212-3](#)(b) for those representations and certifications that the quoter shall complete electronically);
- (2) AGAR 452.209-70 Representation by Corporations Regarding Unpaid Delinquent Tax Liability or a Felony Conviction (Feb 2012) Alternate I (Feb 2012); and
- (3) FAR 52.222-22 -- Previous Contracts and Compliance Reports (Feb 1999) .

(c) Multiple quotations. Quoters are permitted to submit multiple quotations satisfying the requirements of this solicitation. Each quotation submitted will be evaluated separately.

(d) Late submissions.

(1) Quoters are responsible for submitting quotations so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that quotations are due.

(2) Any quotation received at the Government office designated in the solicitation after the exact time specified for receipt of quotations is late and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late quotation would not unduly delay the acquisition.

(e) Contract award. The Government intends to evaluate quotations and issue a purchase order based on the initial quotations received. Therefore, the quoter's initial quotation should contain the quoter's best terms from a price and technical standpoint. The Government reserves the right to request revised quotations from, or negotiate final purchase order terms with, one or more, but not all, quoters if later determined by the Contracting Officer to be necessary. However, the Contracting Officer will not establish a competitive range, conduct discussions, or otherwise use the procedures described at FAR 15.306. The Government may reject any or all quotations if such action is in the public interest; and issue a purchase order to other than the quoter with the lowest priced quotation.

(f) Multiple awards. The Government may issue a purchase order for any item or group of items of a quotation, unless the quoter qualifies the quotation by specific limitations. Unless otherwise provided in the Schedule, quotations may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity quoted, at the unit prices quoted, unless the quoter specifies otherwise in the quotation.

(g) Data Universal Numbering System (DUNS) Number. (Applies to all quotations exceeding \$3,000, and quotations of \$3,000 or less if the solicitation requires the Contractor to be registered in the System for Award Management (SAM) database.) The quoter shall enter, in the block with

its name and address on the cover page of its quotation, the annotation “DUNS” or “DUNS+4” followed by the DUNS or DUNS+4 number that identifies the quoter’s name and address. The DUNS+4 is the DUNS number plus a 4-character suffix that may be assigned at the discretion of the quoter to establish additional SAM records for identifying alternative Electronic Funds Transfer (EFT) accounts (see FAR [Subpart 32.11](#)) for the same concern. If the quoter does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one. A quoter within the United States may contact Dun and Bradstreet by calling 1-866-705-5711 or via the internet at <http://fedgov.dnb.com/webform>. A quoter located outside the United States must contact the local Dun and Bradstreet office for a DUNS number. The quoter should indicate that it is a quoter for a Government contract when contacting the local Dun and Bradstreet office.

(h) System for Award Management. Unless exempted by an addendum to this solicitation, by submission of a quotation, the quoter acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance and through final payment of any contract resulting from this solicitation. If the Quoter does not become registered in the SAM database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Quoter. Quoters may obtain information on registration and annual confirmation requirements via the SAM database accessed through <https://www.acquisition.gov>.

(i) Requests for information. The contracting officer will not notify unsuccessful quoters that responded to this solicitation. Quoters may request information on award(s) resulting from this solicitation from the contracting officer.

5.1.2 ADDENDUM TO 52.212-1: RELEVANT PAST PERFORMANCE AND RELEVANT EXPERIENCE

The following instructions supplement paragraph “b” of FAR 52.212-1 – Instructions to Quoters – Commercial Items (see above):

A. Past Performance

Past performance relates to how well a quoter has performed on previous projects similar in nature, complexity, and magnitude. Only ongoing projects and projects completed within the past five years will be considered. The more recent and relevant the project, the more heavily it will be weighted.

Evaluation of past performance will be based on information submitted by quoters, information obtained from references, and information obtained from other sources, which may include the Government’s knowledge of the quoter’s performance on previous projects.

The Government will inquire about the following elements of past performance, among others:

- (1) Conforming to contract requirements and to standards of good workmanship;
- (2) Forecasting and controlling costs;
- (3) Adherence to schedules, including the administrative aspects of performance;
- (4) Reasonable and cooperative behavior and commitment to customer satisfaction;
- (5) Integrity and business ethics; and

(6) Business-like concern for the interest of the customer

Quoters are strongly encouraged to provide enough detail to demonstrate the degree of relevance of the project cited, including species of seed, quantities of seed, the period of performance, and the purpose for which the seed was grown (e.g., seed increase). Quoters that have successfully grown all of the species for seed increase (rather than for some other purpose) will be rated higher than those that have not.

In addition to evaluating the quoter's performance on previous projects and the currency and relevance of those projects, the Government will take into account the quantity of projects in evaluating the reliability of past performance information. For example, a quoter that provides only one past performance reference may not be rated as highly as a quoter that provides five past performance references, all else being equal, as the latter quoter has a longer track record and thus there is less performance risk in awarding to that quoter. The significance of the difference in the number of references diminishes as the number increases. For example, the difference between one reference and two references is more significant than the difference between four references and five references.

Quoters are encouraged to submit 3-5 references. The Government is not obligated to contact all of them. If no references are submitted, the quoter will receive a neutral past performance rating, meaning that it will be evaluated neither favorably nor unfavorably. Failure to document prior experience, however, will affect a quoter's rating with respect to relevant experience, as discussed below.

B. Relevant Experience

Relevant experience, which is distinct from past performance, relates to how many projects a quoter has participated in that were similar in nature, complexity, and magnitude to this one. The more relevant projects a quoter has participated in, the higher it will be rated with respect to experience. Unlike past performance, projects completed more than five years ago will be considered.

Evaluation of experience will consider both the number of species the quoter has grown along with the purpose for which the species were grown (e.g., seed increase). Quoters that have grown all of the species for seed increase will be rated higher than quoters that those that have not.

As with past performance, quoters are strongly encouraged to provide enough detail to demonstrate the degree of relevance of the projects cited, including species of seed, quantities of seed, and the period of performance (i.e. the period within which the seed was produced).

5.1.3 AGAR 452.204-70 INQUIRIES (FEB 1988)

Inquiries and all correspondence concerning this solicitation should be submitted in writing to the Contracting Officer. Quoters should contact only the Contracting Officer issuing the solicitation about any aspect of this requirement prior to contract award.

5.3 EVALUATION – COMMERCIAL ITEMS

(a) The Government will award a contract resulting from this solicitation to the responsible quoter whose quote conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate quotes:

1. Price

Evaluation of price will be based on the target quantities of seed, not the minimum quantities that the Contractor is required to deliver.

2. Relevant Past Performance

Past performance relates to how well a quoter has performed on previous projects similar in nature, complexity, and magnitude. Only ongoing projects and projects completed within the past five years will be considered. The more recent and relevant the project, the more heavily it will be weighted.

Evaluation of past performance will be based on information submitted by quoters, information obtained from references, and information obtained from other sources, which may include the Government's knowledge of the quoter's performance on previous projects.

The Government will inquire about the following elements of past performance, among others:

- (1) Conforming to contract requirements and to standards of good workmanship;
- (2) Forecasting and controlling costs;
- (3) Adherence to schedules, including the administrative aspects of performance;
- (4) Reasonable and cooperative behavior and commitment to customer satisfaction;
- (5) Integrity and business ethics; and
- (6) Business-like concern for the interest of the customer

Quoters are strongly encouraged to provide enough detail to demonstrate the degree of relevance of the project cited, including species of seed, quantities of seed, the period of performance, and the purpose for which the seed was grown (e.g., seed increase).

Quoters that have successfully grown all of the species for seed increase (rather than for some other purpose) will be rated higher than those that have not.

In addition to evaluating the quoter's performance on previous projects and the currency and relevance of those projects, the Government will take into account the quantity of projects in evaluating the reliability of past performance information. For example, a quoter that provides only one past performance reference may not be rated as highly as a quoter that provides five past performance references, all else being equal, as the latter quoter has a longer track record and thus there is less performance risk in awarding to that quoter. The significance of the difference in the number of references diminishes as the number increases. For example, the difference between one reference and two

references is more significant than the difference between four references and five references.

Quoters are encouraged to submit 3-5 references. The Government is not obligated to contact all of them. If no references are submitted, the quoter will receive a neutral past performance rating, meaning that it will be evaluated neither favorably nor unfavorably. Failure to document prior experience, however, will affect a quoter's rating with respect to relevant experience, as discussed below.

3. Relevant Experience

Relevant experience, which is distinct from past performance, relates to how many projects a quoter has participated in that were similar in nature, complexity, and magnitude to this one. The more relevant projects a quoter has participated in, the higher it will be rated with respect to experience. Unlike past performance, projects completed more than five years ago will be considered.

Evaluation of experience will consider both the number of species the quoter has grown along with the purpose for which the species were grown (e.g., seed increase). Quoters that have grown all of the species for seed increase will be rated higher than quoters that those that have not.

As with past performance, quoters are strongly encouraged to provide enough detail to demonstrate the degree of relevance of the projects cited, including species of seed, quantities of seed, and the period of performance (i.e., the period within which the seed was produced).

Past performance and experience, when combined, are more important than price.

(1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not

be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). **** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** NOTES APPLYING TO THIS WAGE DETERMINATION ****

Under the policy and guidance contained in All Agency Memorandum No. 159, the Wage and Hour Division does not recognize, for section 4(c) purposes, prospective wage rates and fringe benefit provisions that are effective only upon such contingencies as "approval of Wage and Hour, issuance of a wage determination, incorporation of the wage determination in the contract, adjusting the contract price, etc." (The relevant CBA section) in the collective bargaining agreement between (the parties) contains contingency language that Wage and Hour does not recognize as reflecting "arm's length negotiation" under section 4(c) of the Act and 29 C.F.R. 5.11(a) of the regulations. This wage determination therefore reflects the actual CBA wage rates and fringe benefits paid under the predecessor contract.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2014, unless otherwise indicated.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE
Standard Form 1444 (SF-1444)

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished

the fringe benefits as are determined (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be retroactive to the commencement date of the contract (See 29 CFR 4.6(b)(2)(iv)(C)(vi)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, U.S. Department of Labor, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** NOTES APPLYING TO THIS WAGE DETERMINATION ****

Under the policy and guidance contained in All Agency Memorandum No. 159, the Wage and Hour Division does not recognize, for section 4(c) purposes, prospective wage rates and fringe benefit provisions that are effective only upon such contingencies as "approval of Wage and Hour, issuance of a wage determination, incorporation of the wage determination in the contract, adjusting the contract price, etc." (The relevant CBA section) in the collective bargaining agreement between (the parties) contains contingency language that Wage and Hour does not recognize as reflecting "arm's length negotiation" under section 4(c) of the Act and 29 C.F.R. 5.11(a) of the regulations. This wage determination therefore reflects the actual CBA wage rates and fringe benefits paid under the predecessor contract.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2014, unless otherwise indicated.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE
Standard Form 1444 (SF-1444)

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such

conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be retroactive to the commencement date of the contract (See 29 CFR 4.6(b)(2)(iv)(C)(vi)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, U.S. Department of Labor, for review (See 29 CFR 4.6(b)(2)(ii)).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination.
