10/24/2007 UECWA Meeting	Upper Eagle Creek Watershed Association & interested individuals from area & Blue	Elaine Zieroth met with about 30 folks from UECWA , locals & folks from the community of Blue to give update on FPR. They met at the Eagle Creek School House. Darcy Ely explained her role in convening a Range Management Discussion Group that is chartered and led by non-agency folks to provide more focused comments to the plan revision process. Attached is some of the information they are working on so far. Representatives of Arizona Game & Fish, and US Fish & Wildlife Service were there as well as someone from the Quivera Coalition and a Greenlee Co.Supervisor. Elaine updated the group on the status of plan revision and explained the upcoming public meeting on technical processes and science in November. She stressed that now was a good time to work on describing desired conditions since that is our next step. She also encouraged them to "mark up" the existing forest plan with any changes in terminology, standards, and guidelines that they recommend we reassess during the planning process. She also discussed the range suitability assessment and the landscape level vegetation analysis.	External	Elaine Zieroth, Forest Supervisor

			Tom called - said he had overheard me speaking to Mayor Teague from Pinetop-Lakeside - asking if I said we were trying to acquire water rights on the Blue. I explained I didn't recall what I was saying to the Mayor, but it was probably that our current forest plan emphasizes acquiring water rights on the forest. I explained to Tom where he could find the forest plan & suggested he could search it for 'water rights' - to see our direction. He then asked what I had said about Wild & Scenic Rivers - I explained we did not have designated rivers. We are required to examine the rivers that are eligible for designation in the national system. I also explained that we have a 1993 eligibility report and are required to manage those rivers so that they are still eligible for designation.	External	Michelle Davalos

Comprehensive Evaluation Report - Initial Draft Desired Conditions

NEWS RELEASE?

8/19/2008	Letter Received	Mark Altaha, White Mountain Apache Tribe, Historic Preservation Office	Comments on draft of desired conditions Forest Plan revision update. Topics: message from acting forest supervisor, upcoming open houses, include initial draft desired conditions packet.	External	Letter sent to Michelle Davalos
Forest Plan Revision Update:					
8/15/2008	Mailing	Public	Returned Michael's phone call - Navajo County Board of Supervisor's requested the information that had been sent in the August 2008 mailing so they can share at their next board meeting.	External	Michelle Davalos
8/19/2008	Phone Call	Michael Dewitt, Navajo Co.	Provided Don with a link to the ASNF GIS data, including the activity information. Also mentioned that Deryl had given Rick Davalos a "heads Up" that he may be requesting info on upcoming WUI treatment areas.	External	Michelle Davalos
8/20/2008	Email	Don Hoffman	Replied back to his concerns with the lack of heritage data in the draft desired conditions: One of the reasons the heritage resources section looks so slim --> in the revised plan we have been directed not to repeat existing law, regulation, or policy (because we are already required to do these things). Since most of our direction related to heritage exists in law, regulation, policy there wasn't a need to restate it.	External	Michelle W. Davalos
8/20/2008	Email	Mark Altaha, White Mountain Apache Tribe, Historic Preservation Office	Edward stopped by to find out the status of revision and to see how TNC could help in the process. Provided the following suggestions: 1) Provide VDDT models for Great Basin grassland and riparian areas (they're working on the riparian ones now).2) Identify specific areas in grasslands that are not restorable - so that we can set priorities for restoration.3) Monitoring - assistance in developing our monitoring program. TNC has done some smaller scale work with BLM - Las Cienegas.4)	External	Michelle W. Davalos cc: Ed DeCleva

7/22/2009	Phone Call	Mary Macnab	Got back with her regarding the status of revision. Explained we were using the provisions of the 1982 Planning Rule. She was concerned with wilderness recommendation - I explained that there are no recommendations at this time, just potential areas. I spoke with Christine Dawe earlier today & called Don back. Explained that the current chapter 70 directives are valid and in force. The 1982 directives no longer exist. There may be some changes based on status of roadless rule. The need analysis followed criteria from Ch 70 - distances were at the discretion of the forest. Capacity to manage was just one of 6 factors of the overall need. Explained that the need is done for a regional look not a local need - we still need input from the public.	External	Michelle Davalos

1/14/2010 Phone Call	Kevin Green	federal register is causing some of the wacky hyperlinks and how we may prevent that from happening in the future. He acknowledged that this is an ongoing problem and apologized - however, it is actually a printing issue. Apparently, the Federal Register prepares the publication and posts the pre-print version as the public inspection copy the day before it appears in the Federal Register (he said we wouldn't notice any problems with this version). From there, it is turned over to GPO (the Government Printing Office) and they format it for printing - this is where the hyperlink issue crops up. Sounds like GPO just doesn't have the resources to check & fix every hyperlink - they have been told their priority is to fix the links in all Rules and Proposed Rules, therefore they don't always get to Notices. Anyway, he said there is really nothing we can do on our end to prevent the "wacky hyperlinks". He said we might try keeping the web addresses short and in the middle of a paragraph - but he said that is no guarantee. Kevin did offer to go back and fix our notice. So we may have the ability to request fixes on a case-by-case basis. He gave me the number(202-741-6050) of the Daily Issue Unit - this is the last group in the Federal Register that touches our notices before it goes to GPO. FR # 202-741-6000.
