Subject: Hanging Lake Rest Area will be closed on Wednesday, September 16 for repairs

Hello All:

I apologize for the late notice. Maintenance alerted me today that they have equipment needed to do some much needed repairs to the barriers that were damaged by the rockfall event we had earlier this summer. This maintenance work should only take the day.

CDOT crews are going to clean out behind the type III barrier at the top of the on ramp WB. They will also be doing some guardrail repairs.

The Hanging Lake Trail Head will still be open and accessible to folks that want to walk or bike there on the Glenwood Canyon bike path.

If you could help us push this information out through your channels that would be greatly appreciated. If you have any questions please let me know.

Thank you,

Tracy
