

# Boise National Forest

## SCHEDULE OF PROPOSED ACTIONS

### October, November, and December 2008

Enclosed is the Schedule of Proposed Actions (SOPA) for the Boise National Forest for the Fall Quarter 2008. The Schedule is also available on-line at <http://www.fs.fed.us/sopa/forest-level.php?110402>. The SOPA is one way we share information about proposed and on-going project analysis and activities on the national forest. The SOPA also tracks and reports project decisions that have been made since the previous SOPA was published in July 2008.

We are continuing our efforts to provide information to you in electronic formats. More documents about our proposed and finalized projects are making their way online. In addition to the current SOPA, check out other documents on our Web site at <http://www.fs.fed.us/r4/boise/projects/>.

During July 2004, we transitioned to the new Web-based database for tracking projects whose National Environmental Policy Act (NEPA) decisions are documented in a decision memo (DM), decision notice (DN), or record of decision (ROD), and we now have a nationwide format for the SOPA. To further improve our delivery of information nationally, the Forest Service will automatically post SOPAs at <http://www.fs.fed.us/sopa> four times per year: January, April, July, and October. This will increase the availability and timeliness of information. All projects are displayed in tables and are sorted alphabetically within Ranger District (refer to example below).

Since many people seem to prefer obtaining information from the web, we are optimistic that this will also reduce administrative costs associated with copying and mailing the SOPAs, as well as the amount of paper used.

Thank you for your continued interest in the Boise National Forest. If you would like to know more about a specific project, please call or write to the listed “contact person” indicated on the Schedule. The Forest will not do “blanket” mailings for each project. Rather, input regarding projects will be sought from persons who have indicated an interest in that particular project.

#### Table Example:
